Correlational Findings on Happiness
and LIFE CHANGE
Subject Code: L5

© on data collection: Ruut Veenhoven, Erasmus University Rotterdam

Classification of Findings

Subject Code	Description	Nr of Studies on this Subject
L5	LIFE CHANGE	0
L5.1	Life-change career	3
L5.1.1	Earlier life-change	1
L5.1.2	Change in change-level	0
L5.1.4	Later life-change	0
L5.2	Current life-change (assessed by follow up)	1
L5.2.1	Overall degree of life-change	0
L5.2.2	Specific life-changes	8
L5.3	Attitudes to life-change	0
L5.3.1	Aspired life-change	0
L5.3.1.1	. wish to change life	11
L5.3.1.2	. specific changes wanted	10
L5.3.2	Expected life-change	0
L5.3.3	Satisfaction with life-change	1
Appendix 1	Happiness Items used	
Appendix 2	Statistics used	
Appendix 3	About the World Database of Happiness

<u>O-HP/g/sq/ol/7/a</u>	<u>G=+.15</u>	

Correlational finding on Happiness and Current life-change (assessed by follow up)

Subject code: L5.2

Study **GRAHA 2004**

Reported in: Graham, C.; Eggers, A; Sukhtankar, S.
 Does Happiness Pay? An Exploration based on Panel Data from Russia
 Journal of Economic Behavior & Organization, 2004, Vol. 55, 319 - 342. ISSN 0167 2681 DOI:10.1016/j.jebo.2003.09.0002
 Page in Report: 331

Population: 10+ aged, followed 5 years, Russia 1995-2000

Sample: Probability sample (unspecified)

Non-Response:

N: 5269

Correlate

Authors label: Summed effects of changes in the determinants

Our classification: Current life-change (assessed by follow up), code L5.2

Measurement: Static variables:

- age
- gender
- ethnic minority

T1-T2 Changes in status variables:

- income
- educational level
- educational participation
- health problems
- drinking
- smoking
- marital status
- employment

Remarks: Assessed at T1 (1995) and T2 (2000)

Russia went through major changes in this era, among which a financial crisis in 1998

<i>Happiness Item Code</i>	<i>Full Text</i>
A-AOL/c/sq/v/4/b	Selfreport on single closed question: "How is your mood these days....?" 4 very good all the time 3 2 1 not good almost all the time
A-BB/cm/mq/v/2/a	Selfreport on 10 questions: During the past few weeks, did you ever feel? (yes/no) A Particularly excited or interested in something? B So restless that you couldn't sit long in a chair? C Proud because someone complimented you on something you had done? D Very lonely or remote from other people? E Pleased about having accomplished something? F Bored? G On top of the world? H Depressed or very unhappy? I That things were going your way? J Upset because someone criticized you?

Answer options and scoring:

yes = 1

no = 0

Summation:

- Positive Affect Score (PAS): A+C+E+G+I
- Negative Affect Score (NAS): B+D+F+H+J
- Affect Balance Score (ABS): PAS minus NAS

Possible range: -5 to +5

Name: Bradburn's 'Affect Balance Scale' (standard version)

A-BB/cm/mq/v/5/a

Selfreport on 13 questions:

"During the past four weeks have you ever felt....?" (yes/no)

A Pleased about having accomplished something.

B Things going my way.

C Proud because someone complimented me on something I had done.

D Particularly excited or interested in something I had done.

E On top of the world.

F A deep sense of joy.

G Pleased because my life feels orderly and secure.

H Bored.

I Very lonely and remote from other people.

J Jealous of somebody.

K Angry with someone.

L Disappointed in myself..

M Unhappy about the small number of times I have pleasant feelings and experiences.

Answer options:

0 no

yes

If yes: How often did you feel so?

5 every day

4 several times a week

3 once a week

2 2 or 3 times a month

1 once a month

Summation:

- Positive Affect Score (PAS): Average A to G

- Negative Affect Score (NAS): Average H to M

- Affect Balance Score (AB): PAS minus NAS

Possible range: +42 tot -30

Name : Bradburn's "Affected Balance Scale' (modified version)

A-BK/cm/mq/v/5/a

Selfreport on 40 questions:

"Over this time period (the last few weeks) I have had the feeling described by":

- A My life is on the right track
- B I seem to be left alone when I don't want to be
- C I feel I can do whatever I want to
- D I think clearly and creatively
- E I feel like a failure
- F Nothing seems very much fun any more
- G I like myself
- H I can't be bothered doing anything
- I I feel close to people around me
- J I feel as though the best years of my life are over
- K My future looks good
- L I have lost interest in other people and don't care about them
- M I have energy to spare
- N I smile and laugh a lot
- O I wish I could change some parts of my life
- P My thoughts go around in useless circles
- Q I can handle any problems that come up
- R My life seems stuck in a rut
- S I feel loved and trusted
- T I feel there must be something wrong with me

"Over this period (the last few weeks), "how often you felt..."

- U Satisfied
- V Lonely
- W Free-and-easy
- X Clear-headed
- Y Helpless
- Z Impatient
- AA Useful
- AB Depressed
- AC Loving
- AD Hopeless
- AE Optimistic
- AF Withdrawn
- AG Enthusiastic
- AH Good-natured
- AI Discontented
- AJ Confused
- AK Confident
- AL Tense
- AM Understood
- AN Insignificant

Answer options;

- 0 not at all
- 1 occasionally
- 2 some of the time
- 3 often
- 4 all the time

Summation:

- Positive Affect score (PAS): mean positive items
- Negative Affect Score (NAS): mean negative items
- Affect balance score (ABS): PAS minus NAS

Possible range: -4 to +4

C-BW/c/sq/l/11/a

Selfreport on single question:

"Here is a picture of a ladder. Suppose we say that the top of the ladder represents the best possible life for you and the bottom represents the worst possible life for you. Where on the ladder do you feel you personally stand at the present time?"

[10] best possible life

[9]

[8]

[7]

[6]

[5]

[4]

[3]

[2]

[1]

[0] worst possible life

Preceded by 1) open questions about what the respondent imagines as the best possible life and the worst possible life. 2) ratings on the ladder of one's life five years ago and where on the ladder one expects to stand five years from now.

Name: Cantril's self anchoring ladder rating of life (original)

C-BW/cy/sq/l/9/a

Selfreport on single question:

"Here is a picture of a ladder. At the bottom of the ladder is the worst life you might reasonably expect to have. At the top is the best life you might expect to have. Of course, life from week to week falls somewhere in between. Where was your life most of the time during the past year?"

[9] best life you might expect to have

[8]

[7]

[6]

[5]

[4]

[3]

[2]

[1] worst life you might expect to have

Name: Cantril's self anchoring ladder rating (modified version)

M-AO/u/sq/f/7/a

Selfreport on single question:

Which (of the faces) best described how you feel about your life as a whole?

7 completely happy

6

5

4 neither happy nor unhappy

3

2

1 completely unhappy

M-FH/c/sq/v/7/a

Selfreport on single question:

"Taking all things together, how would you say you have been this period? Check the phrase that best describes how you have felt."

7 very happy

6 happy

5 somewhat happy

4 mixed (about equally happy and unhappy)

3 somewhat unhappy

2 unhappy

1 very unhappy

O-DT/u/sq/v/7/a

Selfreport on single question:

How do you feel about your life as a whole.....?

7 delighted

6 pleased

5 mostly satisfied

4 mixed

3 mostly dissatisfied

2 unhappy

1 terrible

Name: Andrews & Withey's 'Delighted-Terrible Scale' (original version)

O-DT/u/sqt/v/7/a

Selfreport on single question, asked twice in interview:

How do you feel about your life as a whole.....?

7 delighted

6 pleased

5 mostly satisfied

4 mixed

3 mostly dissatisfied

2 unhappy

1 terrible

Summation: arithmetic mean

Name: Andrews & Withey's "Delighted-Terrible Scale" (original version)

Also known as Lehman's 'Global lifesatisfaction'

O-GBB/u/sq/c/9/a

Selfreport on single question:

"Here are some circles that we can imagine represent the lives of different people. Circle eight has all pluses in it, to represent a person who has all the good things in his life. Circle zero has all minuses in it, to represent a person who has all the bad things in his life. Other circles are in between. Which circle do you think comes closest to matching your life?"

(circles not reproduced here)

8 + + + + + + + +

7 + + + + + + + -

6 + + + + + + - -

5 + + + + - - -

4 + + + + - - - -

3 + + + - - - - -

2 + - - - - - - -

2 + - - - - - - -

0 - - - - - - - -

Name: Andrews & Withey's 'Circles Scale'

O-HL/c/sq/?/6/a

Selfreport on single question:

"Generally speaking, are you happy these days.....?"

6 very happy

5

4

3

2

1 very unhappy

(Response options not fully reported)

O-HL/c/sq/n/7/c

Selfreport on single question:

Here are some words and phrases. We would like you to use these in describing how you feel about your present life.

1 not too happy

2

3

4

5

6

7 very happy

Item in Campbell's semantic differential scale

O-HL/c/sq/v/3/aa

Selfreport on single question:

Taken all together, how would you say things are these days? Would you say that you are....?

3 very happy

2 pretty happy

1 not too happy

O-HL/c/sq/v/3/bb

Selfreport on single question:

All in all, how much UNhappiness would you say you find in life today? Would you say...?

3 almost none

2 some unhappiness

1 great unhappiness

O-HL/c/sq/v/3/f

Selfreport on single question:

Considering everything that has happened to you recently, how would you say things are with you - would you say you are.....?

3 very happy

2 pretty happy

1 not too happy

O-HL/c/sq/v/4/b

Selfreport on single question:

Is your life at this moment?

4 very happy

3 fairly happy

2 fairly unhappy

1 very unhappy

O-HL/g/sq/v/3/c

Selfreport on single question:

"In general, how happy would you say you are.....?"

3 very happy

2 fairly happy

1 not too happy

O-HL/u/sq/v/7/b

Selfreport on single question:

How do you feel how happy you are.....?
7 delighted
6 pleased
5 mostly satisfied
4 mixed (about equally satisfied and dissatisfied)
3 mostly
2 unhappy
1 terrible

O-HP/g/mq/v/5/a

Selfreport on 6 questions:

" Describe the kind of person you are. Please read each sentence, then mark how often it is true for you"
1 I feel like smiling
2 I generally feel in good spirits
3 I feel happy
4 I am very satisfied with life
5 I find a good deal of happiness in life
6 I feel sad

Response options:

5 almost always true
4 often true
3 sometimes true
2 seldom true
1 never true

Summation: average

Possible range: 1 to 5

O-HP/g/sq/ol/7/a

Selfreport on single question:

"Generally speaking are you a happy person.....?"

Responses were made on an open line scale, and were later coded in 7 categories:

1 very unhappy
2
3
4
5
6
7 very happy.

O-HP/u/sq/v/3/b

Selfreport on single question:

When somebody would say about you, 'this person is very happy', is he right or wrong.....?

3 right
2 fifty-fifty
1 wrong
- difficult to say.

O-QL?/c/sq/v/6/a

Selfreport on single question:

"..... current quality of life"
(full lead items not reported)

1
2
3
4
5
6

(response options not reported)

O-SL?/?/sq/v/5/a

Selfreport on single question:

"..... satisfaction with life"
(full question not reported)

5 very satisfied
4 satisfied
3 don't know/satisfied
2 don't know/not satisfied
1 disappointed in life

O-SLL/c/sq/v/3/a

Selfreport on single question:

In general how satisfying do you find the way you are spending your life these days. Would you call it.....?
3 completely satisfying
2 pretty satisfying
1 not very satisfying

O-SLL/c/sq/v/3/b

Selfreport on single question:

On the whole, how satisfied would you say you are with your way of life today? Would you say you are.....?
3 very satisfied
2 fairly satisfied
1 not satisfied

O-SLu/c/sq/n/7/c

Selfreport on single question:

Here are some words and phrases. We would like you to use these in describing how you feel about your present life.

1 not very satisfying

2
3
4
5
6

7 completely satisfying

Item in Campbell's semantic differential scale

O-SLu/g/sq/v/5/a

Selfreport on single question:

In general, how satisfied are you with your life.....?

5 very satisfied
4 satisfied
3 average
2 somewhat dissatisfied
1 very dissatisfied

O-SLV/u/sq/t/101/a

Selfreport on single question :

Where would you put your life as a whole on a feeling thermometer?

Rated on 'thermometer scale' (in grades)

0 degrees: very cold, negative

10

20

30

40

50

60

70

80

90

100 very warm, positive

O-SLW/c/sq/l/11/b

Selfreport on single question:

"How dissatisfied would you say you are with things in general today?"

Rated on ladder scale

[10] completely satisfied

O-SLW/c/sq/v/5/n

Selfreport on single question

Now taking everything into account, how satisfied or dissatisfied are you with your life these days?

5 very satisfied
 4 satisfied
 3 neither satisfied nor dissatisfied
 2 dissatisfied
 1 very dissatisfied
 - don't know
 - no answers

Numerical scale reversed

O-SLW/u/sq/v/5/a

Selfreport on single question:

"On the whole, are you satisfied with your life.....?"

5 definitely yes
 4 rather yes
 3 don't know
 2 rather no
 1 definitely no
 - no reply

O-SQL/c/sq/?/5/a

Selfreport on single question:

".....satisfaction with current quality of life"

(Full question not reported.)

1
 2
 3
 4
 +

(Response options: not reported)

O-Sum/cy/mq/v/7/a

Selfreport on four questions:

Using the 1-7 scale below, indicate how much each of the following statements applies for you in the last 18 months.

- A In most ways my life is close to ideal
- B The conditions of my life are excellent
- C I am satisfied with my life
- D So far, I have gotten the important things I want in life

Answers rated:

- 7 applies completely
- 6 applies
- 5 applies slightly
- 4 neither applies nor does not apply
- 3 slightly not applicable
- 2 not applicable
- 1 applies not at all

Computation: A+B+C+D divided by 4

Name: Shortened Diener's Satisfaction with Life Scale (SWLS), last years version

(In the original scale item 5 reads: 'If I could live my life over, I would change nothing'. This item is left out in this selection because a positive answer to this question does not necessarily mean that the respondent doesn't like the life he/she actually lives.)

Appendix 2: Statistics used

Symbol	Explanation
AoV	<p>ANALYSIS of VARIANCE (ANOVA)</p> <p>Type: statistical procedure</p> <p>Measurement level: Correlate(s): nominal, Happiness: metric.</p> <p>In an ANOVA, the total happiness variability, expressed as the sum of squares, is split into two or more parts, each of which is assigned to a source of variability. At least one of those sources is the variability of the correlate, in case there is only one, and always one other is the residual variability, which includes all unspecified influences on the happiness variable. Each sum of squares has its own number of degrees of freedom (df), which sum up to $N - 1$ for the total variability. If a sum of squares (SS) is divided by its own number of df, a mean square (MS) is obtained. The ratio of two correctly selected mean squares has an F-distribution under the hypothesis that the corresponding association has a zero-value.</p> <p>NOTE: A significantly high F-value only indicates that, in case of a single correlate, the largest of the c mean values is systematically larger than the smallest one. Conclusions about the other pairs of means require the application of a Multiple Comparisons Procedure (see e.g. BONFERRONI's MULTIPLE COMPARISON TEST, DUNCAN's MULTIPLE RANGE TEST or STUDENT-NEWMAN-KEULS)</p>
B	<p>REGRESSION COEFFICIENT (non-standardized) by LEAST SQUARES (OLS)</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: metric, Happiness: metric</p> <p>Theoretical range: unlimited</p> <p>Meaning:</p> <p>$B > 0$ A higher correlate level corresponds with, on an average, higher happiness rating.</p> <p>$B < 0$ A higher correlate level corresponds with, on an average, lower happiness rating.</p> <p>$B = 0$ No correlation with the relevant correlate.</p>
D%	<p>DIFFERENCE in PERCENTAGES</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate level: dichotomous, but nominal or ordinal theoretically possible as well.</p> <p>Happiness level: dichotomous</p> <p>Range: [-100; +100]</p> <p>Meaning: the difference of the percentages happy people at two correlate levels.</p>
G	<p>GOODMAN & Kruskal's GAMMA</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: ordinal, Happiness: ordinal</p> <p>Range: [-1; +1]</p> <p>Meaning:</p> <p>$G = 0$ « no rank correlation</p> <p>$G = +1$ « strongest possible rank correlation, where high correlate values correspond with high happiness ratings.</p> <p>$G = -1$ « strongest possible rank correlation, where high correlate values correspond with low happiness ratings.</p>
mc	<p>Guttman's monotonicity coefficient.</p> <p>Range: [-1, +1].</p> <p>Measurement level: Both correlate and happiness ordinal or interval</p> <p>Based on the multiplication of signed differences within one variable with the corresponding difference in the second variable and summation over all possible differences.</p> <p>Seldom used in happiness research. See excerpted report.</p>
mr	<p>Mean correlation coefficient (r).</p> <p>For r, see PRODUCT-MOMENT CORRELATION</p>

r

PRODUCT-MOMENT CORRELATION COEFFICIENT (Also "Pearson's correlation coefficient" or simply 'correlation coefficient')

Type: test statistic.

Measurement level: Correlate: metric, Happiness: metric

Range: [-1; +1]

Meaning:

$r = 0$ « no correlation ,

$r = 1$ « perfect correlation, where high correlate values correspond with high happiness values, and

$r = -1$ « perfect correlation, where high correlate values correspond with low happiness values.

 R^2

COEFFICIENT of DETERMINATION

Type: test statistic

Measurement level: Correlates: all metric, Happiness: metric

Range: [0; 1]

Meaning:

$R^2 = 0$ « no influence of any correlate in this study has been established.

$R^2 = 1$ « the correlates determine the happiness completely.

SNR

Statistic Not Reported

T

TSCHUPROW'S T

Type: test statistic.

Measurement level: Correlate: nominal, Happiness: ordinal

Range: $[0 ; \text{SQRT}[[\min(r,c)-1]/[\max(r,c) -1]]]$, c and r being the numbers of columns resp. rows in a cross tabulation.

Meaning:

$T = 0$ « no association

$T \rightarrow 1$ « strongest possible association.

NOTE: sometimes the square value is reported instead !

Appendix 3: About the World Database of Happiness

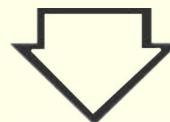

Structure of the collections

The World Database of Happiness is an ongoing register of scientific research on the subjective enjoyment of life.

It brings together findings that are scattered throughout many studies and provides a basis for synthetic work.

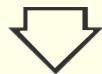

World literature on Happiness

Selection on subject

Bibliography and Directory

Selection of empirical studies

Selection on valid measurement: Item Bank

Abstracting and classification of findings

How happy people are, distributional findings
Happiness in Nations , Happiness in Publics

What goes together with happiness
Correlational Findings

Listing of comparable findings in Nations

States of Nations , Trends in Nations

Size of the collections

1226 Happiness measures (Item Bank)
4258 Nations surveys in 206 Nations
149 Distinguished publics in 1199 studies
12032 Correlational findings in 1196 studies

Appendix 4 Further Findings in the World Database of Happiness

<i>Main Subjects</i>	<i>Subject Description</i>	<i>Number of Studies</i>
