	Introduction to the series	v
	Preface	vi
I	Introductory	1
II	Centralized Quantitative Policy	4
	2.1 Fixed targets	4
	2.2 Flexible target policy; consistency	7
	2.3 Efficiency	14
	2.4 Conformity and non-conformity; trial-and-error method	15
III	Decentralized Quantitative Economic Policy	18
	3.1 Nature of problem; applications	18
	3.2 Types of Equations; conformity	20
	3.3 Examples: I Government and trade unions	22
	3.4 Examples: II Employers and trade unions	25
	3.5 Examples: III Ten countries	28
	3.6 Result of decentralized policy; stability of equilibrium	39
	3.7 Consistency	43
IV	Qualitative Economic Policy: Generalities	45
	4.1 Definition	45
	4.2 Determination of consequences	46
	4.3 Choice of optimum policy	49
	4.4 Some particular forms of utility functions	52
V	On the Theory of Centralization	54
	5.1 Object of a theory of centralization and essence of a centralized economic policy	54

5.2 Comparison between results of centralized and decentralized economic policy 61
5.3 Examples II, III A and III B; examples of types of instruments 64
5.4 The choice between centralization and decentralization of instruments 73
