INDEX

Acceleration principle, 164, 181
Af talion, A., 47 n.
"Agricultural" business-cycle theories, 214
Allen, R. G. D., 184
Amplitude of cycle, 8, 66, 82, 236
Asymmetrical cycles, 69
Asymptote, 10
Australia, seasonal fluctuation in building industry in, 94
Austria, postwar inflation in, 145
Balance of payments, 149, 217, 280, 311, 841, 857
Belgium: depreciation and unemployment in, 86, 269, 314; expenditure policy of, 259–41
Boehm-Bawerk, E., 180 n.
Bowley, A. L., 184
Brazil, coffee policy of, 239
Bresciani-Turroni, C., 44
Building cycle; see Residential construction
Burgess, W. Randolph, 301
Canada, appreciation of exchange in, 311
Capacity: effect of, on cycles, 212; effect of, on investment, 172; effect of, on output, 115; effect of, on price, 16
Capital: as business-cycle variable, 203; formation of, 184, 186; statistics on stock of, 89; supply of, 113; and taxation, 288, 292
Cassel, Gustav, 117, 125, 135, 155
Cattle cycle, 93
Chall, B. A., 105, 181
China, postwar inflation in, 145
Circular flow, 160
Civil War, 47
Clark, J. M., 171, 324, 352
Coal strike (United Kingdom, 1926), 51
Colweb theorem, 255
Coffee cycle, 83, 238
Commercial policy, 348–49
Commodity standard, 903
Consumption, 113, 161, 188–91, 277
Correlation, 15; multiple, 23
Cotton, crop cycle of, 92
"Cotton famine," 49
Credit rationing, 173, 302
Criterion of economic policy, 865
Crops, 77–79, 215, 289, 248, 252, 256
Cumulation, 17, 63
Curve of technical possibilities, 28
Curvilinear relationship, 16
Cycles, 10, chap. iv, 81, chap. xiii
Cyclical budget, 520
Czechoslovakia, depreciation and employment in, 314
Damping, 5, 9, 62, 81, 201, 236
Data, 100, 255
Decomposition of series, 9, 25, 254, 256
Demand: analysis of, 104, 118, 142, 284; curve of, 105, 254; factors of, 108; intensity of total, 114
Denmark: appreciation in, in 1924–26, 85, 269, 313; depreciation and employment in, 314
Depreciation, 192
De Wolff, 61 n., 68, 157
Douglas, Paul H., 85, 119, 181, 276 n.
Echo principle, 157, 178, 202, 230, 310
Economic dynamics, chap. ix, 190, 250
Economic justice, 294, 299
Economic statistics, chap. ix, 114, 247, 250, 253
Economic structure, chap. iii, 100, 227, 235
Egypt, cotton exports of, 51
Endogenous movements, 102, 206, 234, 247, 255, 256
Equilibrium values, 258, 304–57
Exchange rate, 86, 87, 140, 151, 152, 280, 311–14, 358
Exogenous movements, 100, 108, chap. xv, 256
Exponential curve, 6, 25, 255
Federal Reserve System, 289–90
Finland: business-cycle policy of, 97; business-cycle reserve in, 540

383
THE DYNAMICS OF BUSINESS CYCLES

Fisher, Irving, 146, 308, 311
Fixed costs, 29
Flow variables, 31, 267
France: financial data, 1870–1910, 37; increase in capital in, 31; increase in industrial production in, 32; increase in labor productivity of, 28; increase in land in, 27; increase in population in, 25, 31; postwar inflation in, 47–48; public debt in, 39; wage policy of, 305, 309
Frisch, Ragnar, 108
Full employment, 118, 231, 264, 272, 555–57
Functional relationship, 12
Gaussian law, 4, 77
Gayer, Arthur D., 329
Germany: change in economic structure of, after 1935, 54, 229, 231; expansion of investment in, at expense of consumption, 199; financial data, 1870–1910, 37; government expenditure policy of, 399–401; hog cycle in, 238 n.; increase in capital in, 31; increase in industrial production in, 32; increase in labor productivity of, 28; increase in land in, 27; increase in population in, 25, 31; postwar inflation in, chap. iii, 145; public debt in, 39; residential construction in, 86; wage policy of, 308
Gold: and general devaluation, 318; and interest rates, 216; production of, and long waves, 155
Goudriaan, J., 309
Government: debt, 39, 337; demand and inflation, 139; expenditure of, chap. xxi; relative size of, in economy, 277
Graham, Benjamin, 308
Greece, postwar inflation in, 145
Growth curve, 7, 26, 91
Hanau, A., 92
Hawtrey, R. G., 152
Hayek, F. A., 287, 361
Hoffmann, W., 24, 94
Hog cycle, 98, 335–38, 355, 361
"Horizon," 240
Hungary, postwar inflation in, 145
Imports, short-run fluctuations in, 96, 245
Income: distribution of, 36, 185, 192, 292, 275, 355; effect of, on consumption, 188; formation of, 191–95; formation and use, 160
Inflation, chaps. iii, xi
Influence coefficient, 22
Instrument of economic policy, 264
Interest rate: and consumption, 15; nation, of, 215–18; as interest link, 281; and investment, 167
152; long-run tendency of, 189; in, 289–302; real, 117
International co-operation, 338, 357
International Monetary Fund, 313
International trade, 34, 228, 315
Interruptions, chap. iii
Inventions, 173, 263
Inventories; see Stocks
Investment, 94, 66, 114, 161, 168–85
57
Investment control, 345–46
Japan, 81, 88, 280
Juglar, 61
Kaldor, N., 225
Kalecki, M., 203, 309
Keynes, J. M., 162, 168, 188, 187, 227
Kitchin, 61, 214, 251
Kondratieff, 61
Kunnts, S., 74
Labor: marginal productivity of, 276; productivity of, 24, 26; supp. 118, 125, 153
Lag, 17, 68, 174, 187, 202, 230, 281, 244, 334, 359, 381
Land, 26
League of Nations, economic studies 170, 175, 205
Lindahl, E., 295 n.
Linear relationship, 13
Liquidity preference, 136
Logistic curve, 7
Long-run developments, chaps. ii, x
Long waves, 10, 61, chap. xii
Marginal propensity: to consume, 187, 295–98, 388; to import, 388; t.c.
vest, 290
Meade, J. E., 170 n.
Monetary equilibrium, 281
Money: abstraction from, 117; in business cycles, 216; desirable quantity 276; effect of, on prices, 135; and inflation, 145; quantity theory of, 1 two streams of, 160
"Money illusion," 117, 156
 Movements: antidamped, 3, 8; compos 9; damped, 5, 8; elementary, 3; encl

enous, 102, 266, chap. xv, 256; ex-
enous, 102, 266. See also Income
National income, definition, 161; See also Income
Netherlands: amplitude of income series in, 67; depreciation and employment in, 36, 209, 364; increase in capital in, 31; increase in population in, 31; public works in, 339-41; residential construction in, 243, 244; seasonal pattern of building industry in, 8; wage elasticity of employment in, 307
New Deal, 6, 368, 308
New Zealand, appreciation of exchange in, 311
Normal distribution, 4
Norway: appreciation in 1924-26, 35, 269, 314; depreciation and employment in, 314
Objectives of economic policy, 265; chap. xviii
Open-market policy, 209-202
Oversaving, 225
Pareto's law, 184
Pareto, V. A., 35, 265, 155
Period of cycle, 4, 10, 60, 61, 201, 229
Poland, postwar inflation in, 145
Population, 24, 85, 187, 190
Price policy, 274, 303, 309-11
Prices: of capital goods, 171; of consump-
tion goods, 165; in cyclical models, 206-
10; inflation in, chaps. iii, vi; long waves in, 54, 186
Product function, 120, 130, 276 n.
Productivity, 24, 27, 196
Profit expectations, 166
Propensity to save, 134, 128
Purchasing-power parity theory, 152
Quantity theory, 146
Quasi-periodic movements, 8, 214
Quasi-supply curve, 235
Random movements, 8, 10, chap. vi, 233
Random variable, 4
Raw-material production, 304, 346-48
Real income, 36
Real wage rate, long-run increase in, 36
Regression coefficient, 23
Relationship: curvilinear, 16; linear, 13
Rent, 941
Residential construction, 65, 94, 241-45, 349-50
Saving: and capital formation, 124; de-
sirable level of, 277, 335-57; and invest-
ment, 108; and taxation, 288, 281
Scatter diagram, 12
Schumpeter, Joseph, 69, 937 n.
Schutz, M. J., 270 n.
Seasonal component, 10, 72, 90
Seasonal fluctuations, chap. v, 85, 92, 230
Shape of cycles, 69, 231
Share prices, 194, 219-23, 310
Share yield, 167, 219-28
Shepherd, Geoffrey S., 870 n.
Shipping industry, 64
Sine curve, 8, 18
Snyder, Carl, 35, 163
Speculative profits and losses, 103-53, 199, 250, 274, 316, 317
Stability, 239, 264, 339-54
Stagnation, 182, 355
Stochastic relationship, 12
Stock-exchange policy, 316
Stock variables, 81, 267
Stocks (inventories): acceleration prin-
ciple in, 165, 181, 245; explanation of
fluctuations in, 130; long-run growth of,
34; speculative profits on, 198
Stone, R. and W. M., 187
Structural policy, 265
Supply: analysis of, 104, 118, 149, 234;
curves of, 10, 105, 284; factors of, 108
Sweden: appreciation of exchange in, 311;
business-cycle policy of, 77, 280; de-
preciation and employment in, 314; ef-
fect on, of government expenditure pol-
ICY, 339-41; increase in capital in, 31;
increase in population in, 31; lag in start-
ing public works in, 384; seasonal pat-
tern of building industry in, 83
Taxation, 278, 283, chap. xix, 316
Technique; see Productivity
Tinbergen, J., 199 n., 170 n., 300 n., 380 n.
Trend, 9, chap. ii, 81, 269
Trend policy, 265 n.
THE DYNAMICS OF BUSINESS CYCLES

Turning points, 160, 200, 213, 223, 256, 257
Two-year agricultural cycle, 95, 239–41

Unemployment, voluntary and involuntary, 183

United Kingdom: appreciation of sterling in, 1823, 313; coal strike in, 31; conversion of government debt in, 300; 'cotton famine' in, 49; financial data, 1870–1910, 37; hog cycle in, 258; income distribution in, 37; increase in capital in, 31; increase in industrial production in, 32; increase in labor productivity in, 28; increase in land in, 27; increase in population in, 25, 31; investment-goods production in, 34; prices in, 35, 61; public debt in, 39; residential construction in, 35; timing of business-cycle series in, 64, 189

United States: amplitude of income series in, 68; effect of government expenditure policy in, 339–41; entrepreneurs' response to government spending, 244, 325, 330; financial data, 1870–1910, 37; income distribution in, 37; increase in capital in, 31; increase in industrial production in, 32; increase in labor productivity in, 18; increase in land in, 27; increase in population in, 25, 31; investment in, 175; lag in starting public works in, 234; low expenditure in, 1833–37, 330; monetary policy of, 299–302; money supply in, 38; New Deal in, 56, 108, 308; price stability in, 1823–29, 310; public debt in, 39; residential construction in, 35, 41–43; stock-exchange regulation in, 317; taxation and national income in, 279; wage policy of, 308

United States Department of Agriculture, 279 n.
U.S.S.R., 81, 96, 269, 281

Van Gelderen, 61 n.
Verdoorn, P. J., 29 n.

Wage policy, 305 n.
Wage rate, 117, 149, 210, 276.
Wagemann, 61, 153, 238 n.
Walras, L., 134, 284.
Warren, G. F., 88, 95, 133.

Wars effect of, on trends, 39, 131; and inflation chap. 31; as interruptions, 41.
