

Contents

Chapter 1	5
General Introduction	
Chapter 2	15
Endpoints of arm movements to visual targets	
Chapter 3	33
Visuomotor adaptation to different amplitudes and directions of shifted visual feedback	
Chapter 4	45
Adaptation of movement endpoints to perturbations of visual feedback	
Chapter 5	69
Body-centered visuomotor adaptation	
Chapter 6	83
Summary and conclusions	
References	89
Samenvatting	101
Dankwoord	105
Curriculum Vitae	107
Publications	109
