Findings on Happiness & MENTAL HEALTH

Correlate Code: M 7

<i>Classification of Findings</i>		<i>Number of Studies on this Subject</i>
<i>Correlate Code</i>	<i>Correlate Name</i>	
M 7	MENTAL HEALTH	0
M 7.1	Mental-health career	0
M 7.1.1	Earlier mental health	14
M 7.1.2	Change in mental health	0
M 7.1.4	Later mental health	1
M 7.2	Current general mental health	2
M 7.2.1	Expert ratings of mental health	4
M 7.2.2.2	. scores on symptom inventories	16
M 7.2.2.3	. feels close to mental breakdown	1
M 7.3	Current specific mental disorders	5
M 7.3.1	Depression	27
M 7.3.2	Neurosis	3
M 7.3.3	Schizophrenia	1
M 7.4	Current positive mental health	2
M 7.5	Current treatment for mental problems	0
M 7.5.1	Perceived need for treatment	1
M 7.5.2	In ambulatory treatment	7
M 7.5.3	In mental hospital	6
M 7.5.4	Use of psycho-pharmacals	2
M 7.6	Attitudes to own mental health	0
M 7.6.1	Readiness to seek professional care	2
M 7.6.2	Satisfaction with treatment	0
M 7.2.2	Self ratings of mental health	3
M 7.2.2.1	. overall selfestimate of mental health	2

Study	BACHM 1978	Page in Report:
<i>Reported in:</i>	Bachman, J. G., O'Malley, P. M., Johnston, J. Youth in transition, vol. VI: Adolescence to adulthood, change and stability in the lives Institute for Social Research, University of Michigan, Ann Arbor, Michigan, 1978	
<i>Population:</i>	Public highschool boys followed 8 years from grade 10, USA, 1966-74	
<i>Sample:</i>		
<i>Non-Response:</i>	2.8% at T1, 17.2% at T2, 21.0% at T3, 28.9% at T4, 28.5% at T5	
<i>N:</i>	T1 - T5: 2213/1886/1799/ 1620/1628	

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1
<i>Measurement:</i>	40-item index of closed questions on irritability (7 items), general anxiety (7 items), anxiety and tension (5 items), depression (6 items), anomie (8 items) and resentment (7 items). Scale: 1.00 = low to 5.00 = high negativity. Assessed at T1, T2, T3 and T4
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

Happiness Query	Statistics	Remarks
O-HP/g/mq/v/5/a	tau=- p<.001	Negative affective states
		Happiness
		T1 T2 T3 T4
		T1 _ = -.54 -.35 -.33 -.31
		T2 _ = -.37 -.56 -.43 -.39
		T3 _ = -.31 -.45 -.61 -.45
		T4 _ = -.35 -.42 -.46 -.52
		All _ significant (.001)
		T1: 1966, T2: 1968, T3: 1969, T4: 1970

Study **BRADB 1969** *Page in Report:*

Reported in: Bradburn, N.M.
 The structure of psychological well-being
 Aldine Publishing Company, 1969, Chicago, USA

Population: 21-60 aged, general public, urban areas, USA, 1963 - 64

Sample:

Non-Response: $\pm 20\%$, Attrition
 $\pm 30\%$

N: 2787

Measured Correlate

Class: Earlier mental health Code: M 7.1.1

Measurement: Direct question:
 0 No
 1 Yes

Measured Values:

Error Estimates:

Remarks: Data T1. Results T3 similar.
 Not computed for summed ABS.

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cm/mq/v/2/a	G=-	Index of Positive Affects: - Males : T1: G= Data T1. Results T3 similar. - Females: T1: G= Not computed for summed ABS. Index of Negative Affects: - Males : T1: G= +.48 - Females: T1: G= +.47 - Unaffected by amount of worries.

Study	CHIRI 1982	<i>Page in Report:</i>	23
<i>Reported in:</i>	Chiriboga, D.A. Consistency in adult functioning: The influence of social stress Ageing and Society, vol.2 part 1, p.7-29		
<i>Population:</i>	People in transition followed 4 years, metropolis, USA, 1969-1980		
<i>Sample:</i>			
<i>Non-Response:</i>	Attrition after 11 years 24%		
<i>N:</i>	163 (in 1969:216)		

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1
<i>Measurement:</i>	42-item California Symptoms Checklist, derived from Cornwell Medical Index, administered 11 years ago at T1(1969).
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

O-HL/c/sq/v/3/cb	r=	Males: r= -.31 (05) Females: r= -.17 ns Happiness assessed at T5(1980)

Study	COSTA 1980/2	<i>Page in Report:</i>	675
<i>Reported in:</i>	Costa, P.T. & McCrae, R.R. Influence of extraversion and neuroticism on subjective well-being: happy and Journal of Personality and Social Psychology, vol. 38: 4, 1980, pp. 668-678		
<i>Population:</i>	25-75 aged white males (largely veterans), followed 10 years, USA, 1965-76		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	234		

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1
<i>Measurement:</i>	Cattell (1973) Sixteen Personality Factor Questionnaire Assessed at T1 (10 years ago)
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cy/mq/v/2/a	r=-.30 p<.001	Hedonic level assessed at T2 NAS: r = +.39 (001) PAS: r = -.08 ns

Study	COSTA 1981	<i>Page in Report:</i>	81
<i>Reported in:</i>	Costa,P.T., McCrae,R.R. & Morris,A.H. Personal adjustment to aging: Longitudinal prediction from neuroticism and Journal of Gerontology, vol.36(1981), p.78-85		
<i>Population:</i>	17-97 aged males, visitors of the Gerontology Research Centre, followed \pm 10 years Baltimore, USA. 1958-70		
<i>Sample:</i>			
<i>Non-Response:</i>	Attrition 79% at T3, mostly among psychologically least adjusted		
<i>N:</i>	557 at T1, 423 at T2, 117 at T3		

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1
<i>Measurement:</i>	Factor-score derived from Guilford/ Zimmerman Temperament Survey (GZTS), labeled 'Emotional Health' in Guilford et al 1976. High loadings on: emotional stability, objectivity, friendliness and personal relationships.
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
C-A/h/sq/v/3/a	r= p<.s	T1 neuroticism by T1 happiness: - young (18-49) r= -.17 (.001) - old (50-97) r= -.15 (.01)
	r=-.19 p<.01	T1 neuroticism by T2 happiness (2-10 yrs later)
	r=-.11 ns	T1 neuroticism by T3 happiness (10-17 yrs later)

Study	ESTES 1973	<i>Page in Report:</i>	471
<i>Reported in:</i>	Estes, R. Determinants of differential stress levels among university students. Journal of the American College Health Association, 1973, vol. 21, p. 470-476.		
<i>Population:</i>	University students, mental patients and controls, California, USA, 1971-72		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	280		

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1		
<i>Measurement:</i>	0. No earlier treatment treatment prior to college years.	1. Received psychiatric	
<i>Measured Values:</i>			
<i>Error Estimates:</i>			
<i>Remarks:</i>			

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-AOL/g/sq/v/2/a	G=-.68 p<.01	

Study	ORMEL 1980	<i>Page in Report:</i>	350
<i>Reported in:</i>	Ormel,H. Moeite met leven of een moeilijk leven (Difficulty in living or a difficult life) Dissertation 1980, University of Groningen, the Netherlands, publisher: Konstapel, Groningen, the Netherlands.		
<i>Population:</i>	15-60 aged, general public, followed 12 month, The Netherlands, 1967-77		
<i>Sample:</i>			
<i>Non-Response:</i>	18%		
<i>N:</i>	296		

Measured Correlate

Class: Earlier mental health Code: M 7.1.1

Measurement: 4-item additive index of specified physical complaints, having occurred in the past 4 weeks and rated on a 4 point scale, 1: none, ... 4: longer than 2 weeks:
 1. nervousness
 2. depression
 3. worrying
 4. moodiness
 Assessed at T2(1976) and T3(1977)

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cw/mq/v/4/c	r=-.57 p<.01	T2 happiness by T2 complaints
	r=-.44 p<.01	T3 happiness by T2 complaints
	r=-.32 p<.01	T2 happiness by T3 complaints
	r=-.52 p<.01	T3 happiness by T3 complaints

Study	PAYNE 1974	<i>Page in Report:</i>	17
<i>Reported in:</i>	Payne, R.L. N.M. Bradburn's measures of psychological well-being: an attempt at replication. Memo No: 61, MRC Social and Applied Psychology. Unit, Dpt.ofPsychology University of Sheffield, England, 1974.		
<i>Population:</i>	Employed males, supervising jobs, England, 197?		
<i>Sample:</i>			
<i>Non-Response:</i>	4% incomplete.		
<i>N:</i>	192		

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1
<i>Measurement:</i>	Direct question: 0 no 1 yes
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

O-HL/u/sq/v/3/a	tb= - p<. 05	Males : $_b = -.10$ (.05) Females : $_b = -.11$ (.01)

Study	WESSM 1966/2	<i>Page in Report:</i>	122
<i>Reported in:</i>	Wessman, A.E. & Ricks, D.F. Mood and personality Holt, 1966, New York, USA		
<i>Population:</i>	Male college students, followed 3 years, Harvard University, USA, 1957-60		
<i>Sample:</i>			
<i>Non-Response:</i>	37%: 9 dropouts, incomplete; about the same happiness distribution.		
<i>N:</i>	17		

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1
<i>Measurement:</i>	Score derived from a 212-item inventory of past life experiences.
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-ARE/md/sqr/v/10/	r=-.46 p<. 10	

Study	WESSM 1966/2	<i>Page in Report:</i>	103-115
<i>Reported in:</i>	Wessman, A.E. & Ricks, D.F. Mood and personality Holt, 1966, New York, USA		
<i>Population:</i>	Male college students, followed 3 years, Harvard University, USA, 1957-60		
<i>Sample:</i>			
<i>Non-Response:</i>	37%: 9 dropouts, incomplete; about the same happiness distribution.		
<i>N:</i>	17		

Measured Correlate

<i>Class:</i>	Earlier mental health Code: M 7.1.1
<i>Measurement:</i>	MMPI Depression Scale, taken 2 years previously (see GOUGH, 1953).
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-ARE/md/sqr/v/10/	r=-.83 p<. 05	

Study	CHIRI 1982	<i>Page in Report:</i>	22
<i>Reported in:</i>	Chiriboga, D.A. Consistency in adult functioning: The influence of social stress Ageing and Society, vol.2 part 1, p.7-29		
<i>Population:</i>	People in transition followed 4 years, metropolis, USA, 1969-1980		
<i>Sample:</i>			
<i>Non-Response:</i>	Attrition after 11 years 24%		
<i>N:</i>	163 (in 1969:216)		

Measured Correlate

<i>Class:</i>	Later mental health Code: M 7.1.4		
<i>Measurement:</i>	42-item California Symptoms Checklist, derived from Cornwell Medical Index, administered 11 years later at T5(1980)		
<i>Measured Values:</i>			
<i>Error Estimates:</i>			
<i>Remarks:</i>			

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-HL/c/sq/v/3/cb	r=	Males: r= +.06 ns Females: r= -.08 ns Happiness assessed at T1(1969)

Study	CHIRI 1971	<i>Page in Report:</i>	603
<i>Reported in:</i>	Chiriboga, D. & Lowenthal, M.F. Psychological correlates of perceived well-being Proceedings of the 79th Annual Convention, A.P.A., 1971		
<i>Population:</i>	People in transition, metropolis, USA, 1969		
<i>Sample:</i>			
<i>Non-Response:</i>	-		
<i>N:</i>	216		

Measured Correlate

Class: Current general mental health Code: M 7.2

Measurement: 10 indicators of psychological deficits including number of symptoms mentioned, plus a psychiatrist's ratings of the degree of psychopathology implicit in each symptom response, long- and short- term symptoms, and total symptom response set per respondent; Gottschalk anxiety scores, derived from TAT cards, global ratings by a interdisciplinary team of social scientists on perceived stress, stress impact, degree and direction of impairment.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cw/mq/v/4/d	r= - p<. 05	Six of the deficit indicators correlated significantly (.05) with both affect balance and with negative affect. No relationships with positive affect were found.

Study	LOWEN 1973	<i>Page in Report:</i>	291/292
<i>Reported in:</i>	Lowenthal, M.F., Chiriboga, D. Social stress and adaptation: toward a life-course perspective Eisdorfer, C., Powell Lawton, M., eds. Psychology of adult development and aging, Washington D.C., 1973 A.P.A.		
<i>Population:</i>	People in transition, metropolis, USA, 1969		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	216		

Measured Correlate

Class: Current general mental health Code: M 7.2

Measurement: Resource-deficit configuration: the high/high combination is the most "complex", the low/low combination the most "simple".
1. Resources (aspects of positive mental health): 13 characteristics, such as familial mutuality, insight, competence, self-satisfaction, etc. rated on the basis of an interview protocol.
2. Deficits (aspects of negative mental health): 5 ratings of mental impairment based on scores on a symptom inventory and analysis of the interview protocol.
Both resource level and deficit levels were divided in three categories: high, middle, low. This allowed nine combinations: high/high, high/middle, low/low.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cw/mq/v/4/a	SNR=+	Resource/deficit combinations in order of happiness: most happy: medium/low second happy: high/low third happy: low/low least happy(ninth): medium/medium Resource/deficit combinations characteristic of the happiest among: high school seniors high/high newly weds medium/low middle-aged parents medium/low preretirees low/low The correspondence of happiness and "complexity" in mental health declines with age.

Study	ALEXA 1968	<i>Page in Report:</i>	29/67
<i>Reported in:</i>	Alexander, W.E. Some sociological aspects of psychological well-being in a schizophrenic population: Unpublished doctoral dissertation, 1968, Syracuse University USA		
<i>Population:</i>	Schizophrenic males non-hospitalized, Monroe County, New York, USA, 1964-65		
<i>Sample:</i>			
<i>Non-Response:</i>	28%, most of them patients' or family member refusal		
<i>N:</i>	178		

Measured Correlate

<i>Class:</i>	Expert ratings of mental health Code: M 7.2.1
<i>Measurement:</i>	Rating by a psychiatrist on the basis of a detailed symptom checklist: 1-3 (minimal impairment) / 4-6 / 7-9 / 8-12 (marked impairment)
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cw/mq/v/4/f	r = -	Index of Negative Affects: $r = +.16$ (ns) U-shaped curve: Ss with pathology ratings of 7-9 having most negative feelings. Significant differences between those with ratings of 4-6 and those with ratings of 7-9 only. Unrelated to the Index of Positive Affects.
O-HL/c/sq/v/3/aa	G = -.27 p < .01	Index of Negative Affects: $r = +.16$ (ns) U-shaped curve: Ss with pathology ratings of 7-9 having most negative feelings. Significant differences between those with ratings of 4-6 and those with ratings of 7-9 only. Unrelated to the Index of Positive Affects.

Study	BAKER 1982	<i>Page in Report:</i>	78
<i>Reported in:</i>	Baker, F., Intagliata, J. Quality of life in the evaluation of Community Support Systems. Evaluation and Program Planning, vol. 5, 1982, 69-79		
<i>Population:</i>	Mental patients shortly after change in institutional setting, USA, 1981		
<i>Sample:</i>			
<i>Non-Response:</i>	-		
<i>N:</i>	118		

Measured Correlate

<i>Class:</i>	Expert ratings of mental health Code: M 7.2.1
<i>Measurement:</i>	Rating by case-managers using the Global Assessment Scale (Endicott, Spitzer, Fleiss & Cohen, 1976)
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>N:</i>	T1: 146, T2: 154, T3: 137	

Measured Correlate

Class: . scores on symptom inventories Code: M 7.2.2.2

Measurement: Index of closed questions, rated on a 2-point scale, ranging from (0) True to (1) False. (order reversed)

- a. No more nervous than most other people
- b. Keyed up most of the time
- c. Can't keep mind on one thing very long
- d. Bothered by things not a bother to others
- e. Worrying about something most of the time
- f. Calm - don't get upset easily
- g. Anxious about someone/something almost all of the time
- h. Happy most of the time
- i. Nervous some days - can't sit still very long
- j. Hard time keeping mind on work/task
- k. Don't worry about what other people think about me any more than most people
- l. Take things hard (get hurt easily)
- m. Life a strain much of the time
- n. At times think I'm just no good at all
- o. Lack faith in self
- p. Feel useless at times
- q. Things upset me easier than most people
- r. So many problems feel couldn't handle
- s. Feel about to go to pieces
- t. Deny trouble/difficult problem

Appendix 1 *Queries on Happiness used in reported Studies*

Happiness Query Code Full Text

A-AOL/cq/sq/v/10/a

Selfreport on single question:

"Mood is usually applied to states lasting for minutes or hours, but most people can estimate their average or typical mood over a long period of time. Using the following scale, please indicate which statement best describes your typical mood for the current spring semester. Draw a circle around the number of the statement which best describes your average level of happiness or unhappiness during this semester.

- 10 Complete elation, rapturous joy and soaring ecstasy
- 9 Very elated and in very high spirits. Tremendous delight and buoyancy
- 8 Elated and in high spirits
- 7 Feeling very good and cheerful
- 6 Feeling pretty good, "OK"
- 5 Feeling a little bit low. Just so-so
- 4 Spirits low and somewhat "blue"
- 3 Depressed and feeling very low. Definitely "blue"
- 2 Tremendously depressed. Feeling terrible, really miserable, "just awful"
- 1 Utter depression and gloom. Completely down. All is black and leaden. Wish it were all over.

A-AOL/cy/sq/v/10/a

Selfreport on single question:

"In thinking over the past year, indicate how elated or depressed, happy or unhappy you have felt....?"

- 10 Complete elation, rapturous joy and soaring ecstasy
- 9 Very elated and in very high spirits. Tremendous delight and buoyancy.
- 8 Elated and in high spirits.
- 7 Feeling very good and cheerful.
- 6 Feeling pretty good, "OK".
- 5 Feeling a little bit low. Just so-so.
- 4 Spirits low and somewhat "blue".
- 3 Depressed and feeling very low. Definitely "blue".
- 2 Tremendously depressed. Feeling terrible, really miserable, "just awful".
- 1 Utter depression and gloom. Completely down. All is black and leaden. Wish it were all over.

A-AOL/g/sq/v/2/a

Selfreport on single question:

"....feeling in good spirits usually..."

- 2 yes
- 1 no

A-AOL/q/sq/v/3/b

Selfreport on single question :

"In general, how would you say you feel most of the time, in good spirits or in low

	spirits....?"
	1 low
	2 both
	3 good
A-AOL/m/sq/v/5/a	Single direct question: 'How are you feeling now....?'
	5 very good
	4 good
	3 neither good nor poor
	2 poor
	1 very poor
	Original text in Danish: 'Hvordan har du det for tiden?
	5 meget godt
	4 godt
	3 hverken godt eller dårligt
	2 dårligt
	1 meget dårligt
A-AOL/se/sq/v/7/a	Selfreport on single question
	"Taken things together: how did you feel since you got ill....?"
	7 very good
	6
	5
	4
	3
	2
	1 very bad
A-AOL/u/mq/v/10/a	Selfreport on 4 questions:
	"The following are statements of feelings or mood. Please read them over and then indicate which of these overall feelings best describes your feelings."
	A) Right now you feel
	B) The best you felt today
	C) The worst you felt today ...
	D) The way you usually feel ...
	Response options:
	10. Complete elations, rapturous joy, and soaring ecstasy.
	9. Very elated and in very high spirits; tremendous delight and bouyancy.
	8. Elated and in high spirits.
	7. Feeling very good and cheerful.
	6. Feeling pretty good, "OK".
	5. Feeling a little bit low. Just so-so.
	4. Spirits low and somewhat blue.
	3. Depressed and feeling very low. Definitely blue.
	2. Tremendously depressed. Feeling terrible, really miserable, "just awful".
	1. Utter depression and gloom. Completely down. All is black

and leaden. Wish it were all over.

Summation: average scores on A,B,C,D.

A-ARE/md/sqr/v/10/a Name: Elation-Depression Scale (variant)
Selfreport on single question, repeated every evening before retiring during 3 weeks (experience sampling).

"On the average, how happy or unhappy did you feel today....?"

- 1 Extremely unhappy. Utterly depressed. Completely down.
- 2 Very unhappy. Depressed. Spirits very low.
- 3 Pretty unhappy. Somewhat 'blue'. Spirits down.
- 4 Mildly unhappy. Just a little low.
- 5 Barely unhappy. Just this side of neutral.
- 6 Barely happy. Just this side of neutral.
- 7 Mildly happy. Feeling fairly good and somewhat cheerful.
- 8 Pretty happy. Spirits high. Feeling good.
- 9 Very happy. Feeling really good. Elated.
- 10 Extremely happy. Feeling ecstatic, joyous, fantastic.

A-ARE/md/sqr/v/10/b Name: Wessman & Ricks' 'Elation - Depression Scale' (adapted version)
Selfreport on single question, answered every evening before retiring during six weeks (experience sampling)

"On average; how elated or depressed, happy or unhappy you felt today....?"

- 10 Complete elation, rapturous joy and soaring ecstasy
- 9 Very elated and in very high spirits. Tremendous
delight and buoyancy
- 8 Elated and in high spirits
- 7 Feeling very good and cheerful
- 6 Feeling pretty good, "OK"
- 5 Feeling a little bit low. Just so-so
- 4 Spirits low and somewhat 'blue'
- 3 Depressed and feeling very low.
Definitely 'blue'
- 2 Tremendously depressed.
Feeling terrible, really miserable, "just awful"
- 1 Utter depression and gloom. Completely down.
All is black and leaden. Wish it were all over.

A-ASA/mi/mq/v/3/a Name: Wessman & Ricks' 'Elation - depression scale'
Selfreport on 22 questions:

Below is a list of opposed attributes. Please indicate which applies best to your situation at this moment. Don't think too long. Place a cross next to the word this fits best. If you cannot decide, use the neither/nor option. Do not skip any lines.

"At the moment I am feeling....."

- A refreshedlistless
B indifferent towardinterested in others

C pleaseddepressed
 D successful.....unsuccessful
 E irritable.....peaceful
 F indecisive.....ready to make decisions
 G cheerful.....Tearful
 H in a good mood..... in a bad mood
 I lacking in appetite.....with a good appetite
 J sociable.....withdrawn
 K unworthy.....worthy
 L relaxed..... tense
 M happy.....unhappy
 N shy.....communicative
 O sinful and wicked.....pure
 P secure.....threatened
 Q abandoned.....cared for
 R even-tempered.....driven
 S confident.....insecure
 T miserable.....comfortable
 U flexible.....inflexible
 V tired.....rested
 W hesitant.....firm
 X calm.....restless
 Y lacking in energy.....energetic
 Z useless.....indispensable
 AA sluggish..... lively
 AB superior.....inferior

Response options:

- 3 positive option
- 2 neither nor
- 1 negative option

Summation: Mean

Name: Zerssen's 'Befindlichkeits Skala' version 1 (B-S)

In Deutsch:

Im folgenden finden Sie eine Reihe von Eigenschaftspaaren. Bitte, entscheiden Sie - ohne lange zu überlegen - welche der beiden Eigenschaften Ihrem augenblicklichen Zustand am ehesten entspricht. Machen Sie in das Kästchen vor der eher zutreffenden Eigenschaft ein Kreuz. Nur wenn Sie sich gar nicht entscheiden können, machen Sie ein Kreuz in die Spalte "weder - noch". Lassen Sie keine Zeile aus!

A frisch.....matt
 B teilnahmslos.....teilnahmsvoll
 C froh.....schwermütig
 D erfolgreich.....erfolglos
 E gereizt.....friedlich
 F entschlosslos.....entschlussfreudig

G lustig..... weinerlich
 H wohlgelaunt.....verstimmt
 I appetitos.....appetitfreudig
 J gesellig.....zurückgezogen
 K minderwertig.....vollwertig
 L entspannt.....gespannt
 M glücklich.....unglücklich
 N scheu.....zugänglich
 O sündig..... rein
 P sicher.....bedroht
 Q verlassen.....umsorgt
 R ausgewogen.....innerlich getrieben
 S selbstsicher.....unsicher
 T elend.....munter
 U beweglich.....star
 V müde.....ausgeruht
 W zögernd.....bestimmt
 X ruhig.....unruhig
 Y lahm.....schwungvoll
 Z nutzlos..... unentbehrlich
 AA schwerfällig.....lebhaft
 AB überlegen.....unterlegen

A-BB/c/mq/v/2/a

Selfreport on 10 questions:

"Looking at your present life situation, have you felt....?"
 (yes/no)

- A Particularly exited, or interested in something?
- B So restless that you could not sit long in a chair?
- C Proud because someone complimented you on something you had done?
- D Very lonely or remote from people?
- E Pleased about having accomplished something?
- F Bored?
- G On top of the world?
- H Depressed?
- I That things were going your way?
- J Upset because someone criticized you?

Response options scoring

- yes = 1
- no = 0

Summation:

Positive Affect Score (PAS): summed scores on A,C,E,G,I

Negative Affect Score (NAS): summed scores B,D,F,H,J

Affect Balance Score (ABS): PAS minus NAS

Possible range: -5 to +5

Name: Bradburn's 'Affect Balance Scale' (modified version)

A-BB/cm/mq/v/2/a

Selfreport on 10 questions:

- "During the past few weeks, did you ever feel?" (yes/no)
- A Particularly exited or interested in something?
 - B So restless that you couldn't sit long in a chair?
 - C Proud because someone complimented you on something you had done?
 - D Very lonely or remote from other people?
 - E Pleased about having accomplished something?
 - F Bored?
 - G On top of the world?
 - H Depressed or very unhappy?
 - I That things were going your way?
 - J Upset because someone criticized you?

Answer options and scoring:

yes = 1

no = 0

Summation:

-Affect Balance Score (ABS): PAS minus NAS

Possible range: -5 to +5

Name: Bradburn's 'Affect Balance Scale' (standard version)

A-BB/cm/mq/v/5/a

Selfreport on 13 questions:

"During the past four weeks have you ever felt....?" (yes/no)

- A Pleased about having accomplished something.
- B Things going my way.
- C Proud because someone complimented me on something I had done.
- D Particularly excited or interested in something I had done.
- E On top of the world.
- F A deep sense of joy.
- G Pleased because my life feels orderly and secure.
- H Bored.
- I Very lonely and remote from other people.
- J Jealous of somebody.
- K Angry with someone.
- L Disappointed in myself..
- M Unhappy about the small number of times I have pleasant feelings and experiences.

Answer options:

0 no

yes

If yes: How often did you feel so?

5 every day

4 several times a week

3 once a week

2 2 or 3 times a month

1 once a month

Summation:

- Positive Affect Score (PAS): Average A to G
- Negative Affect Score (NAS): Average H to M
- Affect Balance Score (AB): PAS minus NAS

Possible range: +42 tot -30

Name : Bradburn's 'Affected Balance Scale' (modified version)

A-BB/cq/mq/v/3/a

Selfreport on 10 questions:

"During the past few months, have you ever felt..... (often, sometimes, never?"

- A Particularly excited or interested in something?
- B So restless that you couldn't sit long in a chair?
- C Proud because someone complimented you on something you had done?
- D Very lonely or remote from other people?
- E Pleased about having accomplished something?
- F Bored?
- G Depressed or very unhappy?
- H That things were going your way?
- I Upset because someone criticized you?

Answer options and scoring:

0 = no

if yes
3 often
2 sometimes
1 never

Summation:

-Positive Affect Score (PAS): A+C+E+I

-Negative Affect Score (NAS): B+D+F+H+J

-Affect Balance Score (ABS): PAS minus NAS

Possible range: -15 to +12

Name: Bradburn's 'Affect Balance Scale' (standard version)

A-BB/cw/mq/v/2/a

Selfreport on 10 questions:

"During the past week, did you ever feel.....?"

- A So restless that you could not sit long in a chair
- B Proud, because someone had complimented you
- C Very lonely or remote from people?
- D Pleased about having accomplished something
- E Bored
- F On top of the world?
- G Depressed
- H That things were going your way?
- I Upset because someone criticized you?
- J Could not do anything, simply because you could not start?

Answer options and scoring:

- yes = 1
- no = 0

Summation:

Positive Affect Score (PAS): summed scores on B,D F,H

Negative Affect Score (NAS): summed scores on A,C,E,G,I,J

Affect Balance Score (ABS): PAS minus NAS

Possible range -6 to +4

Name: Bradburn's 'Affect Balance Scale' (adapted version)

A-BB/cw/mq/v/4/a

Selfreport on 11 questions:

"During the past few weeks, did you ever feel.....?"

- A angry
- B bored
- C could not get going
- D depressed
- E lonely
- F too busy
- G uneasy
- H exited
- I on top of the world
- J pleased

K proud

Answer options and scoring:

- yes = 1

- no = 0

Positive Affect Score (PAS): summed scores on H, I, J, K

Negative Affect Score (NAS): summed scores A, B, C, D, E, F, G

Affect Balance Score (ABS): PAS minus NAS

Possible range: -7 to +5

Name: Bradburn's 'Affect Balance Scale' (modified version)

A-BB/cw/mq/v/4/c

Selfreport on 8 questions:

"In the past few weeks did you ever feel.....?"

A Pleased about having accomplished something

B Upset because someone criticized you

C Proud because someone complimented you one something you had done

D That things are going your way

E So restless you couldn't sit long in a chair

F Unhappy or depressed

G Particularly interested in something

H Lonely and remote from other people

Response options:

0 not at all

1 sometimes

2 often

3 very often

Scoring: a = 0.....d = 3

Summation:

Positive Affect Score (PAS): summed scores on A, C, D, G

Negative Affect Score (NAS): summed scores on B, E, F, H

Affect Balance Score (ABS): PAS minus NAS

Name: Bradburn's Affect Balance Scale (variant)

A-BB/cw/mq/v/4/d

Selfreport on 8 questions.

"During the past week, did you ever feel.....?"

A very lonely

B restless

C bored

D depressed

E on top of the world

F excited or interested

G pleased about accomplishment

H proud

Answer options:

- 1 never
- 2 once
- 3 several times
- 4 often

Summation:

- Positive Affect Score (PAS): $E+F+G+H$
- Negative Affect Score (NAS): $A+B+C+D$
- Affect Balance Score (ABS): $PAS-NAS+13$

Name: Bradburn's Affect Balance Scale (modified version)

A-BB/cw/mq/v/4/f

Selfreport on 10 questions:

"We are interested in how people are feeling these days. The following items describe some of the ways people feel at different times. Please indicate how often you felt each way during the last week

- A Pleased about having accomplished something.
- B That things were going my way.
- C Proud because someone complimented me on something I had done.
- D Particularly excited or interested in something I had done.
- E On top of the world.
- F Upset because someone criticized you
- G So restless that you could not sit long in a chair
- H Bored
- I Very lonely or remote from other people
- J Depressed or very unhappy

Answer options:

- 0 not at all
- 1 once
- 2 several times
- 3 often

Summation:

- Positive Affect Score (PAS): Average A to E
- Negative Affect Score (NAS): Average F to J
- Affect Balance Score (AB): $PAS - NAS$
- Possible range: -25 to +25

Name : Bradburn's 'Affected Balance Scale' (modified version)

A-BB/cy/mq/v/2/a

Selfreport on 10 questions asked 4 times a year at 3 month intervals.

"During the past few weeks, did you ever feel.....?" (yes/no)

- A Particularly excited, or interested in something?
- B So restless that you could not sit long in a chair?
- C Proud because someone complimented you on something you had done?
- D Very lonely or remote from people?
- E Pleased about having accomplished something?

- F Bored?
- G On top of the world?
- H Depressed?
- I That things were going your way?
- J Upset because someone criticized you?

Scoring: yes = 1, no is = 0

Summation:

-Positive Affect Score (PAS): A+C+E+G+I

-Negative Affect Score (NAS): B+D+F+H+J

-Affect Balance Score (ABS): PAS minus NAS

Possible: range: -5 to +5

Name: Bradburn's 'Affect Balance Scale'

Selfreport on 96 questions:

SENTENCES

Each of the sentences below describe a FEELING. Mark HOW OFTEN you had that feeling during the past week;

- A Nothing goes right with me
- B I feel close to people around me
- C I feel as though the best years of my life are over
- D I feel my life is on the right track
- E I feel loved and trusted
- F My work gives me a lot of pleasure
- G I don't like myself
- H I feel very tense
- I I feel life isn't worth living
- J I am content with myself
- K My past life is filled with failure
- L Everything I do seems worthwhile
- M I can't be bothered doing anything
- N I feel I can do whatever I want to
- O I have lost interest in other people and don't care about them
- P Everything is going right for me
- Q I can express my feelings and emotions towards other people
- R I'm easy going
- S I seem to be left alone when I don't want to be
- T I wish I could change some parts of my life
- U I seem to have no real drive to do anything
- V The future looks good
- W I become very lonely
- X I can concentrate well on what I'm doing
- Y I feel out of place
- Z I think clearly and creatively
- AA I feel alone
- AB I feel free and easy
- AC I smile and laugh a lot
- AD I feel things are going my way

-
- AE The world seems a cold and impersonal place
 - AF I feel I've made a mess of things again
 - AG I feel like hiding away
 - AH I feel confident about decisions I make
 - AI I feel depressed for no apparent reason
 - AJ I feel other people like me
 - AK I feel like a failure
 - AL I feel I'm a complete person
 - AM I'm not sure I'm doing the right thing
 - AN My future looks good
 - AO I'm making the most out of my life
 - AP Everything is going right for me
 - AQ I feel unimportant
 - AR I feel as though there must be something wrong with me
 - AS I don't feel like making the effort to do anything
 - AT I feel confident in my dealings with the opposite sex
 - AU I want to hurt those who have hurt me
 - AV The results I have obtained make my efforts worthwhile

ADJECTIVES

Each of the objectives below describe a FEELING. Mark HOW OFTEN you had that feeling during the past week;

- A Confident
- B Hopeless
- C Pleasant
- D Insignificant
- E Discontented
- F Healthy
- G Dejected
- H Annoyed
- I Down
- J Glad
- K Glowing
- L Relaxed
- M Comfortable
- N Moody
- O Understood
- P Blue
- Q Miserable
- R Joyful
- S Tense
- T Insecure
- U Shaky
- V Satisfied
- W Safe
- X Successful

Rating by two independent staffmembers who were familiar with the patient.

7 happy

6

5

4

3

2

1 depressed

A-CP/g/rdp/ro/7/a

Peer rating on single question (based on contact during 6 months):

Rater instruction: "personal qualities are named and briefly annotated in this schedule. If you have any doubt as to the meaning of any of them, please ask me (investigator)

2. In the columns under each subject's name, place one of the marks for each of the qualities specified (+3, +2, +1, 0, -1, -2, -3) To avoid errors, please put the + sign as well as the -

'General tendency to be 'cheerful' (as opposed to being depressed and low spirited)

+3 very high compared to average

+2 distinctly above average

+1 slightly above average

0 average

-1 slightly below average

-2 distinctly below average

-3 lowest as compared to average

C-A/h/sq/v/3/a

Selfreport on single question:

"How do you feel about what you have accomplished in life...?"

3 well satisfied

2 reasonable satisfied

1 dissatisfied:

C-ASG/h/mq/v/5/a

Selfreport on 2 questions:

A. "How important was each of the following goals in life in the plans you made for yourself in early adulthood?"

- occupational success
- family life
- friendships
- richness of cultural life
- total service to society.

1 less important to me than to most people

2

3

4

5 of prime importance to me

B. "How successful have you been in the pursuit of these goals?"

1 little satisfaction in this area

2

3

4

5 had excellent fortune in this respect

Computation: General Satisfaction 5 is the quotient obtained by multiplying the planned goal (early adulthood) by the reported success in attaining that goal, adding the five of these multiplied areas and dividing them by the sum of the planned goals for each of the areas.

$$\frac{Pa.Sa + Pb.Sb + Pc.Sc + Pd.Sd + Pe.Se}{Pa + Pb + Pc + Pd + Pe}$$

$$Pa + Pb + Pc + Pd + Pe$$

Pa = planned goal a (1-5)

Sa = success goal a (1-5)

On the web you will find an overview of valid queries on happiness and an explanation of the classification used. Go to: www.eur.nl/fsw/research/happiness/hap_quer/hqi_fp.htm. This is the introductory text to the Catalog of Happiness Queries.

Appendix 2 *Statistics used in reported studies*

<i>Symbol</i>	<i>Explanation</i>
AoV	<p>ANALYSIS of VARIANCE (ANOVA)</p> <p>Type: statistical procedure</p> <p>Measurement level: Correlate(s): nominal, Happiness: metric.</p> <p>In an ANOVA, the total happiness variability, expressed as the sum of squares, is split into two or more parts, each of which is assigned to a source of variability. At least one of those sources is the variability of the correlate, in case there is only one, and always one other is the residual variability, which includes all unspecified influences on the happiness variable. Each sum of squares has its own number of degrees of freedom (df), which sum up to Ne -1 for the total variability. If a sum of squares (SS) is divided by its own number of df, a mean square (MS) is obtained. The ratio of two correctly selected mean squares has an F-distribution under the hypothesis that the corresponding association has a zero-value.</p> <p>NOTE: A significantly high F-value only indicates that, in case of a single correlate, the largest of the c mean values is systematically larger than the smallest one. Conclusions about the other pairs of means require the application of a Multiple Comparisons Procedure (see e.g. BONFERRONI's MULTIPLE COMPARISON TEST, DUNCAN's MULTIPLE RANGE TEST or STUDENT-NEWMAN-KEULS)</p>
Beta	<p>(β) STANDARDIZED REGRESSION COEFFICIENT</p> <p>Type: test statistic.</p> <p>Measurement level: Correlates: all metric, Happiness!: metric.</p> <p>Range: [-1 ; +1]</p> <p>Meaning:</p> <p>beta > 0 « a higher correlate level corresponds with, on an average, higher happiness rating.</p> <p>beta < 0 « a higher correlate level corresponds with, on an average, lower happiness rating.</p> <p>beta = 0 « no correlation.</p> <p>beta = + 1 or -1 « perfect correlation.</p>
Chi ²	<p>CHI-SQUARE</p> <p>Type: test statistic</p> <p>Range: [0; Ne*(min(c,r)-1)], where c and r are the number of columns and rows respectively in a cross tabulation of Ne sample elements.</p> <p>Meaning:</p> <p>Chi² <= (c-1) * (r-1) means: no association</p> <p>Chi² >> (c-1) * (r-1) means: strong association</p>
DM	<p>DIFFERENCE of MEANS</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate: dichotomous, Happiness: metric</p> <p>Range: depending on the happiness rating scale of the author; range symmetric about zero.</p> <p>Meaning: the difference of the mean happiness, as measured on the author's rating scale, between the two correlate levels.</p>
DMt	

	<p>DIFFERENCE of MEANS AFTER TRANSFORMATION</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate: dichotomous, Happiness: metric</p> <p>Theoretical range: [-10; +10]</p>
G	<p>Meaning: the difference of the mean happiness (happiness measured at a 0-10 rating scale) between the two correlate levels.</p> <p>GOODMAN & Kruskal's GAMMA</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: ordinal, Happiness: ordinal</p> <p>Range: [-1; +1]</p> <p>Meaning:</p> <p>$G = 0$ « no rank correlation</p> <p>$G = +1$ « strongest possible rank correlation, where high correlate values correspond with high happiness ratings.</p> <p>$G = -1$ « strongest possible rank correlation, where high correlate values correspond with low happiness ratings.</p>
r	<p>PRODUCT-MOMENT CORRELATION COEFFICIENT (Also "Pearson's correlation coefficient" or simply 'correlation coefficient')</p> <p>Type: test statistic.</p> <p>Measurement level: Correlate: metric, Happiness: metric</p> <p>Range: [-1; +1]</p> <p>Meaning:</p> <p>$r = 0$ « no correlation ,</p> <p>$r = 1$ « perfect correlation, where high correlate values correspond with high happiness values, and</p> <p>$r = -1$ « perfect correlation, where high correlate values correspond with low happiness values.</p>
rs	<p>SPEARMAN'S RANK CORRELATION COEFFICIENT</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: ordinal, Happiness: ordinal.</p> <p>Range: [-1; +1]</p> <p>Meaning:</p> <p>$rs = 0$ « no rank correlation</p> <p>$rs = 1$ « perfect rank correlation, where high correlate values are associated with high happiness ratings</p> <p>$rs = -1$ « perfect rank correlation, where high correlate values are associated with low happiness ratings</p>
SNR	<p>Statistic Not Reported</p>
tau	<p>GOODMAN & Kruskal's TAU</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate: nominal, Happiness: ordinal</p> <p>Range: [0; +1]</p> <p>Meaning:</p> <p>$\tau = 0$ « knowledge of the correlate value does not improve the prediction quality of the happiness rating.</p> <p>$\tau = 1$ « knowledge of the correlate value enables a perfect (error-free) prediction of</p>

tb the happiness rating.
KENDALL'S RANK CORRELATION COEFFICIENT TAU-B
Type: test statistic
Measurement level: Correlate: ordinal, Happiness: ordinal
Range: [-1; +1]

Meaning:
tb = 0 « no rank correlation
tb = 1 « perfect rank correlation, where high values of the correlate correspond with high happiness ratings.
tb = -1 « perfect rank correlation, where high values of the correlate correspond with low happiness ratings.

On the web you will find a text explaining the statistics used in more detail. Go to:
www.eur.nl/fsw/research/happiness/hap_cor/cor_fp.htm. This is the introductory text to the Catalog of Correlational Findings. An overview of all statistics is in chapter 4.

Appendix 3: About the World Database of Happiness

The World Database of Happiness is an ongoing register of scientific research on subjective appreciation of life. It brings together findings that are scattered throughout many studies and provides a basis for synthetic analysis. The research literature is processed as follows:

- 1 BIBLIOGRAPHY OF HAPPINESS Presents all contemporary scientific publications. Detailed subject-classification. Current contents: 3422 titles, mainly in English.
- 2 DIRECTORY OF INVESTIGATORS Names and addresses of most authors on the subject. Enumerates years of publication. Current contents: 5818 names and 3073 addresses. Part of Bibliography.
- 3 CATALOG OF HAPPINESS QUERIES (testbank) Presents all indicators that tap happiness as defined here. Current content: 522 measures, mostly single questions. Queries are classified by focus, time reference, mode of observation, rating and wording.
- 4 CATALOG OF HAPPINESS IN NATIONS Presents distributional research findings, in particular responses to questions on happiness in national survey studies. Allows comparison across time and nations. Current content: 1889 surveys in 112 nations, 1946-2000.
- 5 CATALOG OF HAPPINESS IN PUBLICS Distributional findings on happiness in special publics within nations, such as aged people. Current contents: 705 studies. Part of Catalog of Correlational Findings.
- 6 CATALOG OF CORRELATIONAL FINDINGS Presents abstracts of correlational research findings. Detailed subject-classification. Allows comparison through time and across nations. Current contents: 7476 findings from 705 studies in 140 nations, 1911-2000.
