

Contents

1 Introduction.....	1
1.1 Measuring time preference	2
1.2 Applications of proposed measurement methods	4
1.3 Universality of utility	5
1.4 The time tradeoff method	6
1.5 Outline	7
2 Developments in time preference and their implications for medical decision making.....	9
2.1 Introduction	9
2.2 Review of theoretical developments	11
2.3 Review of empirical developments	15
2.4 Discussion and implications for medical decision making	21
3 Intertemporal tradeoffs for gains and losses: An experimental measurement of discounted utility.....	25
3.1 Introduction	26
3.2 Theory and existing empirical evidence	30
3.3 Measurement method	34
3.4 Experiment	37
3.5 Results	44
3.6 Discussion	59
3.7 Conclusion	63

Appendix 3A. Proof that we can freely choose the utility of two outcomes when the unit of time and the final period are the same across temporal profiles	64
Appendix 3B. Example of the display participants faced in the elicitation of utility	65
Appendix 3C. Example of the display participants faced in the elicitation of the time weights	66
Appendix 3D. Individual parameter estimates	67
4 Time standard sequences for quantifying and visualizing the degree of time inconsistency, using only pencil and paper.....	75
4.1 Introduction	76
4.2 Discounted utility	80
4.3 Deriving the degree of time inconsistency from time standard sequences	83
4.4 Time standard sequences to measure proneness to arbitrage	87
4.5 Illustrations of time standard sequences	92
4.6 Deriving the discount function from time standard sequences	96
4.7 Method of experiment	101
4.8 Results	105
4.9 Discussion	114
Appendix 4A. Proofs	119
Appendix 4B. Display screen and behavioral questions	121
5 A new method for measuring the utility of life duration.....	122
5.1 Introduction	123
5.2 Background	126

5.3 The risk-free method	128
5.4 The certainty equivalence method	130
5.5 The tradeoff method	131
5.6 Experiment	133
5.7 Results	139
5.8 Discussion	145
Appendix 5A. Health state descriptions (translated from Dutch)	147
Appendix 5B. Display screen	148
Appendix 5C. Explanation midpoint technique	149
Appendix 5D. Convenience questions (version RF-TO CE, translated from Dutch)	150
6 The correction of TTO scores for utility curvature using a risk-free utility elicitation method.....	151
6.1 Introduction	152
6.2 Theory and related literature	154
6.3 Method	160
6.4 Experiment	163
6.5 Results	165
6.6 Discussion	173
7 Can we fix it? Yes we can! But what? A new test of procedural invariance in TTO measurement	177
7.1 Introduction	178
7.2 Background	179
7.3 New test	184
7.4 Results	185

7.5 Discussion	188
8 On the (not so) constant proportional tradeoff in TTO	191
8.1 Introduction	192
8.2 TTO and constant proportional tradeoffs	194
8.3 Empirical evidence on CPTO	197
8.4 Testing CPTO while correcting for utility curvature and avoiding MET	203
8.5 Discussion	207
9 Conclusion	211
9.1 Time preference	211
9.2 Universality of utility	214
9.3 Time tradeoff method	215
