**Findings on Happiness & AGE**

**Correlate Code: A 4**

<b>Classification of Findings</b>		<b>Number of Studies on this Subject</b>
<i>Correlate Code</i>	<i>Correlate Name</i>	
A 4	AGE	6
A 4.1	Age career	0
A 4.1.3	Stage of life	5
A 4.1.3.1	. timeliness of life-stage transition	2
A 4.2	Current age (in years)	222
A 4.2.1	Young versus old	7
A 4.2.2	Age-difference among youngsters	12
A 4.2.3	Age-differences among elders	16
A 4.3	Attitudes to one's age	0
A 4.3.1	Attitudes to own age	0
A 4.3.1.1	. subjective age (how old one feels)	2
A 4.3.1.2	. age identification	0
A 4.3.1.3	. satisfaction with age	2
A 4.3.1.4	. attitude to aging (getting older)	4
A 4.3.2	Own attitude to older people	1

- T1 early
- T1 on time
- T1 late
- T2 early
- T2 on time
- T2 late
- T3 early
- T3 on time
- T3 late

-Mean happiness scores over 5 years (average T1, T2, T3) and at T1, T2 and T3 separately, rated on a 3-point scale : 1: very happy, 2: pretty happy, 3: not too happy

-Blank columns/rows indicate insignificant difference.

-Stress measured by repeated negative events in the past year.

-Timeliness of transition was measured by the time at which the transitions, the Ss faced at T1, had really occurred.

Study	LOWEN 1975	Page in Report:	87
<i>Reported in:</i>	Lowenthal,M.F., Thurnher,M. & Chiriboga,D. Four stages of life: A comparative study of women and men facing transitions Jossey-Bass, 1975, San Fransisco, USA

### Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>	
A-BB/cm/mq/v/2/a	DMt=+	Age (years)	Happiness (Ms')
		T1 T2	T1 T2
		15-19 29-33	5.81 6.70
		20-34 34-48	6.02 6.82
		35-49 49-63	6.93 7.40
		50-64 64-78	7.23 7.62
		65-86 79-100	7.51 6.38

Significant effect of age.  
Both positive affect (PA) and negative affect (NA) decline with age. Negative affect declines most. As a result Affect Balance (Hedonic Level) rises. This appears both in cross-sectional and longitudinal comparison.

Unaffected by sex

*Happiness Query Code*    *Full Text*

---

A-AOL/c/sq/v/4/b      Selfreport on single closed question:

"How is your mood these days....?"

4 very good all the time

3

2

1 not good almost all the time

A-AOL/cq/sq/v/10/a      Selfreport on single question:

"Mood is usually applied to states lasting for minutes or hours, but most people can estimate their average or typical mood over a long period of time. Using the following scale, please indicate which statement best describes your typical mood for the current spring semester. Draw a circle around the number of the statement which best describes your average level of happiness or unhappiness during this semester.

10 Complete elation, rapturous joy and soaring ecstasy

9 Very elated and in very high spirits. Tremendous delight and buyoancy

8 Elated and in high spirits

7 Feeling very good and cheerfull

6 Feeling pretty good , "OK"

5 Feeling a little bit low. Just so-so

4 Spirits low and somewhat "blue"

3 Depressed and feeling very low.  
Definitely "blue"

2 Tremendously depressed.

Feeling terrible, really miserable, "just awful"

1 Utter depression and gloom. Completely down.

All is black and leaden. Wish it were all over.

A-AOL/q/sq/v/3/d      Selfreport on single question:

"I now mention some experiences, moods. Please tell me how often you feel so ....." happy." (one of several moods)"

1 seldom or never

2 sometimes

3 often

In German:

"Ich lese Ihnen einige Empfindungen, Stimmungen vor. Sagen Sie mir bitte jeweils ob Sie sich fühlen .....Glücklich"

1 selten oder nie

2 manchmal

3 oft

A-AOL/m/sq/v/5/a      Single direct question:

'How are you feeling now....?'

5 very good

4 good

- 3 neither good nor poor  
2 poor  
1 very poor

Original text in Danish:  
'Hvordan har du det for tiden?  
5 meget godt  
4 godt  
3 hverken godt eller dårligt  
2 dårligt  
1 meget dårligt

A-AOL/u/sq/l/11/a

Selfreport on single question:

'We would like to know how you are feeling?

0 very bad

1

2

3

4

5

6

7

8

9

10 very good

A-BB/cm/mq/v/2/a

Selfreport on 10 questions:

"During the past few weeks, did you ever feel ....?" (yes/no)

A Particularly excited or interested in something?

B So restless that you couldn't sit long in a chair?

C Proud because someone complimented you on something you had done?

D Very lonely or remote from other people?

E Pleased about having accomplished something?

F Bored?

G On top of the world?

H Depressed or very unhappy?

I That things were going your way?

J Upset because someone criticized you?

Answer options and scoring:

yes = 1

no = 0

Summation:

-Positive Affect Score (PAS): A+C+E+G+I

-Negative Affect Score (NAS): B+D+F+H+J

-Affect Balance Score (ABS): PAS minus NAS

Possible range: -5 to +5

Name: Bradburn's 'Affect Balance Scale' (standard version)

A-BB/cq/mq/v/3/a

Selfreport on 10 questions:

"During the past few months, have you ever felt..... (often, sometimes, never?"

- A Particularly exited or interested in something?
- B So restless that you couldn't sit long in a chair?
- C Proud because someone complimented you on something you had done?
- D Very lonely or remote from other people?
- E Pleased about having accomplished something?
- F Bored?
- G Depressed or very unhappy?
- H That things were going your way?
- I Upset because someone criticized you?

Answer options and scoring:

- 0 = no
- if yes
- 3 often
- 2 sometimes
- 1 never

Summation:

- Positive Affect Score (PAS): A+C+E+I
- Negative Affect Score (NAS): B+D+F+H+J
- Affect Balance Score (ABS): PAS minus NAS
- Possible range: -15 to +12
- Name: Bradburn's 'Affect Balance Scale' (standard version)
- Selfreport on 10 questions:

A-BB/cw/mq/v/2/a

"During the past week, did you ever feel.....?"

- A So restless that you could not sit long in a chair
- B Proud, because someone had complimented you
- C Very lonely or remote from people?
- D Pleased about having accomplished something
- E Bored
- F On top of the world?
- G Depressed
- H That things were going your way?
- I Upset because someone criticized you?
- J Could not do anything, simply because you could not start?

Answer options and scoring:

- yes = 1
- no = 0

Summation:

- Positive Affect Score (PAS): summed scores on B,D F,H
- Negative Affect Score (NAS): summed scores on A,C,E,G,I,J
- Affect Balance Score (ABS): PAS minus NAS

Possible range -6 to +4

A-BB/cw/mq/v/4/b

Name: Bradburn's `Affect Balance Scale' (adapted version)

Selfreport on 8 questions:

"During the past week, did you ever feel.....?"

- A Particularly interested in or excited about something
- B Pleased about having accomplished something
- C On top of the world
- D Pity for some people you know
- E Helpless, with no control over situations
- F Bored
- G Vaguely uneasy about something without knowing why
- H Angry about something that usually wouldn't bother you

Rating options:

- 0 never
- 1 once
- 2 several times
- 3 often

Summation: Factorially derived clusters:

A+B+C+D (Enhancement)

E+F+G+H (Discomfort)

Affect Balance Score: Enhancement minus Discomfort.

Possible range: + 16 to - 16

A-BB/cw/mq/v/4/c

Name: Bradburn's `Affect Balance scale' (modified version)

Selfreport on 8 questions:

" In the past few weeks did you ever feel.....?"

- A Pleased about having accomplished something
- B Upset because someone criticized you
- C Proud because someone complimented you one something you had done
- D That things are going your way
- E So restless you couldn't sit long in a chair
- F Unhappy or depressed
- G Particularly interested in something
- H Lonely and remote from other people

Response options:

- 0 not at all
- 1 sometimes
- 2 often
- 3 very often

Scoring: a = 0.....d = 3

Summation:

Positive Affect Score (PAS): summed scores on A, C, D, G  
 Negative Affect Score (NAS): summed scores on B, E, F, H  
 Affect Balance Score (ABS): PAS minus NAS

A-BB/cw/mq/v/4/d  
 Name: Bradburn's Affect Balance Scale (variant)  
 Selfreport on 8 questions.

"During the past week, did you ever feel.....?"

- A very lonely
- B restless
- C bored
- D depressed
- E on top of the world
- F excited or interested
- G pleased about accomplishment
- H proud

Answer options:

- 1 never
- 2 once
- 3 several times
- 4 often

Summation:

- Positive Affect Score (PAS): E+F+G+H
- Negative Affect Score (NAS): A+B+C+D
- Affect Balance Score (ABS): PAS-NAS+13

A-BB/cw/mq/v/4/e  
 Name: Bradburn's Affect Balance Scale (modified version)  
 Selfreport on 9 questions:

"We are interested in the way people are feeling these days. The following list describes some of the ways people feel at different times. Please indicate how often you felt each way during the last week.

"How often last week did you feel ....."

- A On the top of the world
- B Very lonely or remote from other people
- C Particularly excited or interested in something
- D Depressed or very unhappy
- E Pleased about having accomplished something
- F Bored
- G Proud because someone complimented you on something you had done
- H So restless you couldn't sit long in a chair
- I Vaguely uneasy about something without knowing why

Answer options:

- 0 not at all
- 1 once

- 2 several times
- 3 often

## Summation:

Positive Affect Score (PAS): summed scores on A, C, E, G

Negative Affect Score (NAS): summed scores on B, D, F, H, I

Affect Balance Score (ABS): PAS minus NAS

Possible range: -15 tot +12

Name: Bradburn's `Affect Balance Scale' (modified version)

A-BB/u/mq/v/3/a

Selfreport on 8 questions:

"Here is a list that describes some of the ways people feel at different times. How often do you feel each of these ways?"

- A Very lonely or remote from other people
- B Depressed or very unhappy
- C Bored
- D So restless you couldn't sit long in a chair
- E Vaguely uneasy about something without knowing why
- F On top of the world
- G Particularly excited or interested in something
- H Pleased about having accomplished something

## Answer options:

- 0 never
- 1 sometimes
- 2 often

## Summation:

Positive Affect Score (PAS): summed scores on F, G, H

Negative Affect Score (NAS): summed scores on A, B, C, D, E

Affect Balance Score (ABS): PAS minus NAS

Possible range -10 to +6 (transformed to ridits (0 - 1))

Name: Bradburn's `Affect Balance Scale' (modified version)

A-BC/cm/mq/v/4/a

Selfreport on 13 questions:

"During the past month, did you ever feel.....?"

- A. Exited or pleased about something you were doing
- B. That important things in life are going your way
- C. Happy, satisfied, or pleased with your personal life.
- D. Exited or pleased with something you did or a problem you solved
- E. That you have a lot of friends you can count on
- F. Nervous or tense
- G. So restless and irritated you couldn't sit still
- H. Down-hearted or depressed

- I. Felt concerned or worried about your health
- J. Guilty about something you shouldn't have done
- K. Unable to get a good night's sleep
- L. That your mind was not working the way it should
- M. Miserable or discouraged about your future

Answer options:

- 1 none of the time
- 2
- 3
- 4 most of the time

Summation:

Positive Affect Scale (PAS):A+B+C+D+E

Negative Affect Scale (NAS):F+G+H+I+J+K+L+M

Affect Balance Scale (ABS): PAS minus NAS

Possible range: -32 to + 20

Name: Bradburn's Affect Balance Scale (variation by Cohen)

A-BK/cm/mq/v/5/a

Selfreport on 40 questions:

"Over this time period (the last few weeks) I have had the feeling described by":

- A My life is on the right track
- B I seem to be left alone when I don't want to be
- C I feel I can do whatever I want to
- D I think clearly and creatively
- E I feel like a failure
- F Nothing seems very much fun any more
- G I like myself
- H I can't be bothered doing anything
- I I feel close to people around me
- J I feel as though the best years of my life are over
- K My future looks good
- L I have lost interest in other people and don't care about them
- M I have energy to spare
- N I smile and laugh a lot
- O I wish I could change some parts of my life
- P My thoughts go around in useless circles
- Q I can handle any problems that come up
- R My life seems stuck in a rut
- S I feel loved and trusted
- T I feel there must be something wrong with me

"Over this period (the last few weeks), "how often you felt..."

- U Satisfied
- V Lonely
- W Free-and-easy
- X Clear-headed
- Y Helpless
- Z Impatient
- AA Usefull

AB Depressed  
 AC Loving  
 AD Hopeless  
 AE Optimistic  
 AF Withdrawn  
 AG Enthusiastic  
 AH Good-natured  
 AI Discontented  
 AJ Confused  
 AK Confident  
 AL Tense  
 AM Understood  
 AN Insignificant

Answer options;  
 0 not at all  
 1 occasionally  
 2 some of the time  
 3 often  
 4 all the time

Summation:  
 - Positive Affect score (PAS): mean positive items  
 - Negative Affect Score (NAS): mean negative items  
 - Affect balance score (ABS): PAS minus NAS  
 Possible range: -4 to +4

A-CA/mh/ri/v/2/b

Interviewer-rating of cheerfulness:

Altogether the respondent looks.....  
 2 quite cheerfull  
 1 not too cheerfull  
 - difficult to say

Part of the 8 item Allensbacher Ausdrücktest which also involves ratings of cheerful appearance in: look, mouth, posture, movements, eyes, elbows and lips. This general rating is the last item in the test.

Original text in German:

Der Befragte sieht insgesamt -  
 2 Ganz fröhlich aus.....  
 1 Nicht so fröhlig aus.....  
 - Unmöglich zu sagen.....

A-CP/q/rdn/?/7/a

Rating by two independant staffmembers who were familiar with the patient.  
 7 happy  
 6  
 5  
 4  
 3  
 2  
 1 depressed

C-?/c/sq/v/4/a

Selfreport on single question:

"In general, how good would you say your spirits are these days....?"

- 4 excelent
- 3 very good
- 2 fair
- 1 poor

C-ASG/h/mq/v/5/a

Selfreport on 2 questions:

A. "How important was each of the following goals in life in the plans you made for yourself in early adulthood?"

- occupational success
  - family life
  - friendships
  - richness of cultural life
  - total service to society.
- 1 less important to me than to most people  
2  
3  
4  
5 of prime importance to me

B. "How succesfull have you been in the persuit of these goals?"

- 1 little satisfaction in this area  
2  
3  
4  
5 had excellent fortune in this respect

Computation: General Satisfaction 5 is the quotient obtained by multiplying the planned goal (early adulthood) by the reported success in attaining that goal, adding the five of these multiplied areas and dividing them by the sum of the planned goals for each of the areas.

$$\frac{Pa.Sa + Pb.Sb + Pc.Sc + Pd.Sd + Pe.Se}{Pa + Pb + Pc + Pd + Pe}$$

Pa = planned goal a (1-5)

Sa = success goal a (1-5)

C-RA/c/mq/l/21/a

Difference between selfreports of ideal and real life:

A: Ideal life, the best life one could hope for

B: Real life, rating of present life

Full items not reported

Both items rated on a 21 step ladder scale:

20 best possible life, the most wonderfull life you could imagine for anybody

.

.

.

0 worst possible life

---

C-RA/h/sq/v/2/a	<p>Computation: Gap = A-B Selfreport on single question.:</p> <p>"Up to now, have you been able to satisfy most of your ambitions in life or have you had to settle for less than you had hoped for .....?" 2 able to satisfy ambitions 1 settled for less</p>
C-RG/h/sq/l/11/a	<p>Selfreport on single question:</p> <p>"How would you rate yourself as to how successful or unsuccessful you have been in terms of achieving your own goals and aims in life? Think of the top of the ladder as being completely successful, the bottom being entirely unsuccessful." [ 10 ] completely successfull [ 9 ] [ 8 ] [ 7 ] [ 6 ] [ 5 ] [ 4 ] [ 3 ] [ 2 ] [ 1 ] [ 0 ] entirely unsuccessfull</p>
M-ACO/u/mq/n/4/a	<p>Selfreport on 6 questions:</p> <p>A On the whole, life gives me a lot of pleasure B On the whole, I am very satisfied with my life today C Things are getting just worse for me as I get older D All in all, I find a great deal of happiness today E I have a lot to be sad about F Nothing ever turn out for me the way I want it</p> <p>Scoring 4 strongly agree 3 2 1 strongly disagree</p>
M-AO/c/mq/*/0/a	<p>Computation: simple addition. Possible range 6-24 Selfreport on 4 questions:</p> <p>A "For the past five years, how much have you accomplished of what you planned in your life?" B "How much are you satisfied with your life as a whole these days?" C "How much do you enjoy your life these days?" D "How happy have you been for the past five years?"</p>
M-AO/g/mq/v/5/a	<p>Summation: simple average Selfreport on 6 questions:</p>

---

- A On the whole, how happy would you say you are?  
 B On the whole, I think I am a quite happy person.  
 C In general, how would you say you feel most of the time -in good or in low spirits?  
 D I get a lot of fun out of life.  
 E I wish I could be as happy as others seem to be.  
 F How often do you feel downcast and rejected?

Response options: not reported

The items of this scale were randomly distributed in the questionnaire.

Name: Rosen 'Depressive Affect Scale'

M-CO/h/sq/v/4/a

Selfreport on single question:

"How do you feel things have worked out for you generally?

- 4 very well  
 3 fairly well  
 2 not very well  
 1 not at all well

M-CO/u/mq/v/7/a

Selfreport on 3 questions:

- A How do you feel about what you are accomplishing in life?  
 B How do you feel about your life as a whole?  
 C In general, how happy would you say you are these days?

Answer options:

- 7 completely satisfied  
 6 very satisfied  
 5 satisfied  
 4 satisfied - dissatisfied  
 3 dissatisfied  
 2 very dissatisfied  
 1 completely dissatisfied

Possible range 3 - 21

M-FH/c/sq/l/11/a

Selfreport on single question:

Lead item not reported.

- 11 the happiest I could be  
 10  
 9  
 8  
 7  
 6  
 5  
 4  
 3  
 2  
 1 the saddest I could be

M-FH/c/sq/v/5/a

Selfreport on single question:

"How do you feel yourself at the time being? Is your present wellbeing.....?"

- 5 very high
- 4 high
- 3 moderate
- 2 rather low
- 1 low

Original text in German:

"Wie wohl fühlen Sie sich derzeit? Ist Ihr Wohlbefinden zur Zeit ....."?"

- e sehr grosz
- d grosz
- c mässig
- b eher gering
- a sehr gering

M-FH/c/sq/v/7/a

Selfreport on single question:

"Taking all things together, how would you say you have been this period? Check the frase that best describes how you have felt."

- 7 very happy
- 6 happy
- 5 somewhat happy
- 4 mixed (about equally happy and unhappy)
- 3 somewhat unhappy
- 2 unhappy
- 1 very unhappy

M-FH/cm/sq/v/4/a

Selfreport on single question:

".....happiness during past few weeks....."

(Full lead not reported)

- 4 very happy
- 3
- 2
- 1 not too happy

M-FH/cm/sq/v/5/a

Selfreport on single question:

"How would you rate the last month of your life. Was it a happy or an unhappy time for you.....?"

- 5 very happy time
- 4 fairly happy time
- 3 happy nor unhappy
- 2 rather unhappy time
- 1 very unhappy time

Original text in German:

"Wie wurden Sie den letzten Monat Ihres Lebens einstufen? War das für Sie eine glückliche oder eine unglückliche Zeit.....?"

- e sehr glückliche Zeit
- d recht glückliche Zeit
- c weder glücklich noch unglücklich
- b eher unglückliche Zeit
- a sehr unglückliche Zeit

---

	Original text in Dutch: "Als u van uzelf zou moeten zeggen of u zich gelukkig of niet gelukkig voelt, wat zegt u dan?" c gelukkig b gelukkig noch ongelukkig a ongelukkig
M-PL/c/rc/v/5/a	Clinical rating by 4 experts on the basis of multi-method assessments during periodical stays in assesment center.
	Rater instruction: "To what extend does this person find pleasure in life at the present time.....?" 1 low 2 3 average 4 5 high
M-PL/h/sq/v/5/b	Selfreport on single question: following enumeration of lifegoals in six areas, the last of wich was 'joy in living'  " How successfull have you been in pursuit of that goal.....?" (joy in living) 5 had excellent fortune in this respect 4 3 2 1 found little satisfaction in this area
M-PL/u/sq/n/5/a	Selfreport on single question:  "I have a lot of pleasure in my life" 1 totally disagree 2 3 4 5 totally agree
M-TH/g/sq/v/11/a	Selfreport on single question:  Lead item not reported 11 completely and supremely happy, tremendous joy and elation all the time 10 9 8 very happy most of the time 7 6 happy most of the time 5 4 . not very happy most of the time 3 2. 1 completely utterly unhappy, terrible depression and gloom all the time

---

---

M-TH/g/sq/v/3/c	(originally presented horizontally) Selfreport on single question:
	".....general feelings...." (lead item not fully reported) 1 happy most of the time 2 sometimes happy 3 unhappy most of the time - can't say
M-TH/g/sq/v/9/a	Self report on single question:  "Please estimate your happiness on the scale below by marking a number from 1 to 9" 1 not very happy most of the time 2 3 4 5 happy most of the time 6 7 8 9 very happy most of the time
O-BW/c/sq/l/10/c	Selfreport on single question:  "Here is a picture of a ladder. Suppose we say that the top of the ladder (10) represents the best possible life for you and the bottom (1) represents the worst possible life for you. Where on the ladder do you feel personally stand at the present time?"  [ 9 ] best possible life for you [ 8 ] [ 7 ] [ 6 ] [ 5 ] [ 4 ] [ 3 ] [ 2 ] [ 1 ] [ 0 ] worst possible life for you
O-BW/c/sq/l/11/a	Name: Cantril's selfanchoring ladder rating of life (adapted version) Selfreport on single question:  "Here is a picture of a ladder. Suppose we say that the top of the ladder represents the best possible life for you and the bottom represents the worst possible life for you. Where on the ladder do you feel you personally stand at the present time?" [ 10 ] best possible life [ 9 ] [ 8 ] [ 7 ]

---

- [ 6 ]
- [ 5 ]
- [ 4 ]
- [ 3 ]
- [ 2 ]
- [ 1 ]
- [ 0 ] worst possible life

Preceded by 1) open questions about what the respondent imagines as the best possible life and the worst possible life. 2) ratings on the ladder of one's life five years ago and where on the ladder one expects to stand five years from now.

O-BW/c/sq/l/21/a Name: Cantril's selfanchoring ladder rating of life (original)  
Self report on single question:

Question on perception of quality of 'present life'.  
(Full lead item not reported)  
20 best possible life

.  
.  
.

0 worst possible life

O-BW/c/sq/l/9/b Selfreport on single question:

Respondent was first asked to describe "your wishes and hopes for your future" and then to describe "your fears and worries about your future". He was then presented with a picture of a ladder numbered from zero on the bottom to nine on the top rung. Respondent was asked to suppose "that the top of the ladder represents the best possible life for you and the bottom represents the worst life for you". Where on the ladder do you feel you stand at the present time?"

- [ 9 ] best possible life
- [ 8 ]
- [ 7 ]
- [ 6 ]
- [ 5 ]
- [ 4 ]
- [ 3 ]
- [ 2 ]
- [ 1 ]
- [ 0 ] worst possible life

O-BW/cy/sq/l/9/a Name: Cantril's Present Life Ladder rating (modified version)  
Selfreport on single question:

"Here is a picture of a ladder. At the bottom of the ladder is the worst life you might reasonably expect to have. At the top is the best life you might expect to have. Of course, life from week to week falls somewhere in between. Where was your life most of the time during the past year?"

- [ 9 ] best life you might expect to have
- [ 8 ]

- [ 7 ]
- [ 6 ]
- [ 5 ]
- [ 4 ]
- [ 3 ]
- [ 2 ]
- [ 1 ] worst life you might expect to have

O-DT/c/sq/v/7/aa      Name: Cantril's selfanchoring ladder rating (modified version)  
Selfreport on single question:

- "How do you feel about your life as a whole right now.....?"
- 7 delightfull
  - 6 very satisfying
  - 5 satisfying
  - 4 mixed
  - 3 dissatisfying
  - 2 very dissatisfying
  - 1 terrible
  - No opinion

O-DT/u/sq/f/7/a      Name: Andrews & Withey's `Delighted-Terrible Scale' ( modified version)  
Selfreport on single question:

- "Which face comes closest to expressing feeling about life as a whole?",
- 7 delighted
  - 6 very satisfying
  - 5 satisfying
  - 4 mixed
  - 3 dissatisfying
  - 2 very dissatisfying
  - 1 terrible
  - No opinion

O-DT/u/sq/v/7/a      Name: Andrews & Withey's "Delighted-Terrible Scale" (modified  
version)  
Selfreport on single question:

- "How do you feel about your life as a whole.....?"
- 7 delighted
  - 6 pleased
  - 5 mostly satisfied
  - 4 mixed
  - 3 mostly dissatisfied
  - 2 unhappy
  - 1 terrible

Name: Andrews & Withey's `Delighted-Terrible Scale' (original version)

O-DT/u/sqt/v/7/a

Selfreport on single question, asked twice in interview:

"How do you feel about your life as a whole.....?"

- 7 delighted
- 6 pleased
- 5 mostly satisfied
- 4 mixed
- 3 mostly dissatisfied
- 2 unhappy
- 1 terrible

Summation: arithmetic mean

O-DT/u/sqt/v/9/a

Name: Andrews & Withey's "Delighted-Terrible Scale" (original version)

Selfreport on single question asked twice

'How do you feel about your life as a whole?'

- 1 terrible
- 2 very unhappy
- 3 unhappy
- 4 mostly dissatisfied
- 5 mixed feelings
- 6 mostly satisfied
- 7 pleased
- 8 very pleased
- 9 delighted

O-GBB/u/sq/c/9/a

Selfreport on single question:

"Here are some circles that we can imagine represent the lives of different people. Circle eight has all pluses in it, to represent a person who has all the good things in his life. Circle zero has all minuses in it, to represent a person who has all the bad things in his life. Other circles are in between. Which circle do you think comes closest to matching your life?"

"..... satisfaction with life ....."  
 (full lead item not reported)

Rated on a wooden miniature ladder, handed to the respondent

- [ 5 ] very satisfied
- [ 4 ]
- [ 3 ]
- [ 2 ]
- [ 1 ] very dissatisfied

O-SLu/c/sq/l/11/a

Selfreport on single question :

"Some people seem to be quite happy and satisfied with their lives, while others seem quite unhappy and dissatisfied. Now look at this ladder (again). Suppose that a person who is entirely satisfied with his life would be at the top of the ladder and a person who is extremely dissatisfied with his life would be at the bottom of the ladder. Where would you put yourself on the ladder at the present stage of your life in terms of how satisfied or dissatisfied you are with your personal life?"

- [ 10 ] entirely satisfied
- [ 9 ]
- [ 8 ]
- [ 7 ]
- [ 6 ]
- [ 5 ]
- [ 4 ]
- [ 3 ]
- [ 2 ]
- [ 1 ]
- [ 0 ] entirely dissatisfied

Name Cantril ladder rating (modified version)

O-SLu/c/sq/n/5/a

O-Sum/u/mq/\*/0/a

Selfreport on 3 questions:

A. "Dissatisfied" and "Unhappy" responses on the Block (1961) Adjective Rating List.

B. Overall happiness. Single direct question: "Taking all things together, how would you say things are these days? Would you say you are .....?"

3 very happy  
2 pretty happy  
1 not too happy

C. Present-year score on Life-Evaluation Chart, ranging from:

1 low  
2  
3  
4  
5  
6  
7  
8  
9 high

O-Sum/u/mq/\*/0/b

Selfreport in 2 questions:

A. "How satisfied are you with your life as a whole these days?"

10 completely satisfied  
9  
8  
7  
6  
5  
4  
3  
2  
1  
0 not at all satisfied

B. "Where would you place your life as a whole?"

Rated on a thermometer scale.

100 perfect, as good as you can imagine it being  
90  
80  
70  
60  
50  
40  
30  
20  
10  
0 terrible, as bad as you can imagine it being

Summation: factor loading

O-Sum/u/mq/v/7/a

Selfreport on four questions:

Using the 1-7 scale below, indicate your agreement with each of the items by placing the appropriate number on the line preceding that item. Please be open and honest in your responding.

- A In most ways my life is close to ideal
- B The conditions of my life are excellent
- C I am satisfied with my life
- D So far, I have gotten the important things I want in life

Answers rated:

- 7 strongly agree
- 6 agree
- 5 slightly agree
- 4 neither agree nor disagree
- 3 slightly disagree
- 2 disagree
- 1 strongly disagree

Computation: A+B+C+D divided by 4

Name: Shortened Diener's Satisfaction with Life Scale (SWLS)

(In the original scale item 5 reads: 'If I you live my life over, I would change nothing'. This item is left out in this selection because a positive answer to this question does not necessarily mean that the respondent doesn't like the life he/she actually lives.)

X/X/X/X/1/a

Self-responding to the question:

"Using any number on this card from 1 to 7, with 1 being very dissatisfied and 7 being very satisfied, how dissatisfied or satisfied are you with your life ?".

On the web you will find an overview of valid queries on happiness and an explanation of the classification used. Go to: [www.eur.nl/fsw/research/happiness/hap\\_quer/hqi\\_fp.htm](http://www.eur.nl/fsw/research/happiness/hap_quer/hqi_fp.htm). This is the introductory text to the Catalog of Happiness Queries.

## Appendix 2 *Statistics used in reported studies*

<i>Symbol</i>	<i>Explanation</i>
AoV	<p>ANALYSIS of VARIANCE (ANOVA)            Type: statistical procedure            Measurement level: Correlate(s): nominal, Happiness: metric.            In an ANOVA, the total happiness variability, expressed as the sum of squares, is split into two or more parts, each of which is assigned to a source of variability. At least one of those sources is the variability of the correlate, in case there is only one, and always one other is the residual variability, which includes all unspecified influences on the happiness variable. Each sum of squares has its own number of degrees of freedom (df), which sum up to <math>N_e - 1</math> for the total variability. If a sum of squares (SS) is divided by its own number of df, a mean square (MS) is obtained. The ratio of two correctly selected mean squares has an F-distribution under the hypothesis that the corresponding association has a zero-value.</p> <p>NOTE: A significantly high F-value only indicates that, in case of a single correlate, the largest of the c mean values is systematically larger than the smallest one. Conclusions about the other pairs of means require the application of a Multiple Comparisons Procedure (see e.g. BONFERRONI's MULTIPLE COMPARISON TEST, DUNCAN's MULTIPLE RANGE TEST or STUDENT-NEWMAN-KEULS)</p>
B	<p>REGRESSION COEFFICIENT (non-standardized)            Type: test statistic            Measurement level: Correlate: metric, Happiness: metric            Theoretical range: unlimited</p> <p>Meaning:  <math>B &gt; 0</math> « a higher correlate level corresponds with, on an average, higher happiness rating.  <math>B &lt; 0</math> « a higher correlate level corresponds with, on an average, lower happiness rating.  <math>B = 0</math> « not any correlation with the relevant correlate.</p>
Beta	<p>(<math>\beta</math>) STANDARDIZED REGRESSION COEFFICIENT            Type: test statistic.            Measurement level: Correlates: all metric, Happiness!: metric.            Range: [-1 ; +1]</p> <p>Meaning:  <math>\beta &gt; 0</math> « a higher correlate level corresponds with, on an average, higher happiness rating.  <math>\beta &lt; 0</math> « a higher correlate level corresponds with, on an average, lower happiness rating.  <math>\beta = 0</math> « no correlation.  <math>\beta = +1</math> or <math>-1</math> « perfect correlation.</p>
Chi <sup>2</sup>	<p>CHI-SQUARE            Type: test statistic            Range: [0; <math>N_e * (\min(c,r) - 1)</math>], where c and r are the number of columns and rows respectively in a cross tabulation of <math>N_e</math> sample elements.</p> <p>Meaning:</p>

---

D%	<p>Chi<sup>2</sup> &lt;= (c-1) * (r-1) means: no association          Chi<sup>2</sup> &gt;&gt; (c-1) * (r-1) means: strong association</p> <p><b>DIFFERENCE in PERCENTAGES</b>          Type: descriptive statistic only.          Measurement level: Correlate level: dichotomous, but nominal or ordinal theoretically possible as well. Happiness level: dichotomous          Range: [-100; +100]</p>
DM	<p>Meaning: the difference of the percentages happy people at two correlate levels.</p> <p><b>DIFFERENCE of MEANS</b>          Type: descriptive statistic only.          Measurement level: Correlate: dichotomous, Happiness: metric          Range: depending on the happiness rating scale of the author; range symmetric about zero.</p>
DMr	<p>Meaning: the difference of the mean happiness, as measured on the author's rating scale, between the two correlate levels.</p> <p><b>DIFFERENCE IN MEAN RIDITS</b>          Type: test statistic          Measurement level: Happiness ordinal          Range: [0; +1]</p>
DMs	<p>Meaning:          Mr &lt; .50: average happiness in this subgroup lower than in the larger population          Mr = .50: average happiness in this subgroup the same as in the larger population          Mr &gt; .50: average happiness in this subgroup higher than in the larger population</p> <p>'Ridit analysis' compares the distribution of happiness scores in subgroups to its distribution in the entire sample ("Relative to an Identified Distribution")</p> <p>Testing for significance can be performed through a "BROSS Confidence Interval" (BCI). If all values the BCI for a subgroup are above/below 0.500, the subgroup is significantly more/less happy than the larger population.</p> <p><b>STANDARDIZED DIFFERENCE of MEANS (CRITICAL RATIO)</b>          Type: test statistic.          Measurement level: Correlate: dichotomous, Happiness: metric          Theoretical range: unlimited</p>
DMt	<p>Meaning: DMs is the ratio of the difference of the, either untransformed or transformed, means and its standard error.</p> <p><b>DIFFERENCE of MEANS AFTER TRANSFORMATION</b>          Type: descriptive statistic only.          Measurement level: Correlate: dichotomous, Happiness: metric          Theoretical range: [-10; +10]</p>
Dyx	<p>Meaning: the difference of the mean happiness (happiness measured at a 0-10 rating scale) between the two correlate levels.</p> <p><b>SOMERS' ASYMMETRIC TEST STATISTIC</b>          Type: test statistic          Measurement level: Correlate: ordinal, Happiness: ordinal</p>

---

---

	<p>Range: [-1; +1]</p> <p>Meaning:  <math>D_{yx} = 0</math> «no rank correlation  <math>D_{yx} = +1</math> «strongest possible rank correlation, where high correlate values correspond with high happiness ratings.  <math>D_{yx} = -1</math> «strongest possible rank correlation, where high correlate values correspond with low happiness ratings.</p>
$E^2$	<p>CORRELATION RATIO (Elsewhere sometimes called <math>h^2</math> or ETA)  Type: test statistic  Measurement level: Correlate: nominal or ordinal, Happiness: metric  Range: [0; 1]</p> <p>Meaning: correlate is accountable for <math>E^2 \times 100\%</math> of the variation in happiness.  <math>E^2 = 0</math> « knowledge of the correlate value does not improve the prediction quality of the happiness rating.  <math>E^2 = 1</math> « knowledge of the correlate value enables an exact prediction of the happiness rating</p>
G	<p>GOODMAN &amp; Kruskal's GAMMA  Type: test statistic  Measurement level: Correlate: ordinal, Happiness: ordinal  Range: [-1; +1]</p> <p>Meaning:  <math>G = 0</math> « no rank correlation  <math>G = +1</math> « strongest possible rank correlation, where high correlate values correspond with high happiness ratings.  <math>G = -1</math> « strongest possible rank correlation, where high correlate values correspond with low happiness ratings.</p>
mc	<p>Guttman's monotonicity coefficient.  Range: [-1, +1].  Measurement level: Both correlate and happiness ordinal or interval  Based on the multiplication of signed differences within one variable with the corresponding difference in the second variable and summation over all possible differences.  Seldom used in happiness research. See excerpted report.</p>
r	<p>PRODUCT-MOMENT CORRELATION COEFFICIENT (Also 'Pearson's correlation coefficient' or simply 'correlation coefficient')  Type: test statistic.  Measurement level: Correlate: metric, Happiness: metric  Range: [-1; +1]</p> <p>Meaning:  <math>r = 0</math> « no correlation ,  <math>r = 1</math> « perfect correlation, where high correlate values correspond with high happiness values, and  <math>r = -1</math> « perfect correlation, where high correlate values correspond with low happiness values.</p>
$R^2$	<p>COEFFICIENT of DETERMINATION  Type: test statistic  Measurement level: Correlates: all metric, Happiness: metric</p>

---

---

	<p>Range: [0; 1]</p> <p>Meaning:  <math>R^2 = 0</math> « no influence of any correlate in this study has been established.  <math>R^2 = 1</math> « the correlates determine the happiness completely.</p>
rpc	<p><b>PARTIAL CORRELATION COEFFICIENT</b>  Type: test statistic  Measurement level: Correlate: metric, Happiness: metric  Range: [-1; +1]</p> <p>Meaning: a partial correlation between happiness and one of the correlates is that correlation, which remains after accounting for the contribution of the other influences, or some of them, to the total variability in the happiness scores.  Under that conditions  <math>rpc &gt; 0</math> « a higher correlate level corresponds with a higher happiness rating,  <math>rpc &lt; 0</math> « a higher correlate level corresponds with a lower happiness rating,</p>
SNR	<p>Statistic Not Reported</p>
tau	<p><b>GOODMAN &amp; KRUSKAL'S TAU</b>  Type: descriptive statistic only.  Measurement level: Correlate: nominal, Happiness: ordinal  Range: [0; +1]</p> <p>Meaning:  <math>\tau = 0</math> « knowledge of the correlate value does not improve the prediction quality of the happiness rating.  <math>\tau = 1</math> « knowledge of the correlate value enables a perfect (error-free) prediction of the happiness rating.</p>
tb	<p><b>KENDALL'S RANK CORRELATION COEFFICIENT TAU-B</b>  Type: test statistic  Measurement level: Correlate: ordinal, Happiness: ordinal  Range: [-1; +1]</p> <p>Meaning:  <math>tb = 0</math> « no rank correlation  <math>tb = 1</math> « perfect rank correlation, where high values of the correlate correspond with high happiness ratings.  <math>tb = -1</math> « perfect rank correlation, where high values of the correlate correspond with low happiness ratings.</p>
tc	<p><b>KENDALL'S TAU-C (Also referred to as Stuart's tau-c)</b>  Type: test statistic  Measurement level: Correlate: ordinal, Happiness: ordinal  Range: [-1; +1]</p> <p>Meaning:  <math>tc = 0</math> « no rank correlation  <math>tc = 1</math> « perfect rank correlation, where high values of the correlate correspond with high happiness ratings.  <math>tc = -1</math> « perfect rank correlation, where high values of the correlate correspond with low happiness ratings.</p>

On the web you will find a text explaining the statistics used in more detail. Go to:

[www.eur.nl/fsw/research/happiness/hap\\_cor/cor\\_fp.htm](http://www.eur.nl/fsw/research/happiness/hap_cor/cor_fp.htm). This is the introductory text to the Catalog of Correlational Findings. An overview of all statistics is in chapter 4.

## **Appendix 3: About the World Database of Happiness**

---

The World Database of Happiness is an ongoing register of scientific research on subjective appreciation of life. It brings together findings that are scattered throughout many studies and provides a basis for synthetic analysis. The research literature is processed as follows:

---

- 
- 1    **BIBLIOGRAPHY OF HAPPINESS** Presents all contemporary scientific publications. Detailed subject-classification. Current contents: 3422 titles, mainly in English.
  - 2    **DIRECTORY OF INVESTIGATORS** Names and addresses of most authors on the subject. Enumerates years of publication. Current contents: 5818 names and 3073 addresses. Part of Bibliography.
  - 3    **CATALOG OF HAPPINESS QUERIES (testbank)** Presents all indicators that tap happiness as defined here. Current content: 522 measures, mostly single questions. Queries are classified by focus, time reference, mode of observation, rating and wording.
  - 4    **CATALOG OF HAPPINESS IN NATIONS** Presents distributional research findings, in particular responses to questions on happiness in national survey studies. Allows comparison across time and nations. Current content: 1889 surveys in 112 nations, 1946-2000.
  - 5    **CATALOG OF HAPPINESS IN PUBLICS** Distributional findings on happiness in special publics within nations, such as aged people. Current contents: 705 studies. Part of Catalog of Correlational Findings.
  - 6    **CATALOG OF CORRELATIONAL FINDINGS** Presents abstracts of correlational research findings. Detailed subject-classification. Allows comparison through time and across nations. Current contents: 7476 findings from 705 studies in 140 nations, 1911-2000.
-

## **Appendix 4 Further Findings in the World Database of Happiness**

<i>Main Category's</i>	<i>Category Name</i>	<i>Number of Studies in this Category</i>
A 1	ACTIVITY LEVEL (how much one does)	53
A 2	ACTIVITY PATTERN (what one does)	7
A 3	AFFECTIVE LIFE	31
A 4	AGE	279
A 5	AGGRESSION	11
A 6	ANOMY	30
A 7	APPEARANCE (good looks)	8
A 8	ATTITUDES	4
A 9	AUTHORITARIANISM	4
B 3	BODY	66
C 1	CHILDREN 1:	4
C 10	CREATIVENESS	6
C 11	CULTURE (Arts and Sciences)	6
C 2	CHILDREN: WANT FOR (Parental aspirations)	6
C 3	CHILDREN: HAVING (parental status)	145
C 4	CHILDREN's CHARACTERISTICS	19
C 5	CHILDREN: RELATION WITH	8
C 6	CHILDREN: REARING (parental behavior)	11
C 7	COMMUNAL LIVING	1
C 8	CONCERNS	15
C 9	COPING	27
D 1	DAILY JOYS & HASSLES	4
E 1	EDUCATION	243
E 2	EMPLOYMENT	180
E 3	ETHNICITY	63
E 4	EXPRESSIVE BEHAVIOR	10
F 1	FAMILY OF ORIGIN (earlier family for adults, current for young)	195
F 2	FAMILY OF PROCREATION	42
F 3	FAMILY OF RELATIVES	145
F 4	FARMING	30
F 5	FREEDOM	24
F 6	FRIENDSHIP	123
