ABOUT THE AUTHOR

Brunilda Dhamo was born on 18th of March 1989 in Përmet, Albania. She followed primary education in "Nonda Bulka" elementary school and secondary education in "Sami Frashëri" high school in her hometown. In 2007, she was accepted by the Faculty of Dental Medicine "Mother Theresa" in the Medical University of Tirana. She graduated in July 2012 and was licensed as oral physician in May 2013. At the same time she received ERAWEB scholarship to follow the Master of Science program in General Epidemiology at the Netherlands Institute of Health Sciences (NIHES). In 2014 she received a PhD grant from ERAWEB project. During her research activity she worked under the supervision of Prof. dr. E.B. Wolvius and Dr. E.M. Ongkosuwito in the departments of Generation R and Oral & Maxillofacial Surgery, Special Dental Care and Orthodontics at the Erasmus University Medical Center in Rotterdam. She aims to follow Orthodontics training program and continue with dental research.

PhD PORTFOLIO

Name PhD student	Brunilda Dhamo
Departments	Generation R Study Group, Erasmus Medical Center Rotterdam Oral & Maxillofacial Surgery, Special Dental Care and Orthodontics, Erasmus Medical Center Rotterdam
Research school	Netherlands Institute for Health Sciences (NIHES), Rotterdam
PhD period	September 2014-June 2017
Promotor	Prof. dr. Eppo B. Wolvius
Co-promotor	Dr. Edwin M. Ongkosuwito

	Year	Workload (ECTS)
1. PhD training		
Master of Science in General Epidemiology, NIHES, Rotterdam, the Netherlands	2013-2014	
Doctor of Science in Clinical Epidemiology, NIHES, Rotterdam, the Netherlands	2014-2015	
Erasmus summer Program		
Principles of Research in Medicine	2013	0.7
Methods of Public Health Research	2013	0.7
Introduction to Global Public Health	2013	0.7
Social Epidemiology	2013	0.7
Primary and Secondary Prevention Research	2013	0.7
Topics in Meta-analysis	2014	0.7
Cohort Studies	2014	0.7
Case-control Studies	2014	0.7
Methods of Health Services Research	2014	0.7
Markers and Prognostic Research	2014	0.7
Conceptual Foundation of Epidemiologic Study Design	2015	0.7
Causal Inference	2015	0.7
History of Epidemiologic Ideas	2015	0.7
Advances in Epidemiologic Analysis	2015	0.7
Causal Mediation Analysis	2015	0.7
Core curriculum		
Study Design	2013	4.3
Biostatistical Methods I: Basic Principles	2013	5.7
Methodologic Topics in Epidemiologic Research	2013	1.4
Biostatistical Methods II: Classical Regression Models	2013	4.3
Public Health Research Methods	2013	5.7
Advanced courses		
Quality of Life Measurement	2014	0.9
From Problem to Solution in Public Health	2014	1.1
Public Health in Low and Middle Income Countries	2014	3.0
Bayesian Statistics	2015	1.4
Women's Health	2015	0.9

Advanced Topics in Clinical Trials	2015	1.9
Principles of Epidemiologic Data-analysis	2015	0.7
Skill courses		
English Language	2013	1.4
Courses for the Quantitative Researcher	2013	1.4
Introduction to Medical Writing	2014	1.1
General academic courses		
Endnote, Medical Library, Erasmus MC	2014	0.3
Research Integrity, Erasmus MC	2016	2.0
HiX training, Erasmus MC	2017	
Seminars and workshops		
Seminars, Epidemiology	2013-2017	1.0
Generation R Research Meetings	2013-2017	1.0
Generation R maternal and child health meetings	2013-2017	1.0
Research meetings, Department of Oral & Maxillofacial Surgery, Special Dental Care and Orthodontics, Erasmus MC	2014-2017	1.0
PhD Day, Erasmus MC	2016	0.6
De 7 ^e Jonge Onderzoekersdag van de Nederlandse Werkgroep Hoofd-Hals, het Nieuwe Instituut, Rotterdam	2017	0.5
Maintaining Oral Health Symposium, ACTA dental Education, Amsterdam	2017	
Winter School in Clinical Epidemiology, UMIT, Hall, Austria	2017	
Inter(national) conferences		
Nederlandse Vereniging voor Orthodontisten Najaarsvergadering, Zwolle, the Netherlands. Oral presentation	2015	0.5
IADR/AADR, Annual meeting, Boston, Massachusetts, USA. Poster presentation	2015	0.7
AADR/CADR, Annual meeting, Los Angeles, California, USA. Oral presentation	2016	
IADR/AADR/CADR, Annual meeting, San-Francisco, California, USA. Oral presentation	2017	
Scholarships and grants		
ERAWEB Master Student Grant	2013	
ERAWEB PhD Student Grant	2014	
Verenging Trustfonds Erasmus Universiteit Rotterdam Grants	2015-2017	
2. Teaching activities		
Supervision of master student project "The association between brainstem volume and dental development in children"	2017	4.0

1 ECTS (European Credit Transfer System) is equal to a workload of 28 hours

WORDS OF GRATITUDE

Each page of this book starts and ends with sincere gratitude to everyone who supported my education and helped me improve in the academic and personal level.

ERAWEB was definitely an unique opportunity and I am humbly thankful to the program for sponsoring my education in epidemiology and research activity.

During my PhD, I had the chance to work in the Generation R Study Group. I would like to thank the people who founded the cohort, all the staff, children and their parents for the commitment and dedication to participate in the Generation R. Thank you to everyone who welcomed and helped me during the data collection in the clinical centers and to the patients who became part of my projects.

Especially, I would like to thank my promotor and co-promotor, Prof. Wolvius and Dr. Ongkosuwito. Dear Prof. Eppo, thank you for the trust, continuous support and independence during my PhD and further. I have been lucky to follow the clinical visits of the prep team headed by you. Thank you for being the best example I could have of a clinician. Dear Edwin, you are the main actor of my progress in dental research. Without your help, agreements and disagreements, this thesis couldn't be finished in less than four years. I am grateful to you for the dedication and care not only to my manuscripts but also to my future career. You strengthen my ambition to become an orthodontist and fed my hope and motivation that a good clinician can also be a good researcher.

Dear committee members, Prof. Jaddoe, Prof. Pasmans and Prof. Declerck thank you for agreeing to read and evaluate my thesis. Dear Prof. Vincent thank you for the opportunity to work in your group. I am grateful to you for the careful consideration and fast feedback to improve my manuscripts. Dear Prof. Suzanne, thank you for your positivity and contribution in our future projects on ectodermal dysplasia. I am looking forward to our collaborations. I also kindly thank Prof. Cune, Prof. Hofstra and Prof. Mathijssen for agreeing to be the members of the plenary committee during my PhD defense.

I would like to thank all the co-authors for their input and contribution in the manuscripts of my thesis. Dear Prof. Hofman, thank you for your care and support from the first manuscript. Dear Fernando and Carolina, thank you for your help in understanding genetic ancestry and special ideas to improve our project. Dear Christo, thank you for the kind welcome in your clinic and help to continue with my research on oligodontia patients. Dear Willem and Marijn, thank you for the dedication to our manuscript from data-collection to publication.

My special thanks to the Generation R team and colleagues! You all made my work experience in the Generation R a remarkable time of my life. "Football" girls: Aleksandra J, Carlijn, Claire, Elise, Florianne, Guannan, Junwen, Kozeta, Laura, Lea, Marjolein, Marleen, Mirjana, Susana, Suzanne, Tamara, Zoe. Thank you for keeping up a friendly atmosphere out of the work environment. Guannan, thank you for being the most positive and cheerful person I had the chance to know. I was honored to be a bridesmaid in your wedding. Sunayna, what a pleasure to travel in Albania together. Thank you for your friendship. Fadila, Frank, Koen, Martijn, Philip, Ryan, Ronald, Rosa, Sander, Tavia, Willem thanks for the nice Friday borrels, drinks, chats and jokes. Desi and Michiel, thank you for having me almost every day in your

office. Aleksandra I, Fernanda, Gilson, Gogo, Jelena P, Joost, Laura H, Manuela, Maria, Nikola, Oxana thank you for the nice time we shared during summer program and master period. Oxana, thank you for being such a good friend even in distance.

I will miss mostly my roomies. Laura, Mirjana and Susana, as friends and colleagues, you have been a great support to me. Laura, rebel spirit with a good heart, when I will put on my eye cream each morning I will think of that day in San-Francisco and laugh. Mirjana, I admire your character and personality. Susana, calm and hard-working, I have learned from your knowledge and skills in research.

I am grateful to my colleagues in dental research group: Dear Lea and Strahinja, as my senior colleagues, I would like to thank you for the effort put in our common projects and nice time spent in Boston and New York. Strahinja, thank you for the supervision during my master thesis. I am glad we continued to work together and managed to finish other projects. Dear Lea, thank you for all the support. It has been a pleasure to collaborate together. Dear Justin, thank you for the willingness to help unconditionally. Dear Olja, I am pleased we worked together in one of my favorite manuscripts. Dear Amanda, our junior colleague, I hope we can share ideas and collaborate in the future. Dear Maarten and Linda thank you for organizing fruitful research meetings in our department. Dear Maarten, thank you for the help to carry on my first project as a supervisor. Dear Sandra, thank you for the care, kindness and positivity to solve my concerns instantly.

Kripmjaltëzat shqiptare, Adela, Alban, Albana, Arjola, Blerim, Blin, Elda, Enisa, Enri, Eralda, Fjorda, Gera, Jana, Juna, Ilir, Kaltrina, Klea, Klodi, Kozeta, Najada, Natyra, Olta, Taulant, Vincent, Vilma dhe Yllza pa ju kjo eksperiencë nuk do ishte kaq dinamike dhe mbresëlënëse. Ju falenderoj për të gjitha momentet e bukura që kemi kaluar bashkë por edhe për ato më pikantet. Adela, je një ndrikull e pazëvendësueshme. Klea, ëmbëlsira e shtëpisë në Rotterdam, faleminderit që m'i ke bërë darkat shlodhëse dhe fundjavat energjike. Olta, të falenderoj për mbështetjen tënde që nga momenti i parë kur jemi njohur dhe deri më sot. Bashkë me Taulantin keni qenë shembull për t'u ndjekur, si për nga papërtesa për të punuar por edhe nga shpirti luftarak kundrejt padrejtësive. Tao, do na mungosh në ndeshjet e botërorit dhe jo vetëm. Yllzi, je një mikeshë shumë e dashur dhe e vecantë për mua. Faleminderit që më ke qëndruar kaq pranë dhe që do jesh krah meje edhe në mbrojtjen e tezës. Alisa, Alma, Ela, Rovi faleminderit që më keni karikuar me energji çdo verë. Uroj që t'i vazhdojmë çdo vit pushimet e bukura dhe të qeshurat pafund. Besiana, motra ime e dytë, jam e lumtur që je pjesë e këtij libri ashtu si je pjesë e jetës sime. Ke qenë shtysa kryesore që zgjodha stomatologjinë, ndaj faleminderit.

Nuk mund ta shpreh dot me fjalë gjithë dashurinë, respektin dhe mirënjohjen që kam për më të shtrenjtën dhe të paçmueshmen, familjen time. Babi, mami dhe Ina jam njeriu më me fat që ju kam. Babi dhe mami faleminderit për vetësakrifikimin dhe përkushtimin. Babi, faleminderit që më ke puthur çdo mëngjes herët pa ikur në punë dhe çdo mbrëmje kur ktheshe nga puna para se të më zinte gjumi. Faleminderit që nuk më ke thënë asnjëherë "Jo". Faleminderit që më ke thënë dhe thua gjithmonë "Sa te kesh babin, mos e çaj kokën". Mami, je idhull për mua. Faleminderit që i je dedikuar plotësisht edukimit tim dhe të Inës. Faleminderit që më ke thënë edhe "Jo". Faleminderit që më ke mësuar të njoh dhe vlerësoj

të mirën dhe të bukurën, dhe të jem gjithmonë e pavarur. Ina, të kam dhe motër dhe vëlla. Faleminderit që ke qenë gjithmonë e para dhe shembulli im më i mirë. Faleminderit ty dhe Marselit që më bëtë teze dhe më dhuroat mbesën më të bukur ne botë, dashurinë Iris. Uroj që të më lumturoni përsëri. Ju dua shumë!
