Correlational finding on Happiness and Current household-composition

Subject code: H12.2

Study **AUSTR 1984/2**

Reported in: Austrom, D.R.
The Consequences of Being Single.
Peter Lang Publisher, 1984, New York, USA ISBN 0 8204 0095 5
Page in Report: 112/113

Population: 23-59 aged English speaking, Toronto and Ontario, Canada, 198?

Sample:

Non-Response: 45%

N: 1038

Correlate

Authors label: Living arrangements (1)

Our classification: Current household-composition, code H12.2

Measurement: 4-item index. The respondents were asked which one of the following described their current living arrangements best:
1. live alone, 2. single parent with child(ren), 3. live with parents, 4. live with roommates.

Observed Relation with Happiness

<i>Happiness Measure</i>	<i>Statistics</i>	<i>Elaboration/Remarks</i>
O-SLW/u/sq/n/11/a	<u>DMt= ns</u>	NON-MARRIED Ss ONLY. Married (including not formally married cohabitating (considered as married) Ss left out. - live alone: Mt = 7.8 - one parent with child: Mt = 7.6 - live with parents: Mt = 7.7 - live with roommates: Mt = 8.0

Authors label: Household type

Our classification: Living alone or not, code H12.2.1

Measurement: Household-situations for men:

- a: couple, no child, man works part time (substantial), woman has a job
- b: couple, with child, man works full-time, woman has a job
- c: couple, no child, man works full-time, woman has no job
- d: couple with child, man works full-time, woman has no job
- e: couple, with child, man works part-time (substantial), woman has a job
- f: couple, no child, man works full-time, woman has a job
- g: couple, no child, man has no job, woman has no job
- h: man lives alone, works full-time
- i: couple, no child, man has no job, woman has a job, man does housekeeping
- j: man lives alone, works part-time (substantial or small)
- k: man lives alone, has no job

Household-situations for women:

- a: couple, with child, woman works full-time, man works
- b: couple, with child, woman works part-time (substantial), man works
- c: couple, no child, woman works full-time, man works
- d: couple, no child, woman works part-time, man works
- e: couple, with child, woman has no job, man works
- f: woman lives alone, works full-time
- g: couple, no child, man has no job and keeps the house, woman works
- h: couple with child, woman works part-time (small), man works
- i: couple, no child, woman has no job, man has no job
- j: couple, no child, woman has no job, man works
- k: woman lives alone, works part-time (small or substantial)
- l: mother lives alone, has a job
- m: woman lives alone, has no job
- n: mother lives alone, has no job

Measured Values: N: Men: 696: a: 25; b: 127; c: 48; d: 74; e: 16; f: 129; g: 49; h: 107; i: 29. N: Women: 795: a: 21; b: 119; c: 54; d: 100; e: 57; f: 60; g: 35; h: 27; i: 63; j: 76; k: 64; l: 26; m: 69; n: 24.

Page in Report: 261

Population: 18+ aged, general public, non-institutionalized, former province Kuopio, Finland, 1991-'96.

Sample: Probability sample (unspecified)

Non-Response: not rep

N: 2682

Correlate

Authors label: Lack of privacy (in housing) (1)

Our classification: Attitude to privacy, code H12.4.2

Measurement: Have you experienced lack of privacy (in housing)
 (a) during the last year ?
 (b) ever in your life?
 Answers: No(=0) or Yes(=1).

Measured Values: Never: N = 2002 Ever in your life: N = 447

Observed Relation with Happiness

Happiness Measure	Statistics	Elaboration/Remarks
<u>O-SLu/c/sq/v/5/g</u>	<u>r=-.11</u>	during the last year
<u>O-SLu/c/sq/v/5/g</u>	<u>r=-.10</u>	ever in your life
<u>O-SLu/c/sq/v/5/g</u>	<u>DM=-</u>	never: M = 3.90 ever in your life: M = 3.68 95% CI for difference: [0.13 ; 0.31]

Correlational finding on Happiness and Attitudes to household-members

Subject code: H12.4.3

Study	HENLE 1967
<i>Reported in:</i>	Henley, B.; Davis, M.S. Satisfaction and Dissatisfaction: A Study of the Chronically-Ill Aged Patient. Journal of Health and Social Behavior, 1967, Vol.8, 65 - 75. ISSN 0022 1465 Page in Report: 71
<i>Population:</i>	60+ aged chronically-ill, followed three years, USA, 1959-62
<i>Sample:</i>	
<i>Non-Response:</i>	24% not available because of death, mental deterioration, unknown address or r
<i>N:</i>	167

Correlate

<i>Authors label:</i>	Quality of contacts with household members. (2)
<i>Our classification:</i>	Attitudes to household-members, code H12.4.3

Appendix 1: Happiness Items used

<i>Happiness Item Code</i>	<i>Full Text</i>
A-AOL/c/sq/v/4/a	Selfreport on single question: "In general, how good would you say your spirits are these days....?" 4 excellent 3 very good 2 fair 1 poor
A-AOL/m/sq/v/5/a	Single direct question: How are you feeling now....? 5 very good 4 good 3 neither good nor poor 2 poor 1 very poor
A-AOL/md/sq/v/5/a	Selfreport on single question: Now thinking about today, how would you describe your mood, has it been ..? 1 very bad 2 somewhat bad 3 good nor bad 4 somewhat good 5 very good
A-BB/cm/mq/v/2/a	Selfreport on 10 questions: During the past few weeks, did you ever feel? (yes/no) A Particularly exited or interested in something? B So restless that you couldn't sit long in a chair? C Proud because someone complimented you on something you had done? D Very lonely or remote from other people? E Pleased about having accomplished something? F Bored? G On top of the world? H Depressed or very unhappy? I That things were going your way? J Upset because someone criticized you? Answer options and scoring: yes = 1 no = 0 Summation: -Positive Affect Score (PAS): A+C+E+G+I -Negative Affect Score (NAS): B+D+F+H+J -Affect Balance Score (ABS): PAS minus NAS Possible range: -5 to +5

Name: Bradburn's 'Affect Balance Scale' (standard version)

A-BB/cw/mq/v/4/c

Selfreport on 8 questions:

" In the past few weeks did you ever feel.....?"

A Pleased about having accomplished something

B Upset because someone criticized you

C Proud because someone complimented you on something you had done

D That things are going your way

E So restless you couldn't sit long in a chair

F Unhappy or depressed

G Particularly interested in something

H Lonely and remote from other people

Response options:

0 not at all

1 sometimes

2 often

3 very often

Scoring: a = 0.....d = 3

Summation:

Positive Affect Score (PAS): summed scores on A, C, D, G

Negative Affect Score (NAS): summed scores on B, E, F, H

Affect Balance Score (ABS): PAS minus NAS

Name: Bradburn's Affect Balance Scale (variant)

M-FH/cm/sq/v/4/a

Selfreport on single question:

".....happiness during past few weeks....."

(Full lead not reported)

4 very happy

3

2

1 not too happy

M-FH/g/sq/n/11/b

Selfreport on single question:

Now I am going to ask you how you FEEL, not just at the moment, but GENERALLY in your life. How happy do you generally feel? On a scale from 0 to 10...

0 completely unhappy

1

2

3

4

5 neutral

6

7

8

9

10 completely happy

M-TH/cm/sq/v/5/a

Selfreport on single question:

During the past 4 weeks..... Have you been a happy person?

- 5 all of the time
- 4 most of the time
- 3 some of the time
- 2 a little of the time
- 1 none of the time

Item MH5 in SF-36 (Medical Outcome Study 36 item Short Form) version 2 (5-step rating scale)

O-DT/cm/sq/v/5/a

Selfreport on two questions:

A At this present moment, how do you feel about your life as a whole?

- 1 terrible (very dissatisfied)
- 2 unhappy (dissatisfied)
- 3 neutral (neither satisfied nor dissatisfied)
- 4 pleased (satisfied)
- 5 delighted (very satisfied)

B Taking all the above into consideration, on an ascending scale from 1-5, how satisfied are you with your life at present?

Question A asked at the beginning of the interview and question B at the end.

Summation: (A+B)/2

O-DT/u/sq/v/7/a

Selfreport on single question, asked twice in interview:

How do you feel about your life as a whole.....?

- 7 delighted
- 6 pleased
- 5 mostly satisfied
- 4 mixed
- 3 mostly dissatisfied
- 2 unhappy
- 1 terrible

Summation: arithmetic mean

Name: Andrews & Withey's "Delighted-Terrible Scale" (original version)
Also known as Lehman's 'Global lifesatisfaction'

O-HL/c/sq/v/3/a

Selfreport on single question:

Taking all together, how would you say things are these days? Would you say you are?

- 3 very happy
- 2 pretty happy
- 1 not too happy

O-HL/c/sq/v/3/aa

Selfreport on single question:

Taken all together, how would you say things are these days? Would you say that you are....?

- 3 very happy
- 2 pretty happy
- 1 not too happy

O-HL/c/sq/v/4/a	Selfreport on single question: Do you feel your life at present is.....? 4 very happy 3 quite happy 2 quite unhappy 1 very unhappy
O-HL/c/sq/v/4/b	Selfreport on single question: Is your life at this moment? 4 very happy 3 fairly happy 2 fairly unhappy 1 very unhappy
O-HL/c/sq/v/4/d	Selfreport on single question: Do you feel that your life at present is.....? 4 very happy 3 quite happy 2 unhappy 1 very unhappy
O-HL/c/sq/v/5/h	Selfreport on single question 'How happy are you now?' 5 very happy 4 happy 3 neither happy nor unhappy 2 unhappy 1 very unhappy Original text in Danish: 'Hvor lykkelig er du for tiden?' 5 meget lykkelig 4 lykkelig 3 hverken eller 2 ullykkelig 1 meget ullykkelig
O-HL/g/sq/v/3/d	Selfreport on single question: Generally speaking, how happy would you say you are.....? 3 very happy 2 fairly happy 1 not too happy
O-HL/u/sq/v/2/a	Selfreport on single question: Are you happy with your life? 2 yes 1 no - don't know
O-HL/u/sq/v/3/f	Selfreport on single closed question: "Overall, how happy would you say you are with your life.....?" 3 very happy 2 somewhat happy 1 unhappy

O-HL/u/sq/v/4/a

Selfreport on single question:

Taking all things together, would you say you are.....?

- 4 very happy
- 3 quite happy
- 2 not very happy
- 1 not at all happy.

O-HP/u/sq/v/5/a

Selfreport on single question

To what extend do you consider yourself a happy person....?

- 5 very happy
- 4 happy
- 3 neither happy nor unhappy
- 2 not very happy
- 1 unhappy

O-SL?/?/sq/l/10/a

Selfreport on single question:

Ss were asked to rate themselves on an 1 - 10 rating ladder in terms of their self-perceived life satisfaction.

(Full question not reported).

- [10] +

(labels of scale extremes not reported)

O-SL?/?/sq/v/5/a

Selfreport on single question:

"..... satisfaction with life"

(full question not reported)

- 5 very satisfied
- 4 satisfied
- 3 don't know/satisfied
- 2 don't know/not satisfied
- 1 disappointed in life

O-SLL/c/sq/v/5/d

Selfreport on single question:

How satisfied are you with the life you currently lead?

- 5 extraordinary satisfied
- 4 very satisfied
- 3 satisfied
- 2 fairly satisfied
- 1 not so satisfied

O-SLL/g/sq/v/4/a

Selfreport on single question:

In general, how satisfied are you with your way of life.....?

- 4 quite satisfied
- 3 fairly satisfied
- 2 sometimes dissatisfied
- 1 usually dissatisfied

O-SLu/c/sq/v/5/e

Selfreport on single question:

'How satisfied are you with your life now?'

5 very satisfied

2 satisfied

3 neither satisfied nor dissatisfied

2 dissatisfied

1 very dissatisfied

Original text in Danish:

'Hvor tilfreds er du med dit liv for tiden?'

5 meget tilfreds

4 tilfreds

3 hverken tilfreds eller utilfreds

2 utilfreds

1 meget utilfreds

O-SLu/c/sq/v/5/g

Self report on single question:

How satisfying do you find your life at the moment.....?

1 very dissatisfying

2 quite dissatisfying

3 not satisfying not dissatisfying

4 quite satisfying

5 very satisfying

O-SLu/g/sq/n/11/c

Selfreport on single question:

How satisfied are you with your life in general?

10 completely satisfied

9

8

7

6

5

4

3

2

1

0 completely dissatisfied

O-SLu/g/sq/v/5/f

Selfreport on single question:

How satisfied are you with your life in general?

5 completely satisfied

4 very satisfied

3 somewhat satisfied

2 not very satisfied

1 not at all satisfied

O-SLu/g/sq/v/7/a

Selfreport on single question:

'How satisfied are you with your life in general?'

1 completely unsatisfied

2 very unsatisfied

3 unsatisfied

4 unsatisfied nor satisfied

5 satisfied

6 very satisfied

7 completely satisfied

O-SLW/?/sq/v/4/a

Selfreport on single question:

".....satisfaction with life-as-a-whole....."
(Full question not reported.)
1 very dissatisfied
2 somewhat dissatisfied
3 very satisfied
4 extremely satisfied

O-SLW/?/sq/n/5/a

Selfreport on single question asked twice
".... satisfaction with life on the whole.."
(full lead item not reported)

1 completely dissatisfied
2
3 neither satisfied nor dissatisfied

1

0 totally unsatisfied

O-SLW/c/sq/n/11/f

Selfreport on single question:

"Taking all things together, how satisfied are you with your life these days? Please answer with the help of this scale. For instance, when you are very unsatisfied, please tick '0'. When you are partly satisfied, tick '5', and when you are very satisfied please tick '10'."

0 very unsatisfied

1

2

3

4

5 partly satisfied

6

7

8

9

10 very satisfied

O-SLW/c/sq/n/5/b

Selfreport on single question:

When you consider your life-as-a-whole, are you.....?

0 quite dissatisfied

1

2

3

4 very satisfied

O-SLW/c/sq/v/5/t

Selfreport on single question:

How would you describe your satisfaction with life in general at present.....?

- 1 bad
- 2 poor
- 3 fair
- 4 good
- 1 excellent

O-SLW/u/sq/n/11/a

Selfreport on single question:

All things considered, how satisfied or dissatisfied are you with your life as a whole?

- 10 completely satisfied
- 9
- 8
- 7
- 6
- 5
- 4
- 3
- 2
- 1
- 0 completely dissatisfied

O-SLW/u/sq/n/11/ca

Selfreport on single question:

Thinking about your own life and personal circumstances, how satisfied are you with your life as a whole?

- 1 very dissatisfied
- 2
- 3
- 4
- 5 neutral
- 6
- 7
- 8
- 9
- 10 very satisfied

First item in Cummins' 'Personal Well-being Scale' (labels used until 2005)

O-SLW/u/sq/v/5/c

Selfreport on single question:

'How satisfied would you say you are with your life as a whole?'

- 4 completely satisfied
- 3 very satisfied
- 2 moderately satisfied
- 1 slightly satisfied
- 0 not satisfied at all

O-SLW/u/sq/v/6/a

Selfreport on single question:

"How satisfying are these different aspects of your life? Indicate the number which best suits your situation. Life as a whole is....."

- 1 very dissatisfying
- 2 dissatisfying
- 3 rather dissatisfying
- 4 rather satisfying
- 5 satisfying
- 6 very satisfying

This item was followed by eight questions on life domain satisfactions.

O-SLW/u/sq/v/7/a

Selfreport on single question:

Considering everything, how satisfied are you with your life as whole.....?

7 completely satisfied

6 satisfied

5 mostly satisfied

4 satisfied/dissatisfied

3 dissatisfied

2 very dissatisfied

1 completely dissatisfied

O-SLW/u/sqt/v/7/a

Selfreport on single question, asked twice in interview:

Considering everything, how satisfied are you with your life as a whole.....?

7 completely satisfied

6

5

4

3

2

1 completely dissatisfied

Summation: both scores added

Possible range: 2 to 14

O-Sum/cy/mq/v/7/a

Selfreport on four questions:

Using the 1-7 scale below, indicate how much each of the following statements applies for you in the last 18 months.

A In most ways my life is close to ideal

B The conditions of my life are excellent

C I am satisfied with my life

D So far, I have gotten the important things I want in life

Answers rated:

7 applies completely

6 applies

5 applies slightly

4 neither applies nor does not apply

3 slightly not applicable

2 not applicable

1 applies not at all

Computation: A+B+C+D divided by 4

Name: Shortened Diener's Satisfaction with Life Scale (SWLS), last years version

(In the original scale item 5 reads: 'If I could live my life over, I would change nothing'. This item is left out in this selection because a positive answer to this question does not necessarily mean that the respondent doesn't like the life he/she actually lives.)

O-Sum/u/mq/n/7/b

Selfreport on five questions:

A I am very content with my life

B Nothing is currently lacking in my life

C When I examine my life as a whole, I feel I am not meeting my aspirations*

D I feel dissatisfied because I'm not doing everything that I want to be doing in my life*

Rating:

1 strongly disagree

.

.

7 strongly agree

* reversed keyed item

Name: Contentment with life assesment Scale (CLASS)

Appendix 2: Statistics used

<i>Symbol</i>	<i>Explanation</i>
AoV	<p>ANALYSIS of VARIANCE (ANOVA) Type: statistical procedure Measurement level: Correlate(s): nominal, Happiness: metric. In an ANOVA, the total happiness variability, expressed as the sum of squares, is split into two or more parts, each of which is assigned to a source of variability. At least one of those sources is the variability of the correlate, in case there is only one, and always one other is the residual variability, which includes all unspecified influences on the happiness variable. Each sum of squares has its own number of degrees of freedom (df), which sum up to $N_e - 1$ for the total variability. If a sum of squares (SS) is divided by its own number of df, a mean square (MS) is obtained. The ratio of two correctly selected mean squares has an F-distribution under the hypothesis that the corresponding association has a zero-value.</p> <p>NOTE: A significantly high F-value only indicates that, in case of a single correlate, the largest of the c mean values is systematically larger than the smallest one. Conclusions about the other pairs of means require the application of a Multiple Comparisons Procedure (see e.g. BONFERRONI's MULTIPLE COMPARISON TEST, DUNCAN's MULTIPLE RANGE TEST or STUDENT-NEWMAN-KEULS)</p>
B	<p>REGRESSION COEFFICIENT (non-standardized) by LEAST SQUARES (OLS) Type: test statistic Measurement level: Correlate: metric, Happiness: metric Theoretical range: unlimited</p> <p>Meaning: $B > 0$ A higher correlate level corresponds with, on an average, higher happiness rating. $B < 0$ A higher correlate level corresponds with, on an average, lower happiness rating. $B = 0$ Not any correlation with the relevant correlate.</p>
Beta	<p>(β) STANDARDIZED REGRESSION COEFFICIENT by LEAST SQUARES (OLS) Type: test statistic. Measurement level: Correlates: all metric, Happiness: metric. Range: [-1 ; +1]</p> <p>Meaning: $\beta > 0$ « a higher correlate level corresponds with, on an average, higher happiness rating. $\beta < 0$ « a higher correlate level corresponds with, on an average, lower happiness rating. $\beta = 0$ « no correlation. $\beta = + 1$ or -1 « perfect correlation.</p> <p>Remark: Mean of observations is subtracted from all observations if standardized.</p>
BMCT	<p>BONFERRONI's MULTIPLE COMPARISON TEST Type: statistical procedure Measurement level: Correlate: nominal, Happiness: metric</p> <p>Meaning: if the correlate is measured at c levels, the c mean happiness values can be ranked from low to high. A multiple comparison procedure judges for each of the $\frac{1}{2}c(c-1)$ pairs whether or not they differ significantly. A convenient way to represent the results is by ranking the c means and by underlining them in such a way that means which have a common underlining do NOT differ significantly.</p> <p>When added by us, this test is performed at the 95% confidence level for all the differences together.</p>

Chi ²	<p>CHI-SQUARE</p> <p>Type: test statistic</p> <p>Range: [0; Ne*(min(c,r)-1)], where c and r are the number of columns and rows respectively in a cross tabulation of Ne sample elements.</p> <p>Meaning:</p> <p>Chi² ≤ (c-1) * (r-1) means: no association</p> <p>Chi² >> (c-1) * (r-1) means: strong association</p>
D%	<p>DIFFERENCE in PERCENTAGES</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate level: dichotomous, but nominal or ordinal theoretically possible as well.</p> <p>Happiness level: dichotomous</p> <p>Range: [-100; +100]</p> <p>Meaning: the difference of the percentages happy people at two correlate levels.</p>
DM	<p>DIFFERENCE of MEANS</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate: dichotomous, Happiness: metric</p> <p>Range: depending on the happiness rating scale of the author; range symmetric about zero.</p> <p>Meaning: the difference of the mean happiness, as measured on the author's rating scale, between the two correlate levels.</p>
DMt	<p>DIFFERENCE of MEANS AFTER TRANSFORMATION</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate: dichotomous, Happiness: metric</p> <p>Theoretical range: [-10; +10]</p> <p>Meaning: the difference of the mean happiness (happiness measured at a 0-10 rating scale) between the two correlate levels.</p>
E ²	<p>CORRELATION RATIO (Elsewhere sometimes called h² or ETA)</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: nominal or ordinal, Happiness: metric</p> <p>Range: [0; 1]</p> <p>Meaning: correlate is accountable for E² x 100 % of the variation in happiness.</p> <p>E² = 0 « knowledge of the correlate value does not improve the prediction quality of the happiness rating.</p> <p>E² = 1 « knowledge of the correlate value enables an exact prediction of the happiness rating</p>
F	<p>F-STATISTIC</p> <p>Type: asymmetric standard test statistic.</p> <p>Range: nonnegative unlimited</p> <p>Meaning : the test statistic is also called the "Variance Ratio" and is the ratio of two independent estimators of the same variance with n1 and n2 degrees of freedom respectively. The critical values of its probability distribution are tabulated extensively in almost any textbook on Statistics</p>
G	<p>GOODMAN & Kruskal's GAMMA</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: ordinal, Happiness: ordinal</p> <p>Range: [-1; +1]</p> <p>Meaning:</p> <p>G = 0 « no rank correlation</p> <p>G = +1 « strongest possible rank correlation, where high correlate values correspond with high happiness ratings.</p> <p>G = -1 « strongest possible rank correlation, where high correlate values correspond with low happiness ratings.</p>

Gs	<p>PARTIAL GAMMA. See: GAMMA Range: [-1, +1]. Seldom used in happiness research. See excerpted report.</p>
OR	<p>ODDS RATIO Type: descriptive statistic only. Measurement level: Correlate: dichotomous, Happiness level: dichotomous Range: nonnegative unlimited</p> <p>Meaning: OR = 1 « no association at all; OR = 0 or infinite « at least one level of the correlate allows an error-free prediction of the happiness.</p>
r	<p>PRODUCT-MOMENT CORRELATION COEFFICIENT (Also "Pearson's correlation coefficient" or simply 'correlation coefficient') Type: test statistic. Measurement level: Correlate: metric, Happiness: metric Range: [-1; +1]</p> <p>Meaning: $r = 0$ « no correlation , $r = 1$ « perfect correlation, where high correlate values correspond with high happiness values, and $r = -1$ « perfect correlation, where high correlate values correspond with low happiness values.</p>
rpc	<p>PARTIAL CORRELATION COEFFICIENT Type: test statistic Measurement level: Correlate: metric, Happiness: metric Range: [-1; +1]</p> <p>Meaning: a partial correlation between happiness and one of the correlates is that correlation, which remains after accounting for the contribution of the other influences, or some of them, to the total variability in the happiness scores. Under that conditions $rpc > 0$ « a higher correlate level corresponds with a higher happiness rating, $rpc < 0$ « a higher correlate level corresponds with a lower happiness rating,</p>
SNR	Statistic Not Reported
tau	<p>GOODMAN & Kruskal's TAU Type: descriptive statistic only. Measurement level: Correlate: nominal, Happiness: ordinal Range: [0; +1]</p> <p>Meaning: $\tau = 0$ « knowledge of the correlate value does not improve the prediction quality of the happiness rating. $\tau = 1$ « knowledge of the correlate value enables a perfect (error-free) prediction of the happiness rating.</p>
tb	<p>KENDALL'S RANK CORRELATION COEFFICIENT TAU-B Type: test statistic Measurement level: Correlate: ordinal, Happiness: ordinal Range: [-1; +1]</p> <p>Meaning: $tb = 0$ « no rank correlation $tb = 1$ « perfect rank correlation, where high values of the correlate correspond with high happiness ratings. $tb = -1$ « perfect rank correlation, where high values of the correlate correspond with low happiness ratings.</p>

tc

KENDALL'S TAU-C (Also referred to as Stuart's tau-c)

Type: test statistic

Measurement level: Correlate: ordinal, Happiness: ordinal

Range: [-1; +1]

Meaning:

tc = 0 « no rank correlation

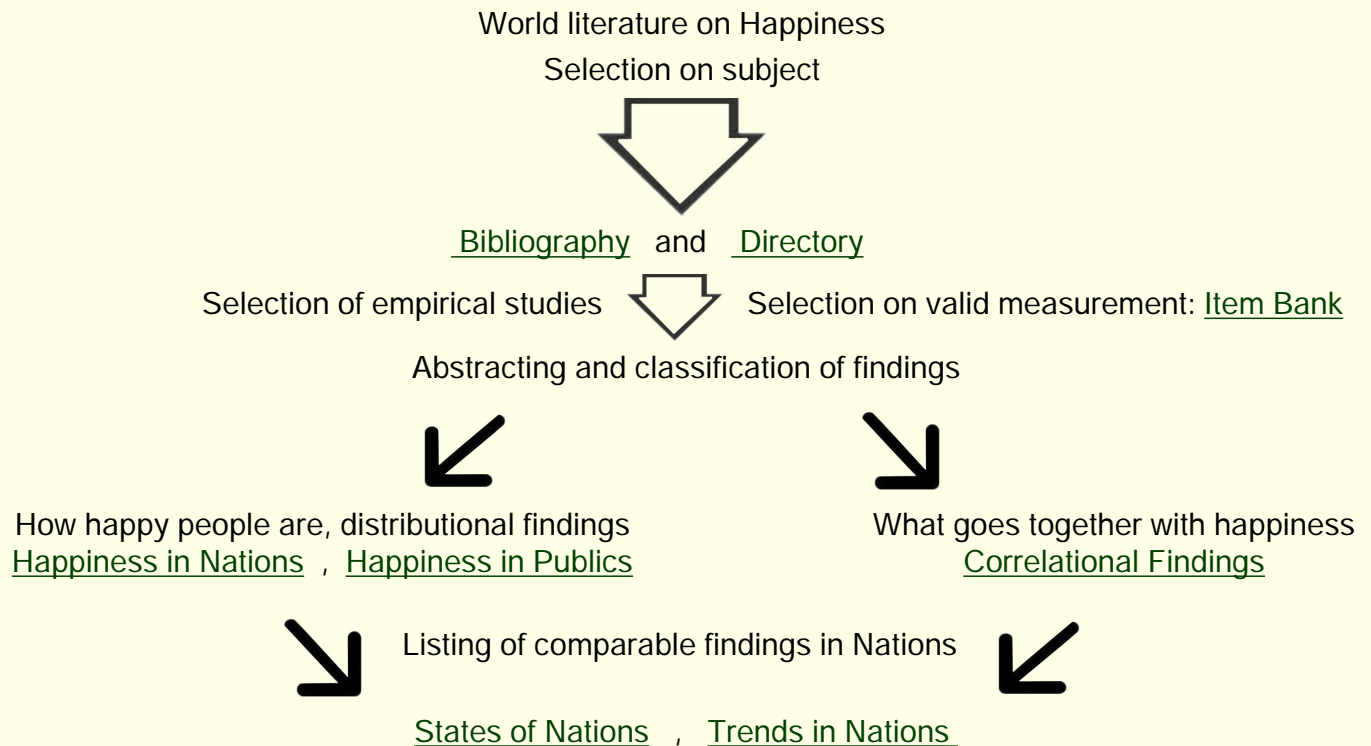

tc = 1 « perfect rank correlation, where high values of the correlate correspond with high happiness ratings.

tc = -1 « perfect rank correlation, where high values of the correlate correspond with low happiness ratings.

Appendix 3: About the World Database of Happiness

Structure of the collections

The World Database of Happiness is an ongoing register of scientific research on the subjective enjoyment of life. It brings together findings that are scattered throughout many studies and provides a basis for synthetic work.

Size of the collections

1226 Happiness measures (Item Bank)

4258 Nations surveys in 206 Nations

149 Distinguished publics in 1199 studies

12032 Correlational findings in 1196 studies

Appendix 4 Further Findings in the World Database of Happiness
