Study	BRAY 1980	<i>Page in Report:</i>	278
<i>Reported in:</i>	Bray, D.W. & Howard, A. Career Success and Life Satisfactions of Middle-Aged Managers Competence and coping during adulthood, pp 258-287, University Press of New England, Hanover, New Hampshire 1980. Also "Managerial Lives in Transition" by Howard, A. & Bray, D.W., The Guilford Press 1988.		
<i>Population:</i>	40+ aged, male managers, Bell Telephone Company, 1978		
<i>Sample:</i>	Non-probability purposive-quota sample		
<i>Non-Response:</i>	panel loss at T5: 37%		
<i>N:</i>	422 **)		

Measured Correlate

Class: Earlier sex-life Code: S 3.1.1

Measurement: Edwards Personal Preference Schedule (EPPS) scale of
heterosexuality.

This inventory reflects a need for social and sexual activities
with the opposite sex as well as enjoying discussions, stories,
and jokes involving sex.

Assessed at T1 (20 years before T5).

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
M-PL/c/rc/v/5/a	r=-.27 p<.01	T1 need for heterosexuality by T5 happiness. Later analysis of the full studygroup (N=266) also showed a significantly negative correlation (BRAY 1983 p 302).

Study	PALMO 1977	<i>Page in Report:</i>	313
<i>Reported in:</i>	Palmore, E.B. and Kivett, V. Change in Life Satisfaction: A Longitudinal Study of Persons Aged 46-70 Journal of Gerontology, Vol 32, 1977, p 311-316		
<i>Population:</i>	46+ aged whites, North Carolina, USA, 1968-1972/74		
<i>Sample:</i>	Probability stratified sample		
<i>Non-Response:</i>			
<i>N:</i>	378		

Measured Correlate

Class: . earlier satisfaction with sex-life Code: S 3.1.1.2

Measurement: How much pleasure or enjoyment do you have during sexrelation at the present time?
0 = none
1 = mild
2 = moderate
3 = very much

Assessed at T1= 1968/70.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-BW/c/sq/l/10/c	r=+.14 p<.05	T1 enjoyment by T1 happiness
	r=+.16 p<.01	T1 enjoyment by T2 happiness
	r=+.13 p<.01	T1 enjoyment by T3 happiness
	Beta=+.0 ns	Multiple regression Dependent T1 life satisfaction. Selfrated health R= +. 42 Sexual enjoyment B1=+. 43 Soc. Act. hours B2=+. 44 Org. activity B3=+. 46 Productive hours B4=+. 46
	Beta=+.1 p<.05	Multiple regression Dependent T2 life satisfaction. Selfrated health R= +. 42 Sexual enjoyment B1=+. 43 Soc. Act. hours B2=+. 44 Org. activity B3=+. 46 Productive hours B4=+. 46

Beta=+.1 p<.05 Multiple regression Dependent T3 Life satisfaction.
Self-rated health R= +. 42
Sexual enjoyment B1=+. 43
Soc. Act. hours B2=+. 44
Org. activity B3=+. 46
Productive hours B4=+. 46

Study	PALMO 1981	<i>Page in Report:</i>	103
<i>Reported in:</i>	Palmore, E.B. Social Patterns in Normal Aging: Findings from the Duke Longitudinal Study. Duke University Press, Durham, North Carolina, USA, 1981; pp 95-107.		
<i>Population:</i>	46+ aged whites, North Carolina, USA, 1968 - 1976.		
<i>Sample:</i>	Probability stratified sample		
<i>Non-Response:</i>			
<i>N:</i>	375		

Measured Correlate

Class: . earlier satisfaction with sex-life Code: S 3.1.1.2

Measurement: Closed question: " How much pleasure or enjoyment do you have during sex relations at the present time?"
0= none
1= mild
2= moderate
3= very much
Assessed at T1.

Measured Values:

Error Estimates:

Remarks:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
O-BW/c/sq/l/10/c	r=+.14 p<.05	Men T1 sexual enjoyment by T2 life satisfaction.
	r=+.14 p<.05	Women T1 sexual enjoyment by T2 life satisfaction.

Study	HAES 1987	<i>Page in Report:</i>	7
<i>Reported in:</i>	Haes de, J.C.J.M., Pennink, B.J.W. & Welvaart, K. The distinction between affect and cognition Social Indicators Research, 1987, Vol 19, p.367-378		
<i>Population:</i>	Early breast cancer patient, followed 11 and 18 month after treatment, The Netherlands, 1981-1987		
<i>Sample:</i>			
<i>Non-Response:</i>	17% (6 refusals and one death in the meantime)		
<i>N:</i>	34		

Measured Correlate

<i>Class:</i>	Change in sex-life Code: S 3.1.2
<i>Measurement:</i>	Rotterdam Symptom Checklist (see de Haes, Pruyn & van Knippenberg, 1983)
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	Synchronic correlations at:

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-AOL/se/sq/v/7/a	Beta=-.2 Beta=+.0	11 months after surgery (T1) Synchronic correlations at: 18 months after surgery (T2) β controlled for: Psychological complaints, pain, gastro-intestinal symptoms, fatigue, activity level, perceived impact of breast-surgery on body image, and fear of recurrence of cancer and death
O-SLW/se/sq/?/7/a	Beta=+.1 Beta=-.1	11 months after surgery (T1) 18 months after surgery (T2) β controlled for: Psychological complaints, fatigue, gastro-intestinal symptoms, pain, activity level, perceived impact of breast-surgery on body image, and fear of recurrence of cancer and death

Study	HEADE 1982/2	<i>Page in Report:</i>	53
<i>Reported in:</i>	Headey, B.; Holström, E.; Wearing, A.J. Australians' Priorities, Satisfaction and Well-being: Methodological Issues Monograph in Public Policy Studies, nr.8, University of Melbourne, 1982, Australia		
<i>Population:</i>	Adults, general public, Melbourne, Australia, followed 25 months 1978-81		
<i>Sample:</i>	Probability sample (unspecified)		
<i>Non-Response:</i>	0		
<i>N:</i>	184		

Measured Correlate

<i>Class:</i>	Change in sex-life Code: S 3.1.2
<i>Measurement:</i>	Single question on satisfaction with sex life, scored on a 1-9 D-T rating scale.
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	Both Happiness (ABS) and satisfaction with sex life were assessed at T1 and T2 (25 month interval)

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cm/mq/v/2/a	Beta=+.2 p<.001	T1-T2 CHANGE in happiness by T1-T2 CHANGE in satisfaction with sex life
	Beta=+.1 p<.05	T1-T2 CHANGE in happiness by T1-T2 CHANGE in satisfaction with sex life Beta controlled for satisfaction with - standard of living - health - house - friends - self-fulfillment - leisure

Study	HEADE 1984	<i>Page in Report:</i>	221
<i>Reported in:</i>	Headey,B., Holmstroem,E. & Wearing,A. The impact of life events and changes in domain-satisfaction on well-being Social Indicators Research Vol.15 (1984), p.203-227		
<i>Population:</i>	18-65 aged, general public, followed 3 years, Melbourne, Australia, 1979-80		
<i>Sample:</i>			
<i>Non-Response:</i>			
<i>N:</i>	184		

Measured Correlate

<i>Class:</i>	. change in satisfaction with sex-life Code: S 3.1.2.2
<i>Measurement:</i>	Closed question rated on a 9- point scale (delighted ... terrible) Assessed at T2.
<i>Measured Values:</i>	
<i>Error Estimates:</i>	
<i>Remarks:</i>	

Observed Relation with Happiness

<i>Happiness Query</i>	<i>Statistics</i>	<i>Remarks</i>
A-BB/cm/mq/v/2/a	Beta=+.2 p<.01	Happiness T2 by satisfaction T2, controlling for happiness T1 and satisfaction T1. β can be interpreted as regression between CHANGE OF HAPPINESS and CHANGE OF SATISFACTION in time.

Study	VENTE 1995	<i>Page in Report:</i>	280
<i>Reported in:</i>	Ventegodt, S. Livskvalitet i Danmark.(Quality of Life in Denmark) Forskningscentrets Forlag (The Quality of Life Research Center), København, Denmark, ISBN 8790190017		
<i>Population:</i>	18-88 aged, general public, Denmark, 1993		
<i>Sample:</i>	Non-probability purposive sample (unspecified)		
<i>Non-Response:</i>	39%		
<i>N:</i>	1494		

Measured Correlate

<i>Class:</i>	Current sex-life Code: S 3.2
<i>Measurement:</i>	Single question: "Do you feel that you have sexual problems?" 0 : no 1a: yes, but they are not related to any prolonged illness, handi cap 1b: yes, and they are related to a prolonged illness/handi cap
<i>Measured Values:</i>	N: All:1377, 0:1068, 1a:277, 1b:3:32
<i>Error Estimates:</i>	
<i>Remarks:</i>

Appendix 1 **Queries on Happiness used in reported Studies**

Happiness Query Code *Full Text*

A-AOL/m/sq/v/5/a

Single direct question:
'How are you feeling now....?'
5 very good
4 good
3 neither good nor poor
2 poor
1 very poor

Original text in Danish:
'Hvordan har du det for tiden?'
5 meget godt
4 godt
3 hverken godt eller dårligt
2 dårligt
1 meget dårligt

A-AOL/se/sq/v/7/a

Selfreport on single question

"Taken things together: how did you feel since you got ill...?"
7 very good
6
5
4
3
2
1 very bad

A-BB/cm/mq/v/2/a

Selfreport on 10 questions:

"During the past few weeks, did you ever feel?" (yes/no)
A Particularly excited or interested in something?
B So restless that you couldn't sit long in a chair?
C Proud because someone complimented you on something you had done?
D Very lonely or remote from other people?
E Pleased about having accomplished something?
F Bored?
G On top of the world?
H Depressed or very unhappy?
I That things were going your way?
J Upset because someone criticized you?

Answer options and scoring:

yes = 1
no = 0

Summation:

-Positive Affect Score (PAS): A+C+E+G+I
-Negative Affect Score (NAS): B+D+F+H+J
-Affect Balance Score (ABS): PAS minus NAS

	Possible range: -5 to +5
A-CP/g/sq/v/7/a	<p>Name: Bradburn's 'Affect Balance Scale' (standard version) Selfreport on single question:</p> <p>"Check one of the following groups of adjectives which best describes you." 7 full of deep joy, excitedly happy, enthousiastic, thrilled 6 cheerful, succesful, optimistic, lighthearted 5 satisfied, comfortable, life goes smoothly, peaceful 4 contented at times and at other times discontented, life has both favorable and unfavorable features 3 restless, impatient, uncertain, dull, cross, confined 2 anxious, irritated, discouraged, disappointed, discontented 1 gloomy, miserable, a failure, no pleasure in anything</p>
M-AO/c/mq/*/0/a	<p>Selfreport on 4 questions:</p> <p>A "For the past five years, how much have you accomplished of what you planned in your life?" B "How much are you satisfied with your life as a whole these days?" C "How much do you enjoy your life these days?" D "How happy have you been for the past five years?"</p>
M-PL/c/rc/v/5/a	<p>Summation: simple average Clinical rating by 4 experts on the basis of multi-method assesments during periodical stays in assesment center.</p> <p>Rater instruction: "To what extend does this person find pleasure in life at the present time.....?" 1 low 2 3 average 4 5 high</p>
M-TH/g/sq/v/11/a	<p>Selfreport on single question:</p> <p>Lead item not reported 11 completely and supremely happy, tremendous joy and elation all the time 10 9 8 very happy most of the time 7 6 happy most of the time 5 4 . not very happy most of the time 3 2. 1 completely utterly unhappy, terrible depression and gloom all the time (originally presented horizontally)</p>
M-TH/g/sq/v/9/a	<p>Self report on single question:</p>

"Please estimate your happiness on the scale below by marking a number from 1 to 9"

1 not very happy most of the time

2

3

4

5 happy most of the time

6

7

8

9 very happy most of the time

O-BW/c/sq/l/10/c

Selfreport on single question:

"Here is a picture of a ladder. Suppose we say that the top of the ladder (10) represents the best possible life for you and the bottom (1) represents the worst possible life for you. Where on the ladder do you feel personally stand at the present time?"

[9] best possible life for you

[8]

[7]

[6]

[5]

[4]

[3]

[2]

[1]

[0] worst possible life for you

O-DT/u/sq/v/7/a

Name: Cantril's selfanchoring ladder rating of life (adapted version)

Selfreport on single question, asked twice in interview:

"How do you feel about your life as a whole.....?"

7 delighted

6 pleased

5 mostly satisfied

4 mixed

3 mostly dissatisfied

2 unhappy

1 terrible

Summation: arithmetic mean

O-DT/u/sq/v/9/a

Name: Andrews & Withey's "Delighted-Terrible Scale" (original version)

Selfreport on single question asked twice

'How do you feel about your life as a whole?'

1 terrible

2 very unhappy

3 unhappy

	<ul style="list-style-type: none"> 4 mostly dissatisfied 5 mixed feelings 6 mostly satisfied 7 pleased 8 very pleased 9 delighted
O-HL/c/sq/v/5/a	<p>Selfreport on single question:</p> <p>"Taking all things together in your life, how would you say things are these days? Would you say you are?"</p> <ul style="list-style-type: none"> 5 very happy 4 happy 3 neither happy nor unhappy 2 unhappy 1 very unhappy
O-HL/c/sq/v/5/h	<p>Selfreport on single question</p> <p>'How happy are you now?'</p> <ul style="list-style-type: none"> 5 very happy 4 happy 3 neither happy nor unhappy 2 unhappy 1 very unhappy
O-HL/g/sq/n/9/a	<p>Original text in Danish: 'Hvor lykkelig er du for tiden?'</p> <ul style="list-style-type: none"> 5 meget lykkelig 4 lykkelig 3 hverken eller 2 ullykkelig 1 meget ullykkelig <p>Selfreport on single question:</p> <p>"Generally, how happy are you.....?"</p> <ul style="list-style-type: none"> 1 not at all 2 3 4 5 6 7 8 9 completely
O-HP/g/sq/ol/7/a	<p>(Originally presented on a horizontal line scale)</p> <p>Selfreport on single question:</p> <p>"Generally speaking are you a happy person.....?"</p> <p>Responses were made on an open line scale, and were later coded in 7 categories:</p>

- 1 very unhappy
- 2
- 3
- 4
- 5
- 6
- 7 very happy.

Original text in Dutch:

"Bent u over het algemeen een gelukkig mens?"

- a zeer ongelukkig
- b
- c
- d
- e
- f
- g zeer gelukkig

O-HP/g/sq/v/3/a

Selfreport on single question:

"Do you consider yourself to be.....?"

- 3 generally happy
- 2 moderately happy
- 1 generally unhappy

O-QL?/c/mq/v/5/a

Selfreport on 3 questions:

A " When you consider your present life as-a-whole, would you say you are....?"

- 5 very happy
- 4 fairly happy
- 3 rather happy than unhappy
- 2 rather unhappy than happy
- 1 very unhappy
- DK/NA

B " When you consider your present life as-a-whole, would you say you are.....?"

- 5 very satisfied
- 4 fairly satisfied
- 3 rather satisfied than dissatisfied
- 2 rather dissatisfied than satisfied
- 1 fairly dissatisfied
- DK/NA

C " How do you feel right now? Is your well-being.....?"

- 5 very high
- 4 high
- 3 moderate
- 2 rather low
- 1 very low
- DK/NA

Summation: The summed scores were divided in three strata: low, medium and high quality of life

In German:

A "Wenn Sie ihr Leben jetzt alles in allem betrachten, sind Sie.....?"

- e sehr glücklich
- d ziemlich glücklich
- c eher glücklich
- b eher unglücklich
- a ziemlich unglücklich
- keine Angabe

B "Wenn Sie ihr Leben jetzt in allem betrachten, sind Sie.....?"

- e sehr zufrieden
- d ziemlich zufrieden
- c eher zufrieden
- b eher unzufrieden
- a ziemlich unzufrieden
- keine Angabe

C "Wie wohl fühlen Sie sich derzeit? Ist Ihr Wohlbefinden....?"

- e sehr gross
- d gross
- c mäßig
- b eher gering
- a sehr gering
- keine Angabe

O-SL?/?/sq/v/5/a

Selfreport on single question:

"..... satisfaction with life"

(full question not reported)

- 5 very satisfied
- 4 satisfied
- 3 don't know/satisfied
- 2 don't know/not satisfied
- 1 disappointed in life

O-SLu/c/sq/v/5/e

Selfreport on single question:

'How satisfied are you with your life now?'

- 5 very satisfied
- 2 satisfied
- 3 neither satisfied nor dissatisfied
- 2 dissatisfied
- 1 very dissatisfied

Original text in Danish:

'Hvor tilfreds er du med dit liv for tiden?'

- 5 meget tilfreds
- 4 tilfreds
- 3 hverken tilfreds eller utilfreds
- 2 utilfreds
- 1 meget utilfreds

O-SLW/se/sq/?/7/a

Selfreport on single question :

"How satisfied are you about your life as a whole since that time?"(onset of disease)

7 very satisfied

6

5

4

3

2

1 very dissatisfied

O-SLW/u/sq/v/5/d

Selfreport on single question:

"Taking your life as a whole, are you"?

5 very satisfied

4 quite satisfied

3 more satisfied than discontented

2 more discontented than satisfied

1 quite dissatisfied

In German:

"Wenn Sie Ihr Leben jetzt alles in allem betrachten, sind Sie.....?"

5 sehr zufrieden

4 ziemlich zufrieden

3 eher zufrieden

2 eher unzufrieden

1 ziemlich unzufrieden

O-SLW/u/sq/v/6/a

Selfreport on single question:

"How satisfying are these different aspects of your life? Indicate the number which best suits your situation. Life as a whole is....."

1 very dissatisfying

2 dissatisfying

3 rather dissatisfying

4 rather satisfying

5 satisfying

6 very satisfying

O-Sum/se/fi/?/5/a

This item was followed by eight questions on life domain satisfactions.

Selfreport in focussed interview:

Interviews on life after divorce, in which happiness and life-satisfaction were items. Content analysis of taped records by two raters. Rated instructions not reported

Ratings made on a 5 steps scale. (Rating scale not reported)

On the web you will find an overview of valid queries on happiness and an explanation of the classification used. Go to: www.eur.nl/fsw/research/happiness/hap_quer/hqi_fp.htm. This is the introductory text to the Catalog of Happiness Queries.

Appendix 2 *Statistics used in reported studies*

<i>Symbol</i>	<i>Explanation</i>
Beta	<p>(β) STANDARDIZED REGRESSION COEFFICIENT Type: test statistic. Measurement level: Correlates: all metric, Happiness: metric. Range: [-1 ; +1]</p> <p>Meaning: $\beta > 0$ « a higher correlate level corresponds with, on an average, higher happiness rating. $\beta < 0$ « a higher correlate level corresponds with, on an average, lower happiness rating. $\beta = 0$ « no correlation. $\beta = +1$ or -1 « perfect correlation.</p>
DM	<p>DIFFERENCE of MEANS Type: descriptive statistic only. Measurement level: Correlate: dichotomous, Happiness: metric Range: depending on the happiness rating scale of the author; range symmetric about zero.</p> <p>Meaning: the difference of the mean happiness, as measured on the author's rating scale, between the two correlate levels.</p>
DMt	<p>DIFFERENCE of MEANS AFTER TRANSFORMATION Type: descriptive statistic only. Measurement level: Correlate: dichotomous, Happiness: metric Theoretical range: [-10; +10]</p> <p>Meaning: the difference of the mean happiness (happiness measured at a 0-10 rating scale) between the two correlate levels.</p>
E ²	<p>CORRELATION RATIO (Elsewhere sometimes called h^2 or η^2) Type: test statistic Measurement level: Correlate: nominal or ordinal, Happiness: metric Range: [0; 1]</p> <p>Meaning: correlate is accountable for $E^2 \times 100$ % of the variation in happiness. $E^2 = 0$ « knowledge of the correlate value does not improve the prediction quality of the happiness rating. $E^2 = 1$ « knowledge of the correlate value enables an exact prediction of the happiness rating</p>
G	<p>GOODMAN & Kruskal's GAMMA Type: test statistic Measurement level: Correlate: ordinal, Happiness: ordinal Range: [-1; +1]</p> <p>Meaning: $G = 0$ « no rank correlation $G = +1$ « strongest possible rank correlation, where high correlate values correspond with high happiness ratings.</p>

r	<p>G = -1 « strongest possible rank correlation, where high correlate values correspond with low happiness ratings.</p> <p>PRODUCT-MOMENT CORRELATION COEFFICIENT (Also 'Pearson's correlation coefficient' or simply 'correlation coefficient')</p> <p>Type: test statistic.</p> <p>Measurement level: Correlate: metric, Happiness: metric</p> <p>Range: [-1; +1]</p> <p>Meaning: $r = 0$ « no correlation , $r = 1$ « perfect correlation, where high correlate values correspond with high happiness values, and $r = -1$ « perfect correlation, where high correlate values correspond with low happiness values.</p>
rpc	<p>PARTIAL CORRELATION COEFFICIENT</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: metric, Happiness: metric</p> <p>Range: [-1; +1]</p> <p>Meaning: a partial correlation between happiness and one of the correlates is that correlation, which remains after accounting for the contribution of the other influences, or some of them, to the total variability in the happiness scores.</p> <p>Under that conditions $rpc > 0$ « a higher correlate level corresponds with a higher happiness rating, $rpc < 0$ « a higher correlate level corresponds with a lower happiness rating,</p>
rs	<p>SPEARMAN'S RANK CORRELATION COEFFICIENT</p> <p>Type: test statistic</p> <p>Measurement level: Correlate: ordinal, Happiness: ordinal.</p> <p>Range: [-1; +1]</p> <p>Meaning: $rs = 0$ « no rank correlation $rs = 1$ « perfect rank correlation, where high correlate values are associated with high happiness ratings $rs = -1$ « perfect rank correlation, where high correlate values are associated with low happiness ratings</p>
SNR	<p>Statistic Not Reported</p>
tau	<p>GOODMAN & Kruskal's TAU</p> <p>Type: descriptive statistic only.</p> <p>Measurement level: Correlate: nominal, Happiness: ordinal</p> <p>Range: [0; +1]</p> <p>Meaning: $\tau = 0$ « knowledge of the correlate value does not improve the prediction quality of the happiness rating. $\tau = 1$ « knowledge of the correlate value enables a perfect (error-free) prediction of the happiness rating.</p>

On the web you will find a text explaining the statistics used in more detail. Go to: www.eur.nl/fsw/research/happiness/hap_cor/cor_fp.htm. This is the introductory text to the Catalog of Correlational Findings. An overview of all statistics is in chapter 4.

Appendix 3: About the World Database of Happiness

The World Database of Happiness is an ongoing register of scientific research on subjective appreciation of life. It brings together findings that are scattered throughout many studies and provides a basis for synthetic analysis. The research literature is processed as follows:

-
- 1 **BIBLIOGRAPHY OF HAPPINESS** Presents all contemporary scientific publications. Detailed subject-classification. Current contents: 3422 titles, mainly in English.
 - 2 **DIRECTORY OF INVESTIGATORS** Names and addresses of most authors on the subject. Enumerates years of publication. Current contents: 5818 names and 3073 addresses. Part of Bibliography.
 - 3 **CATALOG OF HAPPINESS QUERIES (testbank)** Presents all indicators that tap happiness as defined here. Current content: 522 measures, mostly single questions. Queries are classified by focus, time reference, mode of observation, rating and wording.
 - 4 **CATALOG OF HAPPINESS IN NATIONS** Presents distributional research findings, in particular responses to questions on happiness in national survey studies. Allows comparison across time and nations. Current content: 1889 surveys in 112 nations, 1946-2000.
 - 5 **CATALOG OF HAPPINESS IN PUBLICS** Distributional findings on happiness in special publics within nations, such as aged people. Current contents: 705 studies. Part of Catalog of Correlational Findings.
 - 6 **CATALOG OF CORRELATIONAL FINDINGS** Presents abstracts of correlational research findings. Detailed subject-classification. Allows comparison through time and across nations. Current contents: 7476 findings from 705 studies in 140 nations, 1911-2000.
