

## Table of contents

|     |   |  |
|-----|---|--|
| 9   |   | List of abbreviations  |
| 10  |    | <b>Chapter 1</b> General introduction<br>Hypothesis and objectives   |
| 34  |    | <b>Chapter 2</b> Are ultrasound measurements of optic nerve sheath diameter an alternative for fundoscopy in children with syndromic craniosynostosis?   |
| 46  |    | <b>Chapter 3</b> Nocturnal ultrasound measurements of optic nerve sheath diameter correlate with intracranial pressure in children with craniosynostosis |
| 54  |    | <b>Chapter 4</b> Optical coherence tomography: A quantitative tool to screen for papilledema in craniosynostosis   |
| 68  |    | <b>Chapter 5</b> How does obstructive sleep apnea evolve in syndromic craniosynostosis? A prospective cohort study.                                      |
| 80  |    | <b>Chapter 6</b> Is there an effect of OSAS on oxidative stress and inflammatory parameters in patients with craniofacial anomalies?                     |
| 92  |   | <b>Chapter 7</b> Sleep apnoea in syndromic craniosynostosis occurs independent of hindbrain herniation   |
| 106 |  | <b>Chapter 8</b> Does central sleep apnea occur in children with syndromic craniosynostosis?   |
| 118 |  | <b>Chapter 9</b> Summary<br>General Discussion and Future Perspectives   |
| 141 |   | Dutch summary  |
|     |   | <b>Appendices</b>  |
| 147 |   | List of publications   |
| 149 |   | Curriculum vitae   |
| 150 |   | PhD Portfolio  |
| 153 |   | Dankwoord  |
