

Curriculum Vitae

Personal details

Name: Xiao Yu
Birth date: 18-12-1982
Birth place: Beijing, China

Education and research

2009 – 2013 **PhD**

Dept. of Biomedical Science, Erasmus Medical Center
Rotterdam, the Netherlands
Lab of Prof. Dr. Frank Grosveld
Thesis title: Formation of transcription factor
complexes during embryonic erythroid development

2007 – 2009 **MSc**

Dept. of Life Sciences, Tohoku University, Japan
Lab of Prof. Dr. Mizuno Kensaku
Thesis title: Roles of LIMK1 and SSH1 in cell migration in
angiogenesis by VEGF signaling using FRET technique

2007-2008 Internship

Hubrecht Institute, Utrecht, the Netherlands
Lab of Prof. Dr. Hans Clevers
Project: Small molecule screening using recombinant
Fc fusion proteins

2003 – 2007 **BSc**

Dept. of Biology Sciences, Tohoku University, Japan
Molecular Cell Biology
Project: Inhibitor screening for RAS and RAF interaction

Publication

Andrea Martella, **Xiao Yu**, Charlotte Andrieu-Soler, Frank Grosveld (2012). Transcriptional regulation and signaling pathways involved in the hemangioblast development. Trends in Developmental Biology. Vol.6, 53-73
