Study	SEARS 1977A	<i>Page in Report:</i>	40-62/4
<i>Reported in:</i>	Sears, P.S. & Barbee, A.H. Career and Life satisfactions among Terman's gifted women. Chapter 3 in: 'The Stanley, J.C., George, W.C. & Solano, C.H. (eds.) The Johns Hopkins Univ.Press Publ.1977, Baltimore and London, p.28-72		
<i>Population:</i>	"Gifted women" (IQ >135), followed 50 years, California, USA, 1921-72		
<i>Sample:</i>			
<i>Non-Response:</i>	Attrition in 1972: 25%		
<i>N:</i>	1928 N=671: 1972 N=430		

Measured Correlate

<i>Class:</i>	Earlier relation with children Code: C 5.1.1
<i>Measurement:</i>	Children mentioned on an open question on satisfying aspects of life a. in 1950 b. in 1960
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	Earlier satisfaction with children (1950) by present happiness (1972).

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
C-ASG/h/mq/v/5/a	AoV=+ p<.03	a.
	AoV= ns	b. Earlier satisfaction with children (1950) by present happiness (1972).

Study	HEADE 1981	<i>Page in Report:</i>	166
<i>Reported in:</i>	Headey, B. The Quality of Life in Australia Social Indicators Research, 1981, Vol. 9, 155-181		
<i>Population:</i>	Adults, general public, Australia 1978		
<i>Sample:</i>	Probability sample (unspecified)		
<i>Non-Response:</i>	not reported		
<i>N:</i>	679		

Measured Correlate

<i>Class:</i>	Current relation with one's children Code: C 5.2		
<i>Measurement:</i>	1 single question on satisfaction with: your children, scored on a 1-9 rating scale.		
<i>Measured Values:</i>	M = 7.9 SD = 1.2		
<i>Error Estimates:</i>			
<i>Remarks:</i>	Item scored on the same rating scale as the question on happiness.		

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-DT/u/sqt/v/9/a	r=+.36 p<.001	Item scored on the same rating scale as the question on happiness.

Study	MOLLE 1988	<i>Page in Report:</i>	630
<i>Reported in:</i>	Moller, V. Quality of life in retirement: a case study of zulu return migrants Social Indicators Research, Vol. 20, 1988, pp. 621-658		
<i>Population:</i>	Ex-migrant workers, returned to rural KwaZulu, South Africa, 1983		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	253		

Measured Correlate

<i>Class:</i>	Current relation with one's children Code: C 5.2
<i>Measurement:</i>	Single direct question: 'How many children do you support with your pension/grants?'
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-HL/c/sq/v/5/a	$r=+.10$ $p<.05$	
O-SLW/u/sq/v/5/d	$r=+.19$ $p<.01$	Direction of correlation unclear in original report. Sign in table is negative, but text indicates positive relationship. Present version approved by author.

Study	ROSE 1955	<i>Page in Report:</i>	16
<i>Reported in:</i>	Rose, A.M. Factors associated with the life satisfaction of middle class, middle aged persons. Marriage and Family Living, 1955, vol 17, p. 15-19.		
<i>Population:</i>	Married couples, middle aged, middle-class, USA, 1952		
<i>Sample:</i>			
<i>Non-Response:</i>	50 %		
<i>N:</i>	416		

Measured Correlate

<i>Class:</i>	Current relation with one's children Code: C 5.2
<i>Measurement:</i>	Rating by child (sociology student) who participated in the study.
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-SLu/g/sq/v/5/a	D%= + p<. 05	Posi tive among females only The mother's life-satisfaction was just as closely related to her child's fondness for his father as it was to the child's fondness for her. The child's fondness for both of his parents was not related to the Father's life satisfaction

Study	VENTE 1995	<i>Page in Report:</i>	308
<i>Reported in:</i>	Ventegodt, S. Livskvalitet i Danmark.(Quality of Life in Denmark) Forskningscentrets Forlag (The Quality of Life Research Center), København, Denmark, ISBN 8790190017		
<i>Population:</i>	18-88 aged, general public, Denmark, 1993		
<i>Sample:</i>	Non-probability purposive sample (unspecified)		
<i>Non-Response:</i>	39%		
<i>N:</i>	1494		

Measured Correlate

<i>Class:</i>	Current relation with one's children Code: C 5.2
<i>Measurement:</i>	Single question: "How are your relations with your children ?" 1: very bad 2: bad 3: neither/nor 4: good 5: very good
<i>Measured Values:</i>	N: 1:4, 2:4, 3:38, 4:254, 5:635
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>

Study	LEE 1982	<i>Page in Report:</i>	220,221
<i>Reported in:</i>	Lee, Gary R. Intergenerational Exchange and Subjective Well-being Among the Elderly Journal of Marriage and the Family, February 1982, page 217-223		
<i>Population:</i>	60+ aged, living near children, USA, Washington State, 1975		
<i>Sample:</i>	Probability simple random sample		
<i>Non-Response:</i>	25.1%		
<i>N:</i>	403		

Measured Correlate

<i>Class:</i>	Relation with children living on their own Code: C 5.2.2
<i>Measurement:</i>	Below is a list of types of aid parents sometimes receive from their children. Please indicate how many times during the past year you received each kind of aid from all your children who no longer live with you. a) Advice on a decision you had to make b) Help during an illness c) Financial assistance (gift or loan) d) Gifts other than money e) Help with some household task f) Help with transportation
<i>Measured Values:</i>	Mean 3.6 SD 3.3
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
M-ACO/u/mq/n/4/a	$r = -.17$	males
	$Beta = -.0$	beta controlled for -education -marital status -self rated health -age -number of children -interaction -aid given
	$r = +.02$	females
	$Beta = +.1$	beta controlled for -education -marital status -self rated health -age -number of children -interaction -aid given

Study	LEE 1982	<i>Page in Report:</i>	220,221
<i>Reported in:</i>	Lee, Gary R. Intergenerational Exchange and Subjective Well-being Among the Elderly Journal of Marriage and the Family, February 1982, page 217-223		
<i>Population:</i>	60+ aged, living near children, USA, Washington State, 1975		
<i>Sample:</i>	Probability simple random sample		
<i>Non-Response:</i>	25.1%		
<i>N:</i>	403		

Measured Correlate

<i>Class:</i>	Relation with children living on their own Code: C 5.2.2
<i>Measurement:</i>	The respondent was asked which of his or her children is seen most frequently, the how frequently that child is seen on a seven-point scale
<i>Measured Values:</i>	Mean 4.2 SD 1.9
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>

	Beta=	beta controlled for -education -marital status -self rated health -age -number of children -aid given -aid received
	r=	females
	Beta=-.0	beta controlled for -education -marital status -self rated health -age -number of children -aid given -aid received

Appendix 1 *Queries on Happiness used in reported Studies*

Happiness Query Code Full Text

A-AOL/m/sq/v/5/a

Single direct question:
'How are you feeling now....?'
5 very good
4 good
3 neither good nor poor
2 poor
1 very poor

Original text in Danish:
'Hvordan har du det for tiden?'
5 meget godt
4 godt
3 hverken godt eller dårligt
2 dårligt
1 meget dårligt

C-ASG/h/mq/v/5/a

Selfreport on 2 questions:

A. "How important was each of the following goals in life in the plans you made for yourself in early adulthood?"

- occupational success
 - family life
 - friendships
 - richness of cultural life
 - total service to society.
- 1 less important to me than to most people
2
3
4
5 of prime importance to me

B. "How succesfull have you been in the persuit of these goals?"

- 1 little satisfaction in this area
2
3
4
5 had excellent fortune in this respect

Computation: General Satisfaction 5 is the quotient obtained by multiplying the planned goal (early adulthood) by the reported success in attaining that goal, adding the five of these multiplied areas and dividing them by the sum of the planned goals for each of the areas.

$$\frac{Pa.Sa + Pb.Sb + Pc.Sc + Pd.Sd + Pe.Se}{Pa + Pb + Pc + Pd + Pe}$$

Pa = planned goal a (1-5)
Sa = success goal a (1-5)

M-ACO/u/mq/n/4/a

Selfreport on 6 questions:

- A On the whole, life gives me a lot of pleasure
- B On the whole, I am very satisfied with my life today
- C Things are getting just worse for me as I get older
- D All in all, I find a great deal of happiness today
- E I have a lot to be sad about
- F Nothing ever turn out for me the way I want it

Scoring

- 4 strongly agree
- 3
- 2
- 1 strongly disagree

O-DT/u/sqt/v/9/a

Computation: simple addition. Possible range 6-24

Selfreport on single question asked twice

'How do you feel about your life as a whole?'

- 1 terrible
- 2 very unhappy
- 3 unhappy
- 4 mostly dissatisfied
- 5 mixed feelings
- 6 mostly satisfied
- 7 pleased
- 8 very pleased
- 9 delighted

O-HL/c/sq/v/5/a

Selfreport on single question:

"Taking all things together in your life, how would you say things are these days?

Would you say you are?"

- 5 very happy
- 4 happy
- 3 neither happy nor unhappy
- 2 unhappy
- 1 very unhappy

O-HL/c/sq/v/5/h

Selfreport on single question

'How happy are you now?'

- 5 very happy
- 4 happy
- 3 neither happy nor unhappy
- 2 unhappy
- 1 very unhappy

Original text in Danish:

'Hvor lykkelig er du for tiden?'

- 5 meget lykkelig
- 4 lykkelig
- 3 hverken eller

O-SLu/c/sq/v/5/e	2 ulykkelig 1 meget ulykkelig
	Selfreport on single question: 'How satisfied are you with your life now?' 5 very satisfied 2 satisfied 3 neither satisfied nor dissatisfied 2 dissatisfied 1 very dissatisfied
O-SLu/q/sq/v/5/a	Original text in Danish: 'Hvor tilfreds er du med dit liv for tiden?' 5 meget tilfreds 4 tilfreds 3 hverken tilfreds eller utilfreds 2 utilfreds 1 meget utilfreds
	Selfreport on single question: "In general, how satisfied are you with your life.....?" 5 very satisfied 4 satisfied 3 average 2 somewhat dissatisfied 1 very dissatisfied
O-SLW/u/sq/v/5/d	Selfreport on single question: "Taking your life as a whole, are you?" 5 very satisfied 4 quite satisfied 3 more satisfied than discontented 2 more discontented than satisfied 1 quite dissatisfied
	In German: "Wenn Sie Ihr Leben jetzt alles in allem betrachten, sind Sie.....?" 5 sehr zufrieden 4 ziemlich zufrieden 3 eher zufrieden 2 eher unzufrieden 1 ziemlich unzufrieden

On the web you will find an overview of valid queries on happiness and an explanation of the classification used. Go to: www.eur.nl/fsw/research/happiness/hap_quer/hqi_fp.htm. This is the introductory text to the Catalog of Happiness Queries.

Appendix 2 *Statistics used in reported studies*

Symbol	Explanation
AoV	<p>ANALYSIS of VARIANCE (ANOVA)</p> <p>Type: statistical procedure</p> <p>Measurement level: Correlate(s): nominal, Happiness: metric.</p> <p>In an ANOVA, the total happiness variability, expressed as the sum of squares, is split into two or more parts, each of which is assigned to a source of variability. At least one of those sources is the variability of the correlate, in case there is only one, and always one other is the residual variability, which includes all unspecified influences on the happiness variable. Each sum of squares has its own number of degrees of freedom (df), which sum up to Ne -1 for the total variability. If a sum of squares (SS) is divided by its own number of df, a mean square (MS) is obtained. The ratio of two correctly selected mean squares has an F-distribution under the hypothesis that the corresponding association has a zero-value.</p> <p>NOTE: A significantly high F-value only indicates that, in case of a single correlate, the largest of the c mean values is systematically larger than the smallest one. Conclusions about the other pairs of means require the application of a Multiple Comparisons Procedure (see e.g. BONFERRONI's MULTIPLE COMPARISON TEST, DUNCAN's MULTIPLE RANGE TEST or STUDENT-NEWMAN-KEULS)</p>
Beta	<p>(β) STANDARDIZED REGRESSION COEFFICIENT</p> <p>Type: test statistic.</p> <p>Measurement level: Correlates: all metric, Happiness!: metric.</p> <p>Range: [-1 ; +1]</p> <p>Meaning:</p> <p>beta > 0 « a higher correlate level corresponds with, on an average, higher happiness rating.</p> <p>beta < 0 « a higher correlate level corresponds with, on an average, lower happiness rating.</p> <p>beta = 0 « no correlation.</p> <p>beta = + 1 or -1 « perfect correlation.</p>
D%	<p>DIFFERENCE in PERCENTAGES</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate level: dichotomous, but nominal or ordinal theoretically possible as well. Happiness level: dichotomous</p> <p>Range: [-100; +100]</p> <p>Meaning: the difference of the percentages happy people at two correlate levels.</p>
r	<p>PRODUCT-MOMENT CORRELATION COEFFICIENT (Also "Pearson's correlation coefficient" or simply 'correlation coefficient')</p> <p>Type: test statistic.</p> <p>Measurement level: Correlate: metric, Happiness: metric</p> <p>Range: [-1; +1]</p> <p>Meaning:</p> <p>r = 0 « no correlation ,</p> <p>r = 1 « perfect correlation, where high correlate values correspond with high happiness values, and</p>

$r = -1$ « perfect correlation, where high correlate values correspond with low happiness values.

On the web you will find a text explaining the statistics used in more detail. Go to: www.eur.nl/fsw/research/happiness/hap_cor/cor_fp.htm. This is the introductory text to the Catalog of Correlational Findings. An overview of all statistics is in chapter 4.

Appendix 3: About the World Database of Happiness

The World Database of Happiness is an ongoing register of scientific research on subjective appreciation of life. It brings together findings that are scattered throughout many studies and provides a basis for synthetic analysis. The research literature is processed as follows:

- 1 BIBLIOGRAPHY OF HAPPINESS Presents all contemporary scientific publications. Detailed subject-classification. Current contents: 3422 titles, mainly in English.
- 2 DIRECTORY OF INVESTIGATORS Names and addresses of most authors on the subject. Enumerates years of publication. Current contents: 5818 names and 3073 addresses. Part of Bibliography.
- 3 CATALOG OF HAPPINESS QUERIES (testbank) Presents all indicators that tap happiness as defined here. Current content: 522 measures, mostly single questions. Queries are classified by focus, time reference, mode of observation, rating and wording.
- 4 CATALOG OF HAPPINESS IN NATIONS Presents distributitional research findings, in particular responses to questions on happiness in national survey studies. Allows comparison across time and nations. Current content: 1889 surveys in 112 nations, 1946-2000.
- 5 CATALOG OF HAPPINESS IN PUBLICS Distributitional findings on happiness in special publics within nations, such as aged people. Current contents: 705 studies. Part of Catalog of Correlational Findings.
- 6 CATALOG OF CORRELATIONAL FINDINGS Presents abstracts of correlational research findings. Detailed subject-classification. Allows comparison through time and across nations. Current contents: 7476 findings from 705 studies in 140 nations, 1911-2000.
