Curriculum Vitae

Erwin van der Laan was born on February 18th, 1969, in Reeuwijk. After completing 'Gymnasium B' at the Chr. Havo-Lyceum Gouda in 1987, he studied econometrics at the Erasmus University Rotterdam. In 1993 he received his MSc. after writing a thesis on inventory control for production systems in a remanufacturing environment. At Erasmus he was given the opportunity to continue the research on reverse logistics through a Ph.D. project at the Faculty of Business Administration. This research, partly in cooperation with Volkswagen Germany, has resulted in a number of publications, which all have been presented at international conferences.
