Chapter 1. General Introduction

1.1 Classification and characteristics 10
1.2 Epidemiology and clinical manifestations 11
1.3 Immunity to hRSV 12
  1.3.1 Innate immunity 12
  1.3.2 Adaptive immunity 13
    1.3.2.1 Humoral immune response to hRSV 13
    1.3.2.2 Cellular immune response to hRSV 14
    1.3.2.3 Mucosal immunity 15
1.4 hRSV pathogenesis and immunopathogenesis 15
  1.4.1 Specific immune response in infants with hRSV bronchiolitis 16
  1.4.2 A role for hRSV in the development of asthma of allergy? 16
  1.4.3 hRSV vaccine-mediated enhanced disease in infants 16
  1.4.4 hRSV vaccine-mediated enhanced disease in laboratory animals 17
1.5 hRSV vaccine development 18
  1.5.1 Subunit vaccine BBG2Na 19
  1.5.2 MVA as a vector for hRSV gene delivery 19
1.6 Animal models in RSV research 19
  1.6.1 Mice 20
  1.6.2 Cotton rats 20
  1.6.3 bRSV infection in calves 20
  1.6.4 Non-human primates 21
1.7 Outline of this thesis 21

Chapter 2. hRSV-specific immune responses in infants
