

An abstract painting featuring a dense composition of colorful, geometric shapes and stylized human figures. The palette is dominated by deep blues, vibrant reds, and various shades of green, with accents of orange, white, and purple. The figures are composed of flat, rectangular and circular planes, giving them a blocky, almost architectural appearance. The overall effect is one of complex, layered patterns and strong visual contrast.

Primary Health Care Use among Ethnic Minorities in the Netherlands

A comparative study
