Findings on Happiness & INTIMACY

Correlate Code: I 6

Classification of Findings		Number of Studies
<i>Correlate Code</i>	<i>Correlate Name</i>	<i>on this Subject</i>
I 6	INTIMACY	0
I 6.1	Intimate career	0
I 6.1.1	Earlier intimacy	3
I 6.1.2	Change in intimacy	1
I 6.1.4	Later intimacy	0
I 6.2	Current intimate relationships	0
I 6.2.1	Having a confident or not	4
I 6.2.2	Total number of intimate ties	4
I 6.2.3	Frequency of intimate contacts	6
I 6.2.4	Perceived quality of intimate ties	11
I 6.2.5	Perceived sufficiency of intimate contacts	12
I 6.3	Characteristics of intimate-network	1
I 6.3.1	Opportunities for self-disclosure	2
I 6.3.2	Similarity with intimates	0
I 6.3.2.1	. perceived value-similarity with intimates	1
I 6.3.2.2	. age similarity of intimates	1
I 6.3.3	Size of intimate network	1
I 6.4	Current chances for intimacy	0
I 6.4.1	Ability to maintain intimate contacts	8
I 6.4.2	Perceived opportunities for contacts	8
I 6.5	Attitudes to intimates	0
I 6.5.1	Concern about intimates	5
I 6.5.2	Satisfaction with intimacy	1
I 6.5.3	Need for privacy	1

	R ² =+.09 p<.05	Multiple regression. Dependent life satisfaction at T2. Men T1 self rating health T1 having a confident.

Study	KAINU 1998	<i>Page in Report:</i>	261
<i>Reported in:</i>	Kainulainen, Sakari Elämäntapahtumat ja elämään tyytyväisyys eri sosiaaliluokissa, (Life Events and Kuopio University Publications (E Social Sciences 62), Kuopio ,Finland . ISBN 951-781-821-1		
<i>Population:</i>	18+ aged, general public, non-institutionalized, former province Kuopio, Finland, 1991-'96.		
<i>Sample:</i>	Probability sample (unspecified)		
<i>Non-Response:</i>	not rep		
<i>N:</i>	2682		

Measured Correlate

<i>Class:</i>	Change in intimacy Code: I 6.1.2
<i>Measurement:</i>	Have you experienced breaking off an important relationship (a) during the last year ? (b) ever in your life ? Answers: No(=0) or Yes(=1).
<i>Measured Values:</i>	Never: N = 1317 Ever in your life: N = 1145
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-SLu/c/sq/v/5/g	r=-.12 p<	during the last year
	r=-.11 p<	ever in your life
	DM=- p<	never: M = 3.94 ever in your life: M = 3.76 95% CI for difference: [0.10 ; 0.25]

Study	BENNE 1971	<i>Page in Report:</i>	39
<i>Reported in:</i>	Bennett, F.A. Avowed happiness in communities of religious women Unpublished Phd. dissertation, University of Utah, 1971, USA		
<i>Population:</i>	Nuns, Catholic congregations, USA, 1969		
<i>Sample:</i>			
<i>Non-Response:</i>	11,5%		
<i>N:</i>	963		

Measured Correlate

Class: Having a confident or not Code: I 6.2.1

Measurement: Question on the number of people she could discuss their deepest feelings: Does not have someone in the convent with whom she feels free to discuss her deepest feelings, has someone in the convent with whom she feels free to discuss her deepest feelings.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-HL/c/sq/v/3/f	r=-.20 p<.001	

Study	MAKAR 1962	<i>Page in Report:</i>	108
<i>Reported in:</i>	Makarczyk, W. Factors affecting life satisfaction among people in Poland. Polish Sociological Bulletin, 1962, vol. 1, p. 105-116.		
<i>Population:</i>	Adults, general public, students and peasants excluded, Poland, 1960		
<i>Sample:</i>			
<i>Non-Response:</i>	5%		
<i>N:</i>	2387		

Measured Correlate

<i>Class:</i>	Having a confident or not Code: I 6.2.1
<i>Measurement:</i>	Single question: 'Can you count on other people in a crisis?' 0 no 1 yes
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-SLW/u/sq/v/5/a	T=.18 p<.001	

Study	MOLLE 1988	<i>Page in Report:</i>	631
<i>Reported in:</i>	Moller, V. Quality of life in retirement: a case study of zulu return migrants Social Indicators Research, Vol. 20, 1988, pp. 621-658		
<i>Population:</i>	Ex-migrant workers, returned to rural KwaZulu, South Africa, 1983		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	253		

Measured Correlate

Class: Having a confident or not Code: I 6.2.1

Measurement: 'Is there anyone in particular that you can confide in and talk about yourself or your problems?'
0: no
1: yes

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

Study	BRIM 1974	<i>Page in Report:</i>	437
<i>Reported in:</i>	Brim, J.A. Social network correlates of avowed happiness. Journal of Nervous and Mental Disease, 1974, vol. 158, p. 432-439.		
<i>Population:</i>	Females Feminists and controls. Seattle, USA, 197?		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	153		

Measured Correlate

Class: Total number of intimate ties Code: I 6.2.2

Measurement: Closed question on number of adults seen at least once a month and considered as important persons in life.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-HL/c/sq/n/9/a	r=+ ns	Married females : r = +.12 (ns) Unmarried females : r = -.06 (ns)

Study	DUCKI 1982	<i>Page in Report:</i>	125/126
<i>Reported in:</i>	Duckitt, J.H. Social integration and psychological well-being: a study of elderly persons living in the Humanitas, RSA, vol 8, 1982, pp. 121-129		
<i>Population:</i>	65-90 aged whites Pretoria, South Africa, 198?		
<i>Sample:</i>			
<i>Non-Response:</i>	20%		
<i>N:</i>	80		

Measured Correlate

Class: Total number of intimate ties Code: I 6.2.2

Measurement: Number of contacts mentioned. The subject was asked to list all persons with whom he had face-to-face contact: however infrequent, in the following categories:

1. Immediate family (i. e. spouse, children, grandchildren).
2. Siblings and other relatives.
3. Intimate friends (described as extremely close friends whom the subject confided in and could depend on for emotional support).
4. Other friends, neighbors and acquaintances.
5. Total network.
6. Total network, intimate friends excluded.

Measured Values:

Error Estimates:

Remarks: Controlled for household income and expert rated physical health. Controls reduced zero-order correlations only slightly.

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cm/mq/v/2/a	r=+.04 ns	1. Immediate family. Controlled for household income and expert rated physical health. Controls reduced zero-order correlations only slightly.
	r=+.12 ns	2. Siblings and other relatives.
	r=+.32 p<.01	3. Intimate friends.

	r=+.12	ns	4. Other friends, neighbours and relatives.
	r=+.19	ns	5. Total network.
	r=+.12	ns	6. Total network, intimate friends excluded.
O-BW/?/sql/9/a	r=-.03	ns	
	r=-.03	ns	1. Immediate family.
	r=-.01	ns	2. Siblings and other relatives.
	r=+.14	ns	3. Intimate friends.
	r=+.09	ns	4. Other friends, neighbors and acquaintances.
	r=+.05	ns	5. Total network.
	r=+.01	ns	6. Total network, intimate friends excluded.

Study	JONG 1969	<i>Page in Report:</i>	203
<i>Reported in:</i>	Jong-Gierveld, J. de The unmarried. (In Dutch: De ongehuwden). Samson Publ. 1969, Alphen a/d Rijn, The Netherlands.		
<i>Population:</i>	30-55 aged, general public, Amsterdam, The Netherlands, 1965		
<i>Sample:</i>			
<i>Non-Response:</i>	31%;		
<i>N:</i>	600		

Measured Correlate

Class: Total number of intimate ties Code: I 6.2.2

Measurement: 3-item index of closed questions on number of people one can talk with about personal things, number of people one cares about, and number of acquaintances.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-SL?/?/sq/v/5/a	r=+ ns	Never married males : r = +.09 (ns) Married males : r = +.12 (ns) Never married females: r = +.21 (ns) Married females : r = +.17 (01)

Study	MORIW 1973	<i>Page in Report:</i>	229
<i>Reported in:</i>	Moriwaki, S.Y. Self-disclosure, significant others and psychological well-being in old age. Journal of Health and Social Behavior, 1973, vol. 14, p. 266-232.		
<i>Population:</i>	60+ aged, retirees, Los Angeles County, USA, 1971		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	71		

Measured Correlate

Class: Total number of intimate ties Code: I 6.2.2

Measurement: Question on number of people who one considers to be close and with whom one can feel free and talk about personal things.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cm/mq/v/2/a	r=+.45 p<.01	When controlled for role loss: rpc = +.47 (01) When controlled for age : rpc = +.45 (01) When controlled for supported self-disclosure : rpc = +.45 (01)

Study	BRIM 1974	<i>Page in Report:</i>	437
<i>Reported in:</i>	Brim, J.A. Social network correlates of avowed happiness. Journal of Nervous and Mental Disease, 1974, vol. 158, p. 432-439.		
<i>Population:</i>	Females Feminists and controls. Seattle, USA, 197?		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	153		

Measured Correlate

Class: Frequency of intimate contacts Code: I 6.2.3

Measurement: Closed question on how often one sees each network member: about once a month / once every week or two / several times a week / almost every day

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-HL/c/sq/n/9/a	r= ns	Adults one sees at least once a month and who are 'important persons' in one's life were considered as social network members. Married females : r = +.04 (ns) Unmarried females : r = -.01 (ns)

Study	DUCKI 1982	<i>Page in Report:</i>	125/126
<i>Reported in:</i>	Duckitt, J.H. Social integration and psychological well-being: a study of elderly persons living in the Humanitas, RSA, vol 8, 1982, pp. 121-129		
<i>Population:</i>	65-90 aged whites Pretoria, South Africa, 198?		
<i>Sample:</i>			
<i>Non-Response:</i>	20%		
<i>N:</i>	80		

Measured Correlate

Class: Frequency of intimate contacts Code: I 6.2.3

Measurement: Frequency of contacts (yearly, monthly, weekly or daily) with:

1. immediate family (i.e. spouse, children, grand children),
2. siblings and other relatives,
3. intimate friends (described as extremely close friends whom the subject confided in and could depend on for emotional support,
4. other friends, neighbours and acquaintances,
5. total network,
6. total network, intimate friends excluded.

Measured Values:

Error Estimates:

Remarks: Controlled for household income and expert rated physical health. Controls reduced zero-order correlations only slightly.

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cm/mq/v/2/a	r=+.17 ns	1. Immediate family. Controlled for household income and expert rated physical health. Controls reduced zero-order correlations only slightly.
	r=+.01 ns	2. Siblings and other relatives.
	r=+.28 p<.001	3. Intimate friends.
	r=+.01 ns	4. Other friends, neighbours and acquaintances.

	r=+.21	ns	5. Total network.
	r=+.11	ns	6. Total network, intimate friends excluded.
O-BW/?/sq/l/9/a	r=+.09	ns	1. Immediate family.
	r=+.19	ns	2. Siblings and other relatives
	r=+.13	ns	3. Intimate friends.
	r=+.11	ns	4. Other friends, neighbours and acquaintances.
	r=+.19	ns	5. Total network.
	r=+.14	ns	6. Total network, intimate friends excluded.

Study	PALIS 1985	<i>Page in Report:</i>	25
<i>Reported in:</i>	Palisi, B.J. Interaction with Kin, Social status, and Well-Being. Cross-Cultural Evidence from International Journal of Comparative Sociology, 1985, 26, p.14-34		
<i>Population:</i>	Males, metropolitan areas: London, Los Angeles and Sydney, 1977-80		
<i>Sample:</i>			
<i>Non-Response:</i>	67 %		
<i>N:</i>	752 (London 226, L.A. 292, Sydney 234)		

Measured Correlate

Class: Frequency of intimate contacts Code: I 6.2.3

Measurement: Single closed question on how often the respondent has discussed intimate matters with household members including the spouse, rated from 'daily' to 'never'.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cm/mq/v/2/a	r=+.18 p<.01	Los Angeles: rpc = +.20 (001)
	r=+.21 p<.001	Sydney: rpc = +.17 (01)
M-FH/cm/sq/v/4/a	r=+.15 p<.01	Los Angeles: rpc = +.12 (05)
	r=+.21 p<.001	Sydney: rpc = +.20 (01)

Study	PALIS 1985	<i>Page in Report:</i>	25
<i>Reported in:</i>	Palisi, B.J. Interaction with Kin, Social status, and Well-Being. Cross-Cultural Evidence from International Journal of Comparative Sociology, 1985, 26, p.14-34		
<i>Population:</i>	Males, metropolitan areas: London, Los Angeles and Sydney, 1977-80		
<i>Sample:</i>			
<i>Non-Response:</i>	67 %		
<i>N:</i>	752 (London 226, L.A. 292, Sydney 234)		

Measured Correlate

Class: Frequency of intimate contacts Code: I 6.2.3

Measurement: Single closed question on how often the respondent has discussed intimate matters with household members including the spouse, rated from 'daily' to 'never'.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>

Study	PALIS 1985C	<i>Page in Report:</i>	440
<i>Reported in:</i>	Palisi, B.J. Formal and informal participation in urban areas Journal of Social Psychology, 1985, p.429-447		
<i>Population:</i>	Males, metropolitan areas: London, Los Angeles and Sydney, 1977-80		
<i>Sample:</i>			
<i>Non-Response:</i>	67%		
<i>N:</i>	752 (London 226, L.A. 292, Sydney 234)		

Measured Correlate

Class: Frequency of intimate contacts Code: I 6.2.3

Measurement: Summed scores of four variables: joined companionship, and intimate discussions with kin, friends and householdmembers. Each variable was rated on a sixpoint scale ranging from daily to never.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
M-FH/cm/sq/v/4/a	r=+.15 p<.05	Los Angeles: r _{pc} =+.18 (01)
	r=+.27 p<.001	Sydney: r _{pc} =+.24 (01)
		Partial correlations controlled for: occupation, education, and age.

Study	VENTE 1995	Page in Report:	350
<i>Reported in:</i>	Ventegodt, S. Livskvalitet i Danmark.(Quality of Life in Denmark) Forskningscentrets Forlag (The Quality of Life Research Center), København, Denmark, ISBN 8790190017		
<i>Population:</i>	18-88 aged, general public, Denmark, 1993		
<i>Sample:</i>	Non-probability purposive sample (unspecified)		
<i>Non-Response:</i>	39%		
<i>N:</i>	1494		

Measured Correlate

<i>Class:</i>	Frequency of intimate contacts Code: I 6.2.3
<i>Measurement:</i>	Single question: "On an average day, how many people who mean something to you personally do you interact with ?" 1: not one every day 2: 1 a day 3: 2 a day 4: 3 a day 5: 4 or more
<i>Measured Values:</i>	N: all: 1443, 1:193, 2:263, 3:304, 4:244, 5:439
<i>Error Estimates:</i>	
<i>Remarks:</i>

Study	ALLAR 1973/3	<i>Page in Report:</i>
<i>Reported in:</i>	Allardt, E. About dimensions of welfare: an explanatory analysis of a comparative Research Reports, no.1, 1973; research group for comparative sociology, University of Helsinki.	
<i>Population:</i>	15-64 aged, general public, Norway, 1972	
<i>Sample:</i>		
<i>Non-Response:</i>		
<i>N:</i>	1000	

Measured Correlate

<i>Class:</i>	Perceived quality of intimate ties Code: I 6.2.4
<i>Measurement:</i>	Question if the respondent feels he gets sufficient attention. 4- point scale ranging from "wholly agree" to "not important"
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-HL/c/sq/v/4/a	rpc=+.20	Controlled for: Income, housing density, education, social status, chronic illness, anxiety, freq. of meetings with relatives, opportunities to make personal contacts, possibilities to decide on matters concerning one's own personal life, no. of memberships in clubs and associations, interesting life, easyness of life, loneliness, feeling of being liked, feeling of being able to use knowledge and skills, feeling of chance to succeed, gets sufficient attention, satisfaction with income, age, gender, no. of communities in which lived.

Study	BRIM 1974	<i>Page in Report:</i>	437
<i>Reported in:</i>	Brim, J.A. Social network correlates of avowed happiness. Journal of Nervous and Mental Disease, 1974, vol. 158, p. 432-439.		
<i>Population:</i>	Females Feminists and controls. Seattle, USA, 197?		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	153		

Measured Correlate

Class: Perceived quality of intimate ties Code: I 6.2.4

Measurement: 3-item index of closed questions: 1. Would trust him/her with important information. 2. Discuss with him/her psychological problems. 3. Tell him/her about a 'put down' some-one had given her.
The questions were answered for each social network member.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-HL/c/sq/n/9/a	r=+.10 ns	Unaffected by marital status.

Study	HENLE 1967	<i>Page in Report:</i>	71
<i>Reported in:</i>	Henley, B. & Davis, M.S. Satisfaction and dissatisfaction: A study of the chronically-ill aged patient. Journal of Health and Social Behavior, 1967, vol.8, p.65-75.		
<i>Population:</i>	60+ aged chronically-ill, followed three years, USA, 1959-62		
<i>Sample:</i>			
<i>Non-Response:</i>	24% not available because of death, mental deterioration, unknown address or r		
<i>N:</i>	167 (dropout at T2 46%)

<i>Reported in:</i>	Moriwaki, S.Y. Self-disclosure, significant others and psychological well-being in old age. Journal of Health and Social Behavior, 1973, vol. 14, p. 266-232.		
<i>Population:</i>	60+ aged, retirees, Los Angeles County, USA, 1971		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	71		

Measured Correlate

Class: Opportunities for self-disclosure Code: I 6.3.1

Measurement: Number of important life areas for which support for self-disclosure from significant others is perceived. Those persons one considers to be close and with whom one can feel free and talk about personal things were considered as 'significant others'.

Measurement by means of Supported Self-Disclosure Index (see Jourard & Lasakow, 1958), modified to include 38 content areas of concern to the elderly, including changes in social relations with age, status and role changes, bodily changes, self-feelings, financial and material problems, and health problems.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

Appendix 1 **Queries on Happiness used in reported Studies**

Happiness Query Code *Full Text*

A-AOL/c/sq/v/4/b Selfreport on single closed question:

"How is your mood these days....?"

4 very good all the time

3

2

1 not good almost all the time

A-AOL/q/sq/v/5/a Selfreport on single question:

"In general, how would you say you feel most of the time - in good spirits or in low spirits....?"

5 very good spirits

4 fairly good spirits

3 neither good spirits nor low spirits

2 fairly low spirits

1 very low spirits.

A-AOL/m/sq/v/5/a Single direct question:

'How are you feeling now....?'

5 very good

4 good

3 neither good nor poor

2 poor

1 very poor

Original text in Danish:

'Hvordan har du det for tiden?'

5 meget godt

4 godt

3 hverken godt eller dårligt

2 dårligt

1 meget dårligt

A-BB/cm/mq/v/2/a Selfreport on 10 questions:

"During the past few weeks, did you ever feel?" (yes/no)

A Particularly exited or interested in something?

B So restless that you couldn't sit long in a chair?

C Proud because someone complimented you on something you had done?

D Very lonely or remote from other people?

E Pleased about having accomplished something?

F Bored?

G On top of the world?

H Depressed or very unhappy?

I That things were going your way?

J Upset because someone criticized you?

Answer options and scoring:

yes = 1
no = 0

Summation:

-Positive Affect Score (PAS): A+C+E+G+I

-Negative Affect Score (NAS): B+D+F+H+J

-Affect Balance Score (ABS): PAS minus NAS

Possible range: -5 to +5

Name: Bradburn's 'Affect Balance Scale' (standard version)

A-BB/cq/mq/v/3/a

Selfreport on 10 questions:

"During the past few months, have you ever felt.... (often, sometimes, never?)"

- A Particularly excited or interested in something?
- B So restless that you couldn't sit long in a chair?
- C Proud because someone complimented you on something you had done?
- D Very lonely or remote from other people?
- E Pleased about having accomplished something?
- F Bored?
- G Depressed or very unhappy?
- H That things were going your way?
- I Upset because someone criticized you?

Answer options and scoring:

0 = no

if yes

3 often

2 sometimes

1 never

Summation:

-Positive Affect Score (PAS): A+C+E+I

-Negative Affect Score (NAS): B+D+F+H+J

-Affect Balance Score (ABS): PAS minus NAS

Possible range: -15 to +12

Name: Bradburn's 'Affect Balance Scale' (standard version)

A-BK/cm/mq/v/5/a

Selfreport on 40 questions:

"Over this time period (the last few weeks) I have had the feeling described by":

- A My life is on the right track
- B I seem to be left alone when I don't want to be
- C I feel I can do whatever I want to
- D I think clearly and creatively
- E I feel like a failure
- F Nothing seems very much fun any more
- G I like myself
- H I can't be bothered doing anything
- I I feel close to people around me
- J I feel as though the best years of my life are over
- K My future looks good
- L I have lost interest in other people and don't care about them

- M I have energy to spare
 N I smile and laugh a lot
 O I wish I could change some parts of my life
 P My thoughts go around in useless circles
 Q I can handle any problems that come up
 R My life seems stuck in a rut
 S I feel loved and trusted
 T I feel there must be something wrong with me

"Over this period (the last few weeks), "how often you felt..."

- U Satisfied
 V Lonely
 W Free-and-easy
 X Clear-headed
 Y Helpless
 Z Impatient
 AA Usefull
 AB Depressed
 AC Loving
 AD Hopeless
 AE Optimistic
 AF Withdrawn
 AG Enthusiastic
 AH Good-natured
 AI Discontented
 AJ Confused
 AK Confident
 AL Tense
 AM Understood
 AN Insignificant

Answer options;

- 0 not at all
 1 occasionally
 2 some of the time
 3 often
 4 all the time

Summation:

- Positive Affect score (PAS): mean positive items
 - Negative Affect Score (NAS): mean negative items
 - Affect balance score (ABS): PAS minus NAS
- Possible range: -4 to +4

A-CP/q/rdp/ro/7/a

Peer rating on single question (based on contact during 6 months):

Rater instruction: "personal qualities are named and briefly annotated in this schedule. If you have any doubt as to the meaning of any of them, please ask me (investigator)

2. In the collums under each subject's name, place one of the marks for each of the qualities specified (+3, +2, +1, 0, -1, -2, -3) To avoid errors, please put the + sign as well as the -

'General tendency to be 'cheerful' (as opposed to being depressed and low spirited)

+3 very high compared to average

+2 distinctly above average

+1 slightly above average

0 average

-1 slightly below average

-2 distinctly below average

-3 lowest as compared to average

A-CP/q/sq/v/7/a

Selfreport on single question:

"Check one of the following groups of adjectives which best describes you."

7 full of deep joy, excitedly happy, enthusiastic, thrilled

6 cheerful, succesful, optimistic, lighthearted

5 satisfied, comfortable, life goes smoothly, peaceful

4 contented at times and at other times discontented, life has both favorable and unfavorable features

3 restless, impatient, uncertain, dull, cross, confined

2 anxious, irritated, discouraged, disappointed, discontented

1 gloomy, miserable, a failure, no pleasure in anything

M-FH/cm/sq/v/4/a

Selfreport on single question:

".....happiness during past few weeks....."

(Full lead not reported)

4 very happy

3

2

1 not too happy

M-FH/cy/sq/v/5/a

Selfreport on single question:

"How do you feel in general, during the last year, happy or not so happy.....?"

5 very happy

4 fairly happy

3 not happy, not unhappy

2 not too happy

1 unhappy

Don't know

Original text in Dutch;

"Hoe voelt u zich in het algemeen in het laatste jaar.....?"

e erg gelukkig

d tamelijk gelukkig,

c niet gelukkig, niet ongelukkig

b niet zo gelukkig

a ongelukkig

- weet niet

M-FH/u/sq/v/3/a

Selfreport on single question:

"Do you feel.....?"

3 happy

- 2 not too happy
1 unhappy

Original text in Dutch:
" Voelt u zichzelf"?
c gelukkig
b niet zo gelukkig
a ongelukkig

O-BW/?/sq/l/9/a

Self report on single question:

- Lead item not reported
[9] best imaginable
[8]
[7]
[6]
[5]
[4]
[3]
[2]
[1] worst imaginable

O-BW/c/sq/l/10/b

Name: Cantril's selfanchoring ladder rating (modified version)

Selfreport on single question:

"Here is a picture of a ladder. Suppose we say that the top of the ladder (10) represents the best possible life for you and the bottom (1) represents the worst possible life for you. Where on the ladder do you feel personally stand at the present time?"

- [10] best possible life for you
[9]
[8]
[7]
[6]
[5]
[4]
[3]
[2]
[1] worst possible life for you

O-BW/c/sq/l/10/c

O-DT/u/sqt/v/7/a

Name: Cantril's selfanchoring ladder rating of life (adapted version)

Selfreport on single question, asked twice in interview:

- "How do you feel about your life as a whole.....?"
7 delighted
6 pleased
5 mostly satisfied
4 mixed
3 mostly dissatisfied
2 unhappy
1 terrible

Summation: arithmetic mean

O-DT/u/sqt/v/9/a Name: Andrews & Withey's "Delighted-Terrible Scale" (original version)
Selfreport on single question asked twice

'How do you feel about your life as a whole?'

- 1 terrible
- 2 very unhappy
- 3 unhappy
- 4 mostly dissatisfied
- 5 mixed feelings
- 6 mostly satisfied
- 7 pleased
- 8 very pleased
- 9 delighted

O-HL/c/sq/?/6/a Selfreport on single question:

"Generally speaking, are you happy these days.....?"

- 6 very happy
- 5
- 4
- 3
- 2

1 very unhappy
(Response options not fully reported)

O-HL/c/sq/n/9/a Selfreport on single question:

"Taken all things together, how would you say things are these days? Please put a circle around the appropriate number to indicate how happy you are these days.....?"

- 9 very happy
- 8
- 7
- 6
- 5 pretty happy
- 4
- 3
- 2
- 1 not too happy

O-HL/c/sq/v/3/ac (originally rated on a horizontal scale)
Selfreport on single question:

"Taken all together, how would you say things are these days? Would you say you are....?"

- 1 not too happy
- 2 relatively happy
- 3 very happy

O-HL/c/sq/v/3/f Selfreport on single question:

O-HL/c/sq/v/4/a	<p>"Considering everything that has happened to you recently, how would you say things are with you - would you say you are.....?"</p> <p>3 very happy 2 pretty happy 1 not too happy</p> <p>Selfreport on single question:</p>
O-HL/c/sq/v/5/a	<p>"Do you feel your life at present is.....?"</p> <p>4 very happy 3 quite happy 2 quite unhappy 1 very unhappy</p> <p>Selfreport on single question:</p>
O-HL/c/sq/v/5/h	<p>"Taking all things together in your life, how would you say things are these days? Would you say you are?"</p> <p>5 very happy 4 happy 3 neither happy nor unhappy 2 unhappy 1 very unhappy</p> <p>Selfreport on single question</p>
O-HL/g/sq/v/3/c	<p>'How happy are you now?'</p> <p>5 very happy 4 happy 3 neither happy nor unhappy 2 unhappy 1 very unhappy</p> <p>Original text in Danish: 'Hvor lykkelig er du for tiden?'</p> <p>5 meget lykkelig 4 lykkelig 3 hverken eller 2 ullykkelig 1 meget ullykkelig</p> <p>Selfreport on single question:</p>
O-HL/u/sq/v/4/a	<p>"In general, how happy would you say you are.....?"</p> <p>3 very happy 2 fairly happy 1 not too happy</p> <p>Selfreport on single question:</p>
	<p>"Taking all things together, would you say you are.....?"</p> <p>4 very happy 3 quite happy 2 not very happy 1 not at all happy.</p>

O-HL/u/sq/v/4/b	<p>Selfreport on single question:</p> <p>"On the whole, how happy would you say you are.....?"</p> <p>4 very happy 3 fairly happy 2 not very happy 1 very unhappy</p>
O-HP/g/sq/ol/7/a	<p>Selfreport on single question:</p> <p>"Generally speaking are you a happy person.....?"</p> <p>Responses were made on an open line scale, and were later coded in 7 categories:</p> <p>1 very unhappy 2 3 4 5 6 7 very happy.</p> <p>Original text in Dutch: "Bent u over het algemeen een gelukkig mens?" a zeer ongelukkig b c d e f g zeer gelukkig</p>
O-SL?/?/sq/v/5/a	<p>Selfreport on single question:</p> <p>"..... satisfaction with life" (full question not reported)</p> <p>5 very satisfied 4 satisfied 3 don't know/satisfied 2 don't know/not satisfied 1 disappointed in life</p>
O-SLL/g/sq/v/4/a	<p>Selfreport on single question:</p> <p>"In general, how satisfied are you with your way of life.....?"</p> <p>4 quite satisfied 3 fairly satisfied 2 sometimes dissatisfied 1 usually dissatisfied</p>
O-SLu/c/sq/v/5/e	<p>Selfreport on single question:</p> <p>'How satisfied are you with your life now?'</p> <p>5 very satisfied 2 satisfied</p>

- 3 neither satisfied nor dissatisfied
- 2 dissatisfied
- 1 very dissatisfied

Original text in Danish:

'Hvor tilfreds er du med dit liv for tiden?'

- 5 meget tilfreds
- 4 tilfreds
- 3 hverken tilfreds eller utilfreds
- 2 utilfreds
- 1 meget utilfreds

O-SLu/c/sq/v/5/g

Self report on single question:

'How satisfying do you find your life at the moment.....?'

- 1 very dissatisfying
- 2 quite dissatisfying
- 3 not satisfying not dissatisfying
- 4 quite satisfying
- 5 very satisfying

O-SLu/g/sq/v/3/b

In Finnish: 'Kuinka tyydyttäväksi koet elämäsi tällä hetkellä ?'

Selfreport on single question:

"In general, how satisfied are you with your life.....?"

- 3 mostly satisfied
- 2 partly satisfied
- 1 mostly disappointed

O-SLu/g/sq/v/5/a

Selfreport on single question:

"In general, how satisfied are you with your life.....?"

- 5 very satisfied
- 4 satisfied
- 3 average
- 2 somewhat dissatisfied
- 1 very dissatisfied

O-SLW/c/sq/n/10/aa

Selfreport on single question:

"All things considered, how satisfied are you with your life as-a-whole now.....?"

- 1 dissatisfied
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 satisfied

O-SLW/c/sq/n/7/a	<p>Selfreport on single question:</p> <p>"We have talked about various parts of your life, now I want to ask you about your life as a whole. How satisfied are you with your life as a whole these days.....?"</p> <p>7 completely satisfied 6 5 4 neutral 3 2 1 completely dissatisfied</p>
O-SLW/c/sq/v/5/d	<p>Selfreport on single question:</p> <p>"Taking everything into consideration, how satisfied are you with life in general at the present time? Would you say you are.....?"</p> <p>5 extremely satisfied 4 very satisfied 3 fairly satisfied 2 slightly satisfied 1 not satisfied"</p>
O-SLW/u/sq/v/5/a	<p>Selfreport on single question:</p> <p>"On the whole, are you satisfied with your life.....?"</p> <p>5 definitely yes 4 rather yes 3 don't know 2 rather no 1 definitely no - no reply</p>
O-SLW/u/sq/v/5/d	<p>Selfreport on single question:</p> <p>"Taking your life as a whole, are you"?</p> <p>5 very satisfied 4 quite satisfied 3 more satisfied than discontented 2 more discontented than satisfied 1 quite dissatisfied</p> <p>In German: "Wenn Sie Ihr Leben jetzt alles in allem betrachten, sind Sie.....?"</p> <p>5 sehr zufrieden 4 ziemlich zufrieden 3 eher zufrieden 2 eher unzufrieden 1 ziemlich unzufrieden</p>
O-SLW/u/sqt/v/7/a	<p>Selfreport on single question, asked twice in interview:</p> <p>"Considering everything, how satisfied are you with your life as a whole.....?"</p> <p>7 completely satisfied 6</p>

5
4
3
2
1 completely dissatisfied

Summation: both scores added
Possible range: 2 to 14

On the web you will find an overview of valid queries on happiness and an explanation of the classification used. Go to: www.eur.nl/fsw/research/happiness/hap_quer/hqi_fp.htm. This is the introductory text to the Catalog of Happiness Queries.

Appendix 2 *Statistics used in reported studies*

<i>Symbol</i>	<i>Explanation</i>
Beta	<p>(β) STANDARDIZED REGRESSION COEFFICIENT Type: test statistic. Measurement level: Correlates: all metric, Happiness: metric. Range: [-1 ; +1]</p> <p>Meaning: $\beta > 0$ « a higher correlate level corresponds with, on an average, higher happiness rating. $\beta < 0$ « a higher correlate level corresponds with, on an average, lower happiness rating. $\beta = 0$ « no correlation. $\beta = +1$ or -1 « perfect correlation.</p>
D%	<p>DIFFERENCE in PERCENTAGES Type: descriptive statistic only. Measurement level: Correlate level: dichotomous, but nominal or ordinal theoretically possible as well. Happiness level: dichotomous Range: [-100; +100]</p> <p>Meaning: the difference of the percentages happy people at two correlate levels.</p>
DM	<p>DIFFERENCE of MEANS Type: descriptive statistic only. Measurement level: Correlate: dichotomous, Happiness: metric Range: depending on the happiness rating scale of the author; range symmetric about zero.</p> <p>Meaning: the difference of the mean happiness, as measured on the author's rating scale, between the two correlate levels.</p>
E ²	<p>CORRELATION RATIO (Elsewhere sometimes called h^2 or η^2) Type: test statistic Measurement level: Correlate: nominal or ordinal, Happiness: metric Range: [0; 1]</p> <p>Meaning: correlate is accountable for $E^2 \times 100$ % of the variation in happiness. $E^2 = 0$ « knowledge of the correlate value does not improve the prediction quality of the happiness rating. $E^2 = 1$ « knowledge of the correlate value enables an exact prediction of the happiness rating</p>
G	<p>GOODMAN & Kruskal's GAMMA Type: test statistic Measurement level: Correlate: ordinal, Happiness: ordinal Range: [-1; +1]</p> <p>Meaning: $G = 0$ « no rank correlation $G = +1$ « strongest possible rank correlation, where high correlate values correspond with high happiness ratings.</p>

	<p>$G = -1$ « strongest possible rank correlation, where high correlate values correspond with low happiness ratings.</p>
mc	<p>Guttman's monotonicity coefficient. Range: [-1, +1]. Measurement level: Both correlate and happiness ordinal or interval Based on the multiplication of signed differences within one variable with the corresponding difference in the second variable and summation over all possible differences. Seldom used in happiness research. See excerpted report.</p>
r	<p>PRODUCT-MOMENT CORRELATION COEFFICIENT (Also "Pearson's correlation coefficient" or simply 'correlation coefficient') Type: test statistic. Measurement level: Correlate: metric, Happiness: metric Range: [-1; +1]</p> <p>Meaning: $r = 0$ « no correlation , $r = 1$ « perfect correlation, where high correlate values correspond with high happiness values, and $r = -1$ « perfect correlation, where high correlate values correspond with low happiness values.</p>
R ²	<p>COEFFICIENT of DETERMINATION Type: test statistic Measurement level: Correlates: all metric, Happiness: metric Range: [0; 1]</p> <p>Meaning: $R^2 = 0$ « no influence of any correlate in this study has been established. $R^2 = 1$ « the correlates determine the happiness completely.</p>
rpc	<p>PARTIAL CORRELATION COEFFICIENT Type: test statistic Measurement level: Correlate: metric, Happiness: metric Range: [-1; +1]</p> <p>Meaning: a partial correlation between happiness and one of the correlates is that correlation, which remains after accounting for the contribution of the other influences, or some of them, to the total variability in the happiness scores. Under that conditions $rpc > 0$ « a higher correlate level corresponds with a higher happiness rating, $rpc < 0$ « a higher correlate level corresponds with a lower happiness rating,</p>
SNR	<p>Statistic Not Reported</p>
T	<p>TSCHUPROW'S T Type: test statistic. Measurement level: Correlate: nominal, Happiness: ordinal Range: $[0 ; \text{SQRT}[\frac{\min(r,c)-1}{\max(r,c) - 1}]]$, c and r being the numbers of cols resp. rows in a cross tabulation.</p> <p>Meaning: $T = 0$ « no association $T \rightarrow 1$ « strongest possible association.</p>

V

NOTE: sometimes the square value is reported instead !

CRAMÉR's V

Type: test statistic

Measurement level: Correlate: nominal, Happiness: ordinal

Range: [0; 1]

Meaning:

V = 0 « no association

V = 1 « strongest possible association

On the web you will find a text explaining the statistics used in more detail. Go to:
www.eur.nl/fsw/research/happiness/hap_cor/cor_fp.htm. This is the introductory text to the Catalog of Correlational Findings. An overview of all statistics is in chapter 4.

Appendix 3: About the World Database of Happiness

The World Database of Happiness is an ongoing register of scientific research on subjective appreciation of life. It brings together findings that are scattered throughout many studies and provides a basis for synthetic analysis. The research literature is processed as follows:

-
- 1 **BIBLIOGRAPHY OF HAPPINESS** Presents all contemporary scientific publications. Detailed subject-classification. Current contents: 3422 titles, mainly in English.
 - 2 **DIRECTORY OF INVESTIGATORS** Names and addresses of most authors on the subject. Enumerates years of publication. Current contents: 5818 names and 3073 addresses. Part of Bibliography.
 - 3 **CATALOG OF HAPPINESS QUERIES (testbank)** Presents all indicators that tap happiness as defined here. Current content: 522 measures, mostly single questions. Queries are classified by focus, time reference, mode of observation, rating and wording.
 - 4 **CATALOG OF HAPPINESS IN NATIONS** Presents distributional research findings, in particular responses to questions on happiness in national survey studies. Allows comparison across time and nations. Current content: 1889 surveys in 112 nations, 1946-2000.
 - 5 **CATALOG OF HAPPINESS IN PUBLICS** Distributional findings on happiness in special publics within nations, such as aged people. Current contents: 705 studies. Part of Catalog of Correlational Findings.
 - 6 **CATALOG OF CORRELATIONAL FINDINGS** Presents abstracts of correlational research findings. Detailed subject-classification. Allows comparison through time and across nations. Current contents: 7476 findings from 705 studies in 140 nations, 1911-2000.
